EXPORT PERFORMANCE INDICATORS 2019

SRI LANKA EXPORT DEVELOPMENT BOARD

EDB
EXPORT DEVELOPMENT BOARD
SRI LANKA

FOREWORD

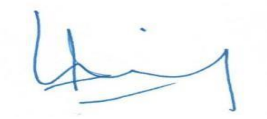
Export earnings and employment in direct and supportive sectors are expected to play an unprecedented role in the recovery, resilience and sustainability of the Sri Lanka's economy. The importance of exports as the engine of growth in the country is continuing to be the mainstream thinking among economists and policy makers, while challenges at hand are obviously multi-faceted and more complex than ever.

The EDB shares its flagship annual publication **"Export Performance Indicators of Sri Lanka 2019"**at this decisive juncture. This is the 33rd volume of a series of continuous outputs, the current volume updates export data for the year 2019 to historical data. As in the previous years, this publication is expected to serve as the single reference for all export related statistics.

This publication presents data for value of exports in USD from Sri Lanka during last five years (2015-2019), for around 150 products/product groups to 51 different country markets, and 21 major export market regions. Data for different products exported to individual markets and for individual products/product groups exported to different markets are also included, arranged by share-ranks in 2019. Performance of export sectors are analyzed and presented to convey a holistic picture.

EDB expects all users of this publication to consider it the authentic reference for export related statistics and use it in their analyses, so that it would shape the understanding of the export sector and its impact on the economy of the country. We look forward to feedback from the users on the content and way of presentation, so that future editions could be more relevant and useful.

The Policy & Strategic Planning team of the EDB coordinated this work. I wish to thank the Sri Lanka Customs which provided us the data accurately and speedily.



Mr. Prabhash Subasinghe
Chairman
Sri Lanka Export Development Board
16.06.2020

Sri Lanka Export Development Board (EDB) is the premier state organization entrusted with the task of developing and promoting exports from Sri Lanka. The EDB is geared towards promoting products and services of the country with the objective of making Sri Lanka the most sought after destination for global sourcing in identified product sectors.

EDB performs its key functions in five identified roles as policy advisor, monitor, promoter, facilitator and knowledge provider. In collaboration with all the relevant public and private sector stakeholders, the EDB formulates and implements the National Export Strategy in order to achieve the development objectives of the export sector of Sri Lanka. The new National Export Strategy 2018-2022 was launched in July 2018 with the aim of increasing export revenue to achieve the country's future export targets.

The Board of Directors of the EDB represents key Ministries and leading private sector entities at the highest level. The organization is manned by a qualified and professional staff who are specialized in their respective areas of operation and who maintain a close rapport with respective stakeholders. With this strong link between the government, the exporting companies and other public and private sector associations, the EDB is highly competent in assisting and creating business partnerships.

The EDB also covers the entire island through a network of provincial offices, further enhancing opportunities for buyers and suppliers. Having evolved into a dynamic and a focused entity that is proactive in outlook, the EDB is constantly on the lookout for new and innovative approaches to cater to the ever changing needs of the international market.

The EDB also focuses on broad-basing the beneficiaries of exports across the country with the objective of percolating the benefits of exports to the grass root level. The implementation of a series of regional export development programmes by the organization will lead to long term, sustainable economic growth by absorbing the talents and capabilities of the rural sector into the export development efforts of the country.

9. STRUCTURE OF SRI LANKA'S EXPORTS

Tea
- Tea packets
- Tea bags
- Other tea
- Tea in bulk

Coconut
- Kernel products
- Fibre & fibre based products
- Shell based products

Natural Rubber

Fruits and vegetables

Other export crops
- Spices & concentrates
- Unmanufactured tobacco & others
- Cut flowers & foliage

Agricultural products

Fisheries products

Seafood

Crustaceans

Other fish products

Aquarium fish

Logistics

Education

Professional services

Wellness tourism

ICT/BPM

Construction

Services

Industrial products

Textiles & Garments

Petroleum products

Diamonds, Gems & Jewellery

Manufactures
- Food & Beverages
- Paper & paper products
- Rubber finished products
- Electronic, Electrical & Mechanical products
- Transport equipment & parts
- Ships & Boat Building products
- Chemical & Plastic products
- Non metallic mineral products
- Base Metal products
- Wooden products
- Footwear & leather products
- Other manufacturers

16. IMPLEMENTATION OF THE NATIONAL EXPORT STRATEGY (NES)(2018 - 2022)

Our export development **vision :**

'Sri Lanka: An Export Hub Driven by Innovation and Investment'

