
Invitation to **15th International Engineering & Technology Fair (IETF 2003)**

5th -8th February 2003

Confederation of Indian Industry (CII) New Delhi is organizing its 15th International Engineering & Technology Fair - IETF 2003 from 5-8 February, 2003: at Pragati Maidan, New Delhi.

CII's International Engineering & Technology Fair has established itself as Asia's largest all industry fair of its kind and every two years acts as a global showcase of all that is 'current' and more that could be 'expected'. IETF 2003 will once again feature structured B2B interfaces between technology and business leaders, representing a wide cross-section of global enterprise. Every participating organization can be assured of opportunities to capitalize on. For transnational companies, IETF 2003 presents the perfect platform to launch their products and services in one of the world's fastest growing emerging markets, seek partners in India's reputed technology-led services sector and gain deeper insights into the country's policy making process.

The consistent success of IETF over its past 14 editions can be attributed to its innovative, focused and contemporary planning. IETF 2003 will once again harness the power of inter-sectoral synergies with 5 focused business fairs covering Water Management, Bio Technology, Conditioning and Refrigeration, Sub-Contracting and Support Services and Welding Technology.

IETF 2003 will have different sections and focused business fairs as part of it. These include:

Aqua India 2003	1st International exhibition-cum-conference on rural, urban & industrial water management.
Biotech India 2003	1st International exhibition and conference on Bio Technology
Enterprise 2003	11th exclusive exposition for small enterprises, sub-contracting & support services.
Refricon 2003	2nd complete air-conditioning, refrigeration, heating and ventilation industry fair.
Weld India International 2003	3rd International Exhibition on Welding Technology
