# EDB CHIEF CALLS ON EXPORT-ORIENTED GLOBAL FIRMS TO SET UP BASE IN SL

Export Development Board (EDB) Chairman Suresh de Mel yesterday presented six focused sectors that provide a plethora of opportunities for export-oriented global firms to set up bases in Sri Lanka.

The Government has put in the right ecosystem to support investments, growth and innovation. We have also taken a number of new initiatives while also fine-tuning existing endeavours to develop and boost exports," he said on Day 2 of the virtually-held Sri Lanka Investment Forum.

The EDB Chief's six focused sectors for innovation and investment were: IT/BMP, electrical and electronic components, boat building, nautical tourism and related industries, processed food and beverages, spices and concentrates and essential oils and wellness tourism. He also elaborated on each focused sector, emphasising on the plethora of opportunities for export oriented firms to invest in Sri Lanka.

De Mel told global companies attending SLIF that Sri Lanka's strategic location as a central hub to trade routes, duty-free access to 7,200 products with the European Union (EU) GSP+ concession and the United Kingdom (UK) GSP+ concession, Free Trade Agreement (FTA) market access to India and Pakistan with 4,000 products and several other FTAs with the regional counties were key factors to make Sri Lanka a great destination to setup globally-recognised, export-oriented manufacturing plants.

**Cont, >>>**

“We are there to support exporters and investors to set up investment in Sri Lanka,” the EDB Chief said.

In addition to merchandise exports, he highlighted that Sri Lanka was also known for its services exports which include logistics, maritime and offshore engineering, light engineering, construction, education, BPM/BPO, lapidary and tourism.

“EDB’s knowledge of global and local market places and the characteristics of multiple industries helps Sri Lankan exporters to expand their exports into global markets,” de Mel said.

According to him, the EDB works with 20 advisory committees to gain industry knowledge, which comprises over 100 private sector members, in addition to the foreign missions to get market intelligence support required to boost exports.

The EDB Chief also said the resilience of the export community was quite evident with the \$ 14 billion export earnings recorded last year despite the supply chain and market access constraints due to the COVID-19 pandemic. This year, the EDB has a target of \$ 16 billion despite the continued local and international shocks amidst the pandemic.

Sri Lanka’s top 10 export markets include the United States, the UK, India, Germany, Italy, Belgium, Netherlands, China, Canada and Turkey. Last year Sri Lanka’s merchandise exports amounted to \$ 10 billion and the Government has set a target of \$ 12 billion in 2021 of which \$ 3.6 billion has been achieved by April.

“Today, EDB has gone beyond its original responsibilities as a trade promotion organisation to multiple layers of the country’s role of a mentor and a facilitator in reaching new markets and identifying markets and industry trends,” de Mel said.

## REQUEST FOR PROPOSALS (RFP)

### SELECTION OF A MARKETING CONSULTANCY FIRM OR A SPECIALIZED INSTITUTION IN MARKETING TO IMPLEMENT A CAPACITY BUILDING PROGRAMME FOR SME EXPORTERS TO MOVE UP THE VALUE CHAIN TO BUILD BRANDS

Sri Lanka Export Development Board (EDB) invites eligible Marketing Consultancy Firms/Institutions to submit proposals to implement a structured training programme for 15 selected SMEs to build their business capacities enabling them to scale up in the value chain for brand development.

A suitable Marketing Consultancy Firm/Institution will be selected in accordance with the procedures set out in the Guidelines for Selection and Employment of Consultants, published by the National Procurement Agency.

### SCOPE OF WORK

The scope of work will encompass GAP/SWOT analysis of a selected group of 15 SME companies and undertake a structured training programme on Branding and Marketing Strategies to reach the international market. The details are further described in the Terms of Reference (TOR).

### APPLICATION PROCEDURE

Duly completed **Request for Proposals (RFP)** should be sent under registered post addressed to **Chairperson, Department Consultants Procurement Committee (CPCD), Sri Lanka Export Development Board, NDB-EDB Tower, No. 42, Nawam Mawatha, Colombo 02** on or before 16.07.2021, at 2.30 p.m. indicating the name of the programme; 'RFP - Capacity Building Programme for Exporters to Move up the Value Chain to Build International Brands' in the top left corner of the envelope. The applicants are requested to submit the detailed technical proposal and the financial proposal separately.

The specimen RFP could be downloaded from EDB website [www.srilankabusiness.com](http://www.srilankabusiness.com) under "Announcement". The companies obtain the RFP document from website, should deposit Rs.1000/= as a non-refundable fee to the EDB bank account number: 306605 of the Bank of Ceylon, Lake View Branch.