Guided by four **strategic objectives :**

- To have a business enabling, predictable and transparent policy and regulatory framework that supports exports
- To Strengthen Sri Lankan exporters' market - entry and compliance capacities
- To become an efficient trade and logistics hub to facilitate exports
- To drive export diversification through innovation and by strengthening emerging sectors

Improved business environment for **all export sectors** through :

- Logistics
- Trade Information and Promotion
- National Quality Infrastructure
- Innovation and Entrepreneurship

Six **focus sectors** for innovation and export diversification :

- IT-BPM
- Wellness Tourism
- Boat Building
- Electrical and Electronic Components
- Processed Food and Beverages
- Spices and Concentrates

19. MARKET CONCENTRATION OF SRI LANKA'S EXPORT PRODUCT SECTOR

Concentration index is a statistical parameter which provides a measurement of the market concentration of certain product, a product sector or of all products of a country as a whole. Ideally lower the market concentrations lower the risk for exports due to market failure. Market should be discrete and the share of each market should be fairly equal, so that the collapse of one or a few markets will not seriously affect the product's overall exports. To analyse the said scenario and evaluate the concentration index the following formula has been used.

Concentration Index = $$\left(\sqrt{\left[\sum_{i=1}^{n}\left(\frac{xi}{X}\right)^2 - \sqrt{1/n}\right]}\Big|1 - \sqrt{1/n}\right) \times 100$$

Xi = A Product sector's exports to country i (i = UK, USA, Italy…)

X = Total of a product sector's exports to all countries (X = Xi + .. + Xn)

n = Number of buyer countries

This formula takes into account the export share in each market of a particular product and calculates an index which can vary between the limits zero and hundred. The optimal situation of the index would be when the concentration index is zero, which is when the shares are exactly equal among all the markets. At the other extreme, the value goes up to 100 if the market shares are drastically different from each other with the difference between the highest share and the lowest share being considerably large.

The calculated indices for the main export product sectors of Sri Lanka are tabulated below.

19.1. CONCENTRATION INDICES AND NUMBER OF DESTINATIONS BY MAJOR PRODUCT SECTORS 1990 – 2019

Table - 19.1.1

	Product Description	1990		2000		2010		2015		2016		2017		2018		2019

3	**Industrial Exports**	**93**	**37.4**	**142**	**50.2**	**179**	**29.1**	**172**	**33.7**	**183**	**32.7**	**182**	**31.5**	**184**	**31.2**	**177**	**31**
3.1	Diamonds, Gems & Jewellery	33	41.8	45	25.9	41	53.3	34	52.9	33	29.6	34	24.1	35	27.2	35	29.7
3.2	Apparel & Textiles	62	62	102	60.2	125	42.9	124	44	129	43.5	132	42.9	132	42.5	135	41.6
3.3	Food, Feed & Beverages	34	10.9	44	15.9	96	28.8	102	22.9	106	18.6	101	20.5	113	23.9	135	25.3
3.4	Electrical & Electronic Products	38	13.9	57	28.4	86	25.8	96	21.9	88	20	92	16	95	20.3	91	18.4
3.5	Boat Building	8	41.7	5	25	16	58.2	13	88.6	11	50.8	16	66.5	22	81.6	21	86.5
	Total Merchandise Exports	**123**	**23**	**170**	**39.7**	**193**	**21.7**	**186**	**26.5**	**194**	**26.3**	**193**	**24.7**	**196**	**25.1**	**189**	**53.2**

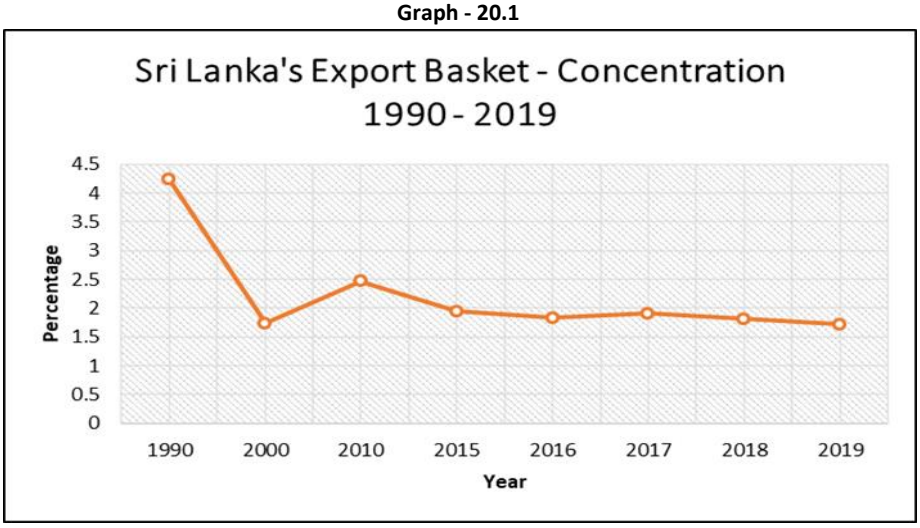
The table reveals that all product sectors have diversified their number of destinations over the period of 1990 – 2019. Almost all the sectors namely Tea, Coconut & Coconut based Products, Fish & Fisheries Products, Apparel & Textiles, Electrical & Electronic Products have shown decreased level Concentration Index indicating the said degree of diversification in destination which is a healthy diversification position of the country.

