EDB assists export-oriented SMEs at 'Shilpa Sena' science and technology exhibition

The Sri Lanka Export Development Board (EDB) has launched a national program to nurture 2,000 new entrepreneurs to be exporters during the period 2017-2022, at regional level. The main objective of the program is to encourage domestic enterprises to invest in export industries to achieve the overall export target of \$ 28 billion in 2022.

Simultaneously, new entrants have gained opportunities in local and international marketing experience. Accordingly 2,000 non-exporter entrepreneurs are planned to be transformed into exporters through capacity, product and market development programs.

'Shilpa Sena' Science and Technology Exhibition was successfully held by the Ministry of Science, Technology and Research at the BMICH on 18, 19, 20 and 21 July.

The exhibition was attended by over 400 public and private sector organisations including the Sri Lanka Export Development Board. The exhibition has provided a competitive platform for local entrepreneurs to sell their products and strengthen business relationships and also find new opportunities in the local market.

The Regional Development Division of the EDB organised a pavilion of 10 stalls for 20 selected SMEs under the 2000 New Entrepreneurs Development Program who represented handicrafts and gifts, footwear and leather goods, apparel, processed food and beverages, Ayurvedic products, batik and handloom fabrics sectors. According to the evaluation done after the event, more than 50 potential trade inquiries were received by the exhibitors. Over Rs. 1 million spot sales were recorded during the event.

During the exhibition, the Trade Facilitation and Trade Information Division of the EDB organised the EDB booth and provided information to potential exporters and existing local businessmen in order to encourage them to get into the export market. The EDB officials also educated the visitors about the EDB's 2000-Exporter Development Program which was launched in 2017 to convert 2000 non-exporting enterprises to become export enterprises by 2020 in addition to making them aware of packaging and quality standards needed to be complied to capture the international market.

Furthermore, the visitors were briefed about the numerous products and services offered by the EDB to the exporter community in terms of organising delegations to international trade fairs, conducting training and capacity development programs, and providing information services.

Logistics

Logistics is the process of planning, implementing and controlling the efficient and effective transportation and storage of goods and services from the point of origin to the point of the consumption to fulfil the customer's requirement. Companies operate in this industry in a number of different ways, from managing supply chains to ensuring transportation of all types of merchandize. Logistics play a major role in economy of any country. Therefore, improving Logistics performance has become more important development policy objective for Sri Lanka too.

Sri Lanka has a unique selling proposition to develop a world-class logistics hub linking the global supply chain, which is rapidly digitalizing and creating a new generation of consumers. Logistics sector accounts around US\$2 billion in terms of revenue and Efficient Logistics services facilitate heavily on the growth of national exports. Currently, there are 174 shipping agencies and 323 freight forwarders registered the Merchant Shipping Secretariat (MSS).

Sri Lanka has a capabilities to cater to the growing regional demand, being strategically located at the East West maritime route, there is a potential to become South Asia's leading maritime logistics and distribution hub. The country's proximity to many emerging markets has positioned itself favorably as a very important hub in the region.

Spearheading Sri Lanka's vision to become the Indian Ocean maritime, logistics , and distribution hub providing all services and facilities for integrated connectivity, a strategy was formulated for Logistics as a part of National export strategy (NES) of Sri Lanka, Under the aegis of the Ministry of Development and International Trade(MoDSIT) and the Sri Lanka Export Development Board(EDB). This will be a more promising initiative for the Logistics industry which will boost the Logistics performance of the country in a more competitive manner.

Netherlands According to the Aquaculture Stewardship Council (ASC) and Marine Stewardship Council (MSC), the demand for certified seafood continues to strengthen in the country, and this is reflected in the growing range of sustainable fisheries products in the supermarkets. The data from both organizations show that 94% of the frozen product has the certification of ASC and MSC, certified frozen salmon in particular grew from 85% to 97%.

Scotland The Scottish Salmon Producers Organisation concluded that during the first quarter of 2019 around 27 170 MT of salmonids were exported valued at US\$ 260.7 million. In terms of volume, the figures represent an increase of 19.9% compared to the same period of the previous year. The agency emphasizes that the numbers "confirm the position of Scottish salmon as the main food export product in the United Kingdom. With France, the US, and China firmly established as strategic markets, the appetite for salmon increases export areas to Asia, the Middle East and throughout the European Union".

AFRICA'S BIG 7

21-23 JUNE 2020

GALLAGHER CONVENTION
CENTRE, JOHANNESBURG

"The Heart of Food & Beverage Retail in Africa"

Africa's Big 7 is the only food and beverage trade show in Africa to bring together hundreds of global suppliers with motivated buyers from each segment of the buying community. Africa's Big 7 is the annual meeting place for food professionals across the continent who visit the source, meet and gain insight into the very latest developments affecting the industry.
