ASIA'S LARGEST SEAFOOD SHOW

2018

China Fisheries & Seafood Expo

AQUACULTURE CHINA

SEAFOOD TECHNOLOGY CHINA

WELCOME TO CFSE 2018

NOVEMBER 7-9, 2018

QINGDAO INTERNATIONAL EXPO CENTER
青岛国际博览中心

www.seafoodchina@seafare.com / chinaseafoodexpo.com

China's seafood imports have almost doubled in the past five years to more than US\$9 billion.

China is on the cusp of changing from the world's largest seafood exporter to the largest seafood importer.

China's seafood consumption is growing 10 percent each year while consumption in other major markets is stagnant or declining. The World Bank predicts that China will account for 38 percent of global seafood consumption by 2030.

In the next 10 years, China's annual food expenditure is expected to exceed US\$500 billion.

Simply put, China is the most important, dynamic seafood market in the world and China Fisheries & Seafood Expo is the best way to access it.

BUSINESS OPPORTUNITIES FROM ISRAEL

Grand mother gave me my
Business idea!

Grinding 'Goraka' with 'Miris Gala'

Jenika Senani Warushawithana,
who left her overseas employment
and won the world of business
making 'Goraka' Cream

After the traditional income from sources such as tea, rubber and coconuts fell, the lion's share of Sri Lanka's national income was derived through those in overseas employment. Even there, the majority of revenue came from women if overseas employment.

Even though the lion's share of overseas revenue is derived from the overseas employment sphere, problematic situations created in the family corporation due to women going abroad for overseas employment have become Sri Lanka's biggest social problem.

This true story about a woman of courage, who did not go overseas for employment and breaking up families in search of Dinars, Rials and Dhiraams but selected to earn Dollars, Pounds and Euros from the land of her birth, is also about success and a modern social role model.

That woman of courage is the Managing Director of Senani Products, Jenika Senani Warushawithana. After marriage, she also selected overseas employment to realize the auspicious dreams of a prosperous life. Leaving the Island with her husband for employment in a cake factory in Japan, she toiled night and day with the expectation of acquiring a house, a vehicle and a luxurious lifestyle. They sacrificed many needs of their youth for tomorrow's happiness. But, fate treated them extremely unkindly.

My husband fell seriously ill in Japan. It cost so much to save his life. All the money we earned in Japan was finished because of that. In the end, I had to sell, not only our vehicles, but also our lands and houses in Sri Lanka to get my husband back to health..."

Even though this woman of courage managed to save her husband's life, in the end they were left with the cloths on their backs.

After eating today, our problem those days was what we are going to eat tomorrow by that time, friends and relatives of their days of prosperity had deserted them. But, her grandmother did not leave her. She never forgot to assuage the hunger of her grandson and granddaughter with a simple meal of rice, 'pol sambol and sometimes a fish "Ambul Thiyal".

SUCCESS STORY : SENANI PRODUCTS

"I was watching my Grandmother grinding 'Goraka' with the 'Miris Gala' (Grindstone) to prepare fish 'Ambul Thiyal.' Noticing how tiring the process of grinding 'Goraka' is, I fell to thinking that easily usable prepared "Goraka Cream" is not available in the market. That is how I got the first idea about my business"

She decided to start the 'Goraka Cream' business. She, who grew up in the shadow of her parents cuddling tenderness and lived under the protection of her husband, is now forced to cross the ocean of life alone. She only had the determination that she will win in a field she had no experience of.

"My husband encouraged me. He had a friend named Padmalal. Padmalal bought five kilograms of 'Goraka' for me. I placed the 'Goraka' in a clay

'chatty,' boiled it over a kerosene stove, and ground the boiled 'Goraka' using the 'Miris Gala' (Grindstone) my Grandmother used to grind condiments. She initially made 10 cups of 'Goraka Cream' under the brand name 'Senani Products' and put them up for sale.

She also had to face the common denominator initially faced by every entrepreneur.

"Nobody bought my 'Goraka' Cream. Even though I walked from shop to shop under the hot sun and pleaded with shop owners to stock my 'Goraka Cream,' they told me that without getting roasted in the hot sun, I nice child like me can run a beauty salon..."

She came home empty handed and burst into tears may be because she did not know what to do next. But, her loving husband was able to console her every time. But, she went to bed with the thought "What am I to do tomorrow?"

"I started dreaming myself in a large factory with a lot of workers. I wanted to make that dream a reality..."

The next day also she left on her trade tour with 'Goraka Cream' packs in her bag. On that day, the Manager of the Co-op City, Panadura, expressed his willingness to sell her packs of 'Goraka Cream' out of kindness.