The copy of the deposit slip should be attached with the submission of the documents to the EDB. **(The documents without a copy of the deposit slip will not be accepted as a valid document).**

For further details and clarifications, please contact Ms. Dinushika Abeygunawardene, Assistant Director, EDB, Mobile: 0776 190050 Email: [dinushika@edb.gov.lk](mailto:dinushika@edb.gov.lk).

# EXPORTS SUSTAIN GROWTH MOMENTUM INTO MAY

**Rubber and rubber-based products in May rose by 78% to \$ 91.18 million and by 51.43% to \$ 424.47 million in the first five months due to the better performance of exports of industrial and surgical gloves of rubber (89.04%) and pneumatic and retreated rubber tyres and tubes (48.77%)**

Performance in May as per provisional data released by the Export Development Board (EDB) yesterday amounted to \$ 884 million, up 51% from a year earlier (\$ 586.7 million) when the country was undergoing the first COVID wave lockdown.

The May 2021 performance is also significant in comparison to previous months' shipments worth \$ 818 million, the highest ever value for a month of April as per the Central Bank announcement last week on external trade. A five-month analysis suggests exports have bounced back in May on a month-on-month comparison after dipping in Sinhala Tamil New Year holidays-filled April.

May export performance also boosted the first five months export figure to \$ 4.6 billion, up 33% from \$ 3.5 billion achieved in the corresponding period of last year. EDB said the first five months saw increased exports of apparel, rubber-based products, electronics and electronic components, spices and concentrates.

"We are happy to see that export levels are reaching fast to the pre-COVID levels despite the continuous multiple challenges faced by our exporters with intermittent travel restrictions and local area isolations," EDB Chairman Suresh de Mel said.

"Maximum efforts are needed to secure the export orders in hand while attracting new orders to the country. It is the responsibility of all authorities to facilitate exporters in every possible way to keep them operating," de Mel added.

The Government has set a \$ 12 billion target for merchandised exports in 2021 and by May, 40% of it has been achieved. In 2020 exports amounted to \$ 10 billion, down by 16% in 2019.

EDB said in May, all the products recorded positive growth except vegetables and other export crops. Strong export growth was recorded for almost all products during the first five months except petroleum products, vegetables and other export crops. Exports of rubber-based products, coconut products and spices and concentrates recorded the highest export value thus far.

Apparel exports in May was valued at \$ 370.87 million and constituted 45% of total merchandise exports increased by 69.48% from May 2020.

**Cont. >>>**

Tea exports recorded value of \$109.23 million which constituted 11.5 % of total merchandise exports remained as the value recorded in May 2020. Rubber based products exports were \$ 91.18 Million, 9.3% of total merchandise exports and improved by 78.12%. Coconut products, at \$ 66.71 million accounted for 7% of total merchandise exports and rose by 28.78%. Electronics & Electronic Components exports were \$ 35.19 million up 62.47% and responsible 3.6% of total merchandise exports.

Spices and Concentrates exports rose by 30.8% to \$ 25.24 million accounting to 3.5% of total merchandise exports.

Export earnings from rubber and rubber finished products increased by 51.43% to \$ 424.47 million in the first five months due to the better performance of exports of industrial and surgical gloves of rubber (89.04%) and pneumatic and retreaded rubber tyres and tubes (48.77%).

Earnings from all the major categories of coconut-based products increased reflecting the improved performance in the export of coconut oil, desiccated coconut, coconut milk powder, liquid coconut milk, cocopeat, mattress fibre and activated carbon.

Electrical and electronic components (EEC) export earnings increased by 45.29% to \$ 164.28 million from January to May compared to the corresponding period of 2020. Export of insulated wires increased by 54.10% during the first five months to \$ 27.6 million compared to the corresponding period of the previous year. In addition, exports of other electrical and electronic products increased by 51.82% during the period of January to May to \$ 90 million compared to the corresponding period of the previous year.

Export earnings from spices and essential oils increased significantly during the first five months by 96% to \$ 162 million compared to last year, reflecting the better performance in all the subcategories; cinnamon, pepper, cloves, nutmeg, etc.

The US remained the single largest export destination with \$ 1.1 billion worth of exports during the first five months, recording a significant year-on-year increase of 25.26% in comparison to \$ 905.1 million recorded in 2020.

Exports to the United Kingdom as the second-largest trading partner recorded an increase of 23.47% to \$ 366.53 million during the first five months compared with the corresponding period of the previous year.