20. SRI LANKA'S EXPORT BASKET – CONCENTRATION 1990 – 2019

Table - 20.1

Year	Export Value in Mn. US$	No of Products @ HS 6 degit Level	HH Index %
1990	1893.68	2019	4.23
2000	5288.48	2702	1.74
2010	8408.82	2534	2.47
2015	10107.62	2883	1.94
2016	10219.9	3058	1.83
2017	11225.67	3199	1.91
2018	11640.73	3162	1.81
2019	11763.25	3099	1.72

Graph - 20.1



THE HERFINDHAL INDEX

This index is widely used to measure the concentration of products mix exported by the country and is defined as,

$$HHI = \sum_{i=1}^{n} \left(\frac{xi}{X}\right)^2$$

Where xi is the export of commodity, X the country's total exports and N the number of export products. Index (%) approaching zero indicates less degree of concentration and index (%) approaching 100 implies a high degree of concentration.

21. SRI LANKA EXPORTS TO REGIONS 2015 - 2019

Region	% Share
EUROPEAN UNION	29.72
NAFTA Countries	29.65
ATPF	20.47
G-15 Countries	10.86
BRICS Countries	10.50

Region	Average Growth Rate % (2015-2019)
EUROPEAN UNION	4.36
NAFTA Countries	3.77
ATPF	7.15
G-15 Countries	4.27
BRICS Countries	5.12

Only CIS COUNTRIES has the negative average growth rate out of 21 regions. Other 20 regions have positive growth rates