"After that, going to Co-op City and checking whether my products are sold became an important part of my daily duties. But, not a single one had been sold..."

Then she realized that, to take a new product to consumers, they have to be edified on the product's qualities and benefits.

"I prepared an advertisement about the medicinal value of 'Goraka' (Garcinia cambogia) and displayed it near the rack with my products in the Co-op City. Wonder of wonders, the whole stock of my 'Goraka Cream' was sold in a day..."

SUCCESS STORY : SENANI PRODUCTS

Senani, thus tempered, broadened her manufacturing activities. Her husband, who was completely healed, contributed actively to her work.

"I went to all shops up to Matara with my husband on his motorcycle. On some such journeys, we fell off the bike and suffered wounds..."

By that time, Senani's business had earned a reputation as an enterprise manufacturing pure 'Goraka Cream.' Her next objective was promoting Senani Products in that background.

"I went in search of entrepreneurial knowledge. The Panadura Vidhatha Center helped me to obtain GMP Quality Certification. Furthermore, the Kalutara District Small Industries Development Division and many more organizations helped me..."

With the gradual development of Senani Products, she turned her house to a factory. By today, 22 permanent employees are working in the factory and her husband is also a salaried employee. Other than that, she says that there are about 100 suppliers and about 30 indirect employees.

Even though she was able to realize the major part of her auspicious dream, she was unclear about an objective she still had to achieve. She sought advice from the Sri Lanka Export Development Board to achieve that objective.

I went to the Export Development Board and explained to them the present situation of my enterprise and my needs. They selected me for the Exporters 2000 Program. That was when I got a liking to enter the boundless world of exports..."

Like most new entrepreneurs, Senani was also scared to enter the world of exports. She lost that fear and got a liking to enter the overseas market after her visit to the Export Development Board.

"Truly, profits from the overseas market are hundredfold of the profits that could be derived from the local market. The Export Development Board helped me immensely to acquire the necessary machinery and improve the quality of my products..."

Senani proudly states that Senani Products, started with five kilograms of 'Goraka,' is today fulfilling a production target of about 6000 kilograms.

"Taste enhancers, colourings or preservatives are not added to any of my products. Maybe consumers have placed their trust in my products because, among such other products in the market filled with poisons, my products contain no artificial additives..."

Thus giving a certificate about the quality of her products, Senani told us another secret about Goraka as a housewife, which we were not aware of.

SUCCESS STORY : SENANI PRODUCTS

"There are three varieties of Goraka, Ela Goraka, Rathu (Red) Goraka and Mala Goraka. We never use Mala Goraka to make our products. Rathu (Red) Goraka has a strong sour taste. We are not using it either. Ela Goraka is best in quality and medicinal value. We are only using Ela Goraka to manufacture our products..."

Another factor in the quality the company's products is that all the materials supplied to the company by suppliers are subjected to the personal inspection of Senani.

Now, a range of spices-related products including Goraka Chutney and Goraka Cream essential to kitchen is manufactured at Senani Product.

Today, as well as being available in all leading supermarket chains, Senani Products are exported to a number of countries such as the U.S.A., Australia and New Zealand.

Furthermore, looking at the awards and certificates of excellence awarded to Senani Products during past several years, we could not help thinking that they are good yardsticks of measuring her skills of woman entrepreneurship.

She, who entered the business sphere without knowing the ABC of it, is today a lecturer encouraging courageous people to enter the pathway of entrepreneurship.

Inviting Sri Lankan women to enter the business sphere, she did not forget to give them more advice.

"Our society still thinks that women are regressive. Even women themselves underestimate their strengths. As a woman, you must build confidence and self-strength. Escaping from the mentality of being dependent on your husband, you must do something for our Motherland, working shoulder to shoulder with them..."

In a society where families are breaking apart through going overseas for employment in order to lighten the heavy weight of living, isn't Senani a shining star to show the path of overcoming that social problem?

"Truly, a woman does not have to go overseas to earn money. There are enough and more things to do in our country. Without copying what somebody else is doing, do something new with a new thinking. How many social necessities are there that could be built up to businesses? Look around you well. You will also see such a necessity..."

She who sweated in a foreign land for the welfare of foreigners is today shedding sweat for her Motherland and earning Dollars, Pounds and Euros. She has earned the riches and comforts she couldn't earn overseas from her home. This is how she described that contentment.

"Today I am happy about leaving my overseas employment and starting a business in Sri Lanka. The beginning, starting a business is very hard work. But, when my business is developing day-by-day through my endeavours, how much pleasure I derive by reminiscing on the travails I had to face in the beginning? That is why I have placed the 'Miris Gala' (Grindstone) I used to grind 'Goraka' in the beginning in a position of honour at the entrance to my factory..."