Exports to the Netherlands and China increased y-o-y by 63.71% and 61.34% in May 2021 with cumulative increases of 83.87 % and 64.25%, respectively, during the period of January to May 2021. The growth of the Netherlands is a result of the export of apparel and liquid coconut milk, while bulk tea, mineral sands, activated carbon and cocopeat exports contributed to increasing figures to China.

In addition, exports to all other regions increased except CIS and African countries during the period of the first five months of 2021 compared with the corresponding period of the previous year.

The services exports estimated by EDB which includes ICT/BPM, construction, financial services and transport and logistics were \$ 1.2 billion during January-April 2021 up 17% as against \$ 1 billion recorded in the corresponding period of 2020.

EDB is forecasting a total performance of \$ 15.68 billion in merchandise and service exports in 2021. Apart from the \$ 12 billion goal of merchandised shipments, EDB is targeting \$ 3.58 billion from services exports.

## EMBASSY CONNECTS OVER 100 SRI LANKAN ICT COMPANIES WITH UAE MARKET

The Embassy of Sri Lanka in Abu Dhabi organized a webinar together with the Export Development Board (EDB) of Sri Lanka and the Consulate General of Sri Lanka in Dubai to bridge over 100 Sri Lankan ICT companies and professionals with the UAE market, to explore the new opportunities in the ICT industry on 11 June, 2021.

As a result of the initiative taken by the Foreign Ministry of Sri Lanka in collaboration with EDB in order to expand the 'Export Basket of Sri Lanka' under the Government's priorities to double the export foreign income, the Embassy chose the ICT sector as an opportunity gateway for Sri Lankan IT companies as the UAE has modified their ICT sector under the 'Smart City Concept', which has the fastest e-gate system among the Middle East countries.

Chairman of the EDB Suresh De Mel opened the session with a brief introduction and indicated the importance of the ICT sector which currently earns over 1 billion USD for Sri Lanka and thanked the Mission for exchanging market intelligence information with Sri Lankan companies.

Chairman of the Sri Lanka Business Council in UAE Suren Swaminathan shared their business experience in UAE and highlighted the fact that the Emirates of Dubai, Abu Dhabi, and Sharjah have grown fast in the ICT sector and there are plenty of joint venture opportunities for the Sri Lankan ICT sector in the UAE market.

**Cont. >>>**

Ambassador of Sri Lanka to UAE Malraj De Silva requested Sri Lankan ICT professionals in UAE to assist Sri Lankan youths to find new employment opportunities in the UAE market and help them to participate in Bidding/Tender procedures in UAE. Further, the Ambassador highlighted that Sri Lanka can gain cost effective benefits under 'Outsource Business Model' instead of establishment of a company in UAE.

The CEO of John Keels IT Ramesh Shanmuganathan sharing their company's best practices, mentioned how the John Keels overcame challenges when they established an IT business in the UAE before 20 years.

There were over 125 participants including Sri Lanka Professional Association in UAE, Sri Lanka IT Professional Associations (SLITPA) in UAE, Sri Lanka Business Council Dubai, the staff members of the Embassy as well as the Consulate General of Dubai.

At the end of the webinar, the forum decided to work together for creating opportunities for Sri Lankan ICT companies to showcase Sri Lankan products to UAE market as well as to establish links with the leading business partners of UAE, through the 'Business Committee' of SLITPA.

The General Administration Customs of China (GACC) approves the Health Certificate for importing fisheries products to China. The Health Certificate for importing fisheries products to China has been approved by the General Administration Customs of China (GACC). It will enable the approved fisheries and aquatic products to enter this lucrative market, and even encourage Sri Lankan businesses to expand their production.

The renewed Health Certificate must be presented to the Chinese Customs with their products from the 1 July 2021 by the fisheries product exporters from Sri Lanka to China.

All processed Fisheries products exporters are required to use this updated version instead of the old certificate. 120 copies of the new certificate must be provided urgently as samples to the GACC. The Embassy of Sri Lanka in Beijing will assist in this regard.

The Commercial Section of the Embassy has been working closely with the General Administration Customs of China (GACC) to assist Sri Lankan fish exports to access the booming Chinese market.

**Sri Lanka Export Development Board  
Ministry of Trade**

**The “EDB Special Award” under  
“New Exporters Development Programme”**

**Sri Lanka Export Development Board (EDB)** will award the “EDB Special Award” with the objective of recognizing the performance of Sri Lankan exporters registered under “New Exporters Development Programme”. This Award in the categories of Gold, Silver and Bronze be presented to the best performers for the financial years of 2019/20 and 2020/21 during the 24<sup>th</sup> Presidential Export Awards Ceremony which will be held in September/ October 2021.

