

BioFach Fair

No	Content	Description
01	Fair Name	BioFach World Trade Fair for Natural Personal Care and Wellness
02	Location	Nuremberg Exhibition Centre, Nuremberg, Germany
03	Overview	<p>BIOFach is a world-leading trade fair, which focuses on the organic sector and fair trade. The largest organic fair in the World is held in the German city Nürnberg - (Nuremberg) - and organic companies and in February every year people in thousands from the rest of the World go to Nürnberg in Germany to do business and meet other with organic interests. Biofach is not only the largest but also the oldest of the large organic trade fairs in the World. It started in 1989 with only few participating companies and was for several years taking place in Frankfurt am Main.</p> <p>Every year companies from 120 countries in the World exhibit at Biofach. Also organic companies from Denmark - although Danish organic companies traditionally are rather few. In 2009 however the Organic Denmark will be promoted intensively since Denmark has been chosen to be the organic country of Biofach 2012 is entirely devoted to the international organic market. Organic farming is one of the fastest growing sectors these days. It will showcase number of products and services which include basic food, raw materials and baked products at reasonable prices. Biofach 2012 leads out to be a meeting point for producers and manufacturers as well. Visitors are expected to visit the exhibition for specialty organic products at cost effective prices. International exhibitors will get excellent opportunity to initiate good business deals in organic market. It will definitely create new business contacts and exposure at international level.the year on Biofach in Nuremberg.</p>