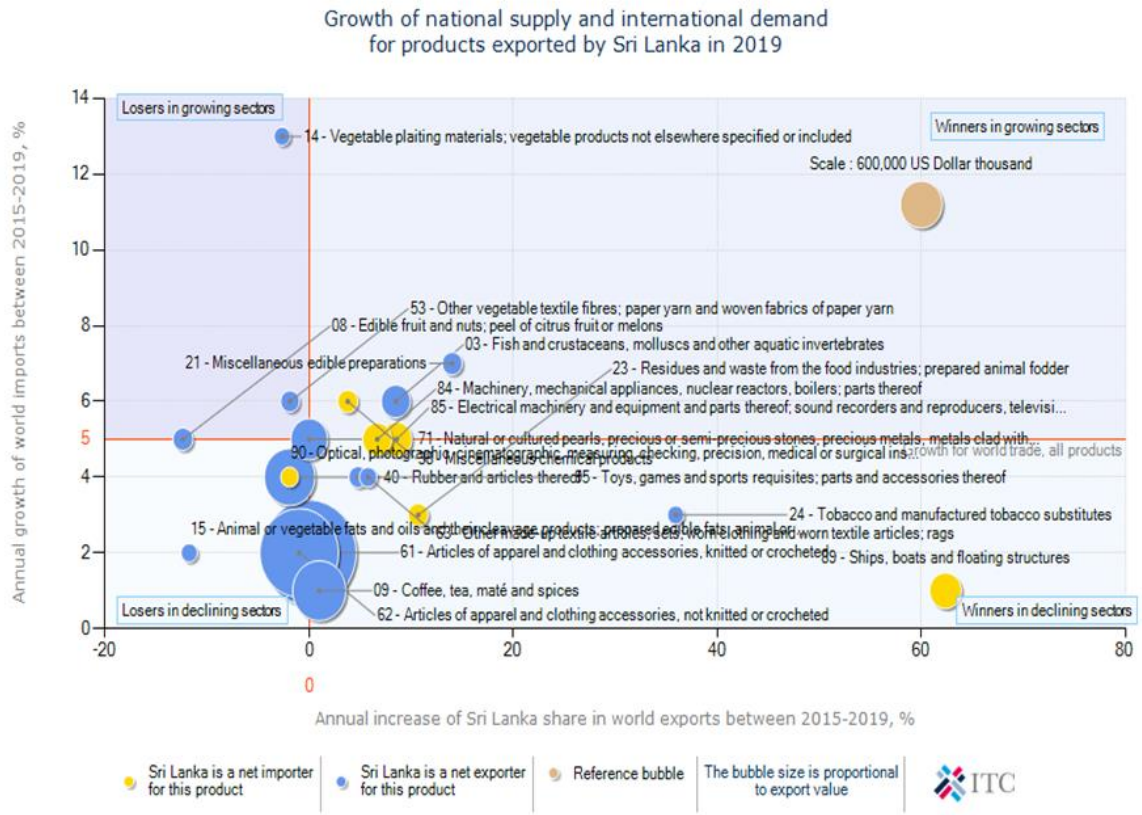
27. CURRENT TREND IN GLOBAL DEMAND FOR SRI LANKA'S PRODUCTS

The following chart shows the performance of top 20 export products of Sri Lanka in the international market. The bubble denotes a particular product and the size of the bubble represents the amount of that product (in US$ terms) we export to the world market.



Source : ITC Trademap

If the bubbles fall into the **"Winners in growing sectors"**, it means that the world demand for the product denoted by the bubble is increasing and also Sri Lanka's share of that product in world exports is also increasing. Our export products, such as Fish, crustaceans, molluscs, aquatic invertebrates nes, Pearls, precious & semi-precious stones, metals, coins, etc; Machinery, mechanical appliances, Electrical, electronic equipment, Miscellaneous chemical products and Miscellaneous edible preparations, into this category. Trade promotion efforts for this product should aim to broaden the supply capacity to cater to the markets with increasing demand.

If the bubbles fall into the **"Losers in growing sectors"**, it means that the world demand for the product denoted by the bubble is increasing but Sri Lanka's share of that product in world exports is declining. Our export products, such as Vegetable planting materials, Other vegetable textile fibres: paper yarn and woven fabrics of paper yarn and Animal or vegetable fat and oils fall into this category. As this

product face supply side bottlenecks, it is important to identify and remove the constraints in order to regain the market share.

If the bubbles fall into the **"Losers in declining sectors"**, it means that the world demand for the product denoted by the bubble is falling and Sri Lanka's share of that product in world exports is also falling. Our export products, such as Rubber and articles thereof, Articles of apparel, accessories, not knit or crochet; and fall into this category. Trade promotion efforts for these products in this group should adopt an integrated approach to remove both the demand and supply side constraints.

If the bubbles fall into the **"Winners in declining sectors"**, it means that the world demand for the product denoted by the bubble is falling but Sri Lanka's share of that product in world exports is increasing. Our export products, such as Coffee, tea, mate and spices, Tobacco and manufactured tobacco substitutes, Articles of apparel, accessories, knit or crochet, and Toys, Games & Sports Requisites; fall into this category. From a trade promotion perspective, niche marketing strategies are required to be adopted for these products.

The behaviour of exports of Sri Lanka as indicated above shows the importance of adopting product specific trade promotion strategies and measures to remove the specific demand or supply related constraints, which impede a more dynamic expansion of exports of the country. Such strategies would enable Sri Lanka to maximize on the opportunities generated in the global market and reap the maximum benefits from trade opportunities available for our export products.

28. EXPORTS OF HIGH TECHNOLOGY PRODUCTS TO ACHIEVE ECONOMIC GROWTH OF SRI LANKA

One of the key objectives of the Government is to transform Sri Lanka's industrial sector into High – Value added, knowledge-based, globally competitive and diversified sector, which will then lead to the economic expansion of the country. A special emphasis has been given to product diversification through an outward looking growth strategy. While the government acts as a facilitator, the private sector drives exports of the country. Product diversification, introduction of innovative products, shifting from the existing traditional trade to non-traditional trade is very important to cater to the ever-changing global market.

Sri Lanka is a leading producer of many traditional & non – traditional products in the world. However, recognizing the changing paradigm in the international trade and Asia becoming the growth center in the world economy, it is important that the country to diversify its product basket with new and innovative products. Measures have been already initiated to establish Sri Lanka's active participation in the Global Value Chains with a focus of creating a global center of excellence in high-end product engineering. One of the key targets is to increase country's exports to US $ 38 billion by the year 2022.

The following charts and tables illustrate some of the key aspects relating to High-Tech production and exports of Sri Lanka.