**EDB** invites companies to apply for this “EDB Special Award ” .

**Who Can Apply :**

- a) A company, individual or any other legal entity registered under “New Exporters Development Programme” of the EDB
- b) The exporters who registered under category A and B in “New Exporters Development Programme” will be considered for this award
- c) The annual export turnover should be more than USD 50,000/- for the relevant financial year
- d) The company should possess at least 51% Sri Lankan ownership
- e) Only the direct export companies will be considered for this award

**What you get :**

A plaque, a certificate and an assistance package will be presented to the winner in the categories of Gold, Silver and Bronze.

**How to Apply:**

**Application Form for the “EDB Special Award”** together with the guidelines could be obtained from the **Market Development Division**, EDB or downloaded from the EDB website [www.srilankabusiness.com](http://www.srilankabusiness.com) under “Announcements”.

Duly completed applications with all relevant documents should be submitted to the **Chairman & Chief Executive, EDB on or before 30<sup>th</sup> June 2021**. (Separate application should be submitted for each financial year).

## AWARENESS WEBINAR ON EXPORTING MERCHANDISE TO AUSTRALIA

The Consulate General of Sri Lanka to Victoria, South Australia and Tasmania together with the Sri Lanka Export Development Board (EDB) and the Sri Lanka and Australia Chamber of Commerce (SLACC) organised a webinar titled – Exporting to Australia – What you need to know – on the 20th May, 2021. Kalum De Silva, President of SLACC, moderated the session. He is the founding national president of SLACC.

Consul General Kapila Fonseka in his opening remarks explained that the main objective of the seminar was to reduce the knowledge gap by educating the exporters about the opportunities in the Australian market, and how to access it correctly. Even though Sri Lanka has had a growth in exports to Australia in the recent years, when compared with other South East Asian Countries, Sri Lanka's merchandise exports volume still remains low. Therefore, the digital seminar was able to help Sri Lankan exporters gain better insight into the criteria to be met when exporting goods to Australia.

Jessica Sibley – Director Horticulture and cut flowers program at the Department of Agriculture, Water and the Environment – Australia, explained bio security and systems in place in Australia paying particular attention to fresh produce. She spoke of plant import operations, import conditions, preparing for export from Sri Lanka, and non-commodity import requirements. Jessica also explained what happens when there is non-compliance. Horticulture fresh produce imported into Australia must comply with commodity specific import conditions published in the Department of Biosecurity Import Conditions System (BICON). She also shared the main criteria to be fulfilled at the time of preparing for export from Sri Lanka. For more information about BICON please refer to <https://bicon.agriculture.gov.au/BiconWeb4.0>

**Cont. >>>**

Whilst an exporter complies with the set rules and criteria, they also have to understand how to engage with the Australian Business community to have a successful long-term relationship. Eddie Zhao, International Business Development Manager at the Victoria Chamber of Commerce, described the Australian Business Culture and few points to keep in mind when engaging with the Australian business community. He explained before meeting an importer/customer that it is very important to prepare for the meeting well and to be precise about what you offer. Setting up an appointment to meet well in advance and punctuality is considered very important. Some of the values considered important in the Australian business culture are honesty, integrity, finesse and authenticity. Even though Australian business culture is fairly informal, they take their business dealings seriously. He advised to stick to the deadlines given to continue a good business relationship.

S.R.P. Indrakeerthi, Director – Trade Facilitation and Trade Information – EDB, explained the current status of the trade between Sri Lanka and Australia. Australia is the 10th largest destination of Sri Lanka. He outlined the present major exports and the products with high potential. Apparel, high-quality natural rubber and rubber-based products, coconut-based products, tea, fish and fisheries were cited by him as products with great potential. He added that Australian importers can make use of Sri Lanka's value-added products, quality of products, competitive pricing, and its strategic location while noting that Sri Lanka is a manufacturing facility to many big brands such as Gap, Nike, Tommy Hilfiger and Victoria's secret.

The seminar – which offered free registration – had over 100 registrations and over 500 views on social media. The Q&A session at the end provided a great opportunity to the audience to ask questions from the panel members and have them answered within a matter of minutes. It also opened up a discussion to explore Australia as another non-traditional international market while bringing together key individuals from some of the most important government institutions in Australia who shared accurate information with the Sri Lankan organisations.
