# core business verticals

we are a quadruple player with 4 main business verticals that propel the organization forward. specializing in the domain of printing & packaging, we offer a well-diversified gamut of products & services to cater to a greater multitude of needs under the domain.

## consumer business books and papers

blessed with a 56 year old history in business, we specialize in manufacturing all kinds of books and paper-based products such as note-pads, spiral-pads, notebooks and various other types of papers for writing at home, office and school.

## commercial business printing and packaging

being certified by major quality systems certification bodies, both global and local, our b2b printing and packaging arm is geared to cater to a wide array of industrial printing and packaging needs in the landscape of art paper and box-board.

## writing tools business pens and felt pens

we are equipped to manufacture pens and other writing tools such as felt tipped pens/water coloring pens and many other related writing tools in our modern, state-of-the-art writing equipment manufacturing plant.

## copier sheeter business photocopy papers

we are so far the only photocopy paper re-packer in Sri Lanka to sheet, gather and pack photocopy paper in a fully automated environment under stringent quality parameters using premium quality indonesian paper.

A large, dark grey Heidelberg Speedmaster offset printing press is shown in a factory setting. The machine is long and extends into the background. The lighting is bright, with several long fluorescent lights on the ceiling. The floor is a light-colored carpet. The machine has a prominent logo on its side.

**HEIDELBERG**  
**SPEEDMASTER**

**machinery that makes the magic**  
offset printing in its true form, with our extensive line up of  
heidelberg machinery gives the superior look-n-feel to all  
our products, be it in consumer or commercial segments

# consumer business

books and papers

in this retailing arm of our business, we are committed to deliver exceptional quality to end level consumers who seek modern-day stationery to fit and reflect their own lifestyles. we engage in continuous market research to provide the best that consumers are looking for. we also undertake customized books printing [own label branding/OEM] in addition to our manufacturers' brand products.

### uv varnishing

seamless and blanket uv varnishing ensures durability over constant exposure to touch and lighting condition variations, whilst spot uv coverage creates a unique artistic impression.

# ProMate™

world stationer

manufactured using supreme quality 70 gsm indonesian paper with covers coming in unique designs with vibrant colours, it offers the users a superior writing experience with its offset printed feint rulings along with rounded corners to provide elegance and safety.

being a 56 year heritage brand operating from 1956, we have come a long way with the schooling children of all ages through generations. this range of books are printed using high quality 60 gsm indonesian paper with attractive covers presenting an array of breathtaking imagery in vivid colors.

having started with a pen that is manufactured 'at home' in a modern, state of the art manufacturing plant in a fully automated environment, mango has, during a short span of time, been able to almost fulfill the full range of stationery accessories that include coloring products, writing tools, adhesives, sporting gear, and many other clusters for home, school and office use.

**CTP writing**

retaining the quality of images and fine artworks,  
with minute details being exact to the point with our  
kodak CTP machine with latest software

# consumer business

books and papers

# OEM

we undertake OEM/customized manufacturing of books, notepads & pens for pragmatic volumes of quantity. currently being the exclusive private label branded books manufacturer for sri lanka's largest supermarket chains, we are well equipped and geared to cater to customized production requirements in same arena.

we are well armed to undertake printing of all kinds of diaries and calendars. with machinery that are capable of producing high quality hard-cover bound diaries, leather case diaries, large format calendars, desk calendars and other similar products, we look forward to show-case our unparalleled quality, consistency and efficiency in this platform too.

with our specialized skills, experience and exposure in offset printing, we also undertake more delicate, complex and quality-critical jobs on magazine printing. we print a few of sri lanka's most sought-after magazines, delivering superior customer experience to both the magazine publisher as well as the reader.

**men – machines – material**

super-talented cadre operating superior machines and using superior quality raw material such as boards and inks deliver superiority and nothing else!

# commercial business

printing and packaging

we provide superior packaging solutions, primarily specializing in box-board printing but also possessing capability to accomplish many other forms of packaging requirements in today's world.

being currently a major supplier of cartons and point of sale material to sri lanka's bluechip multinational FMCG and dairy companies, we are honored to serve a host of other esteemed clients representing a multitude of industries with varied requirements and delivering against extremely tight and stringent time-lines.

we are equipped with latest technologies to deliver superior quality in a well-consistent manner and have an extensively trained and experienced cadre who are able to make the maximum of these equipment to deliver beyond standards.

**automated pasting machine**

our automatic pasting machine is a few in the whole of asia and keeps us in comfortable grounds for any pasting tasks with its high efficiency and productivity.

**heidelberg all the way**

german technology infused with local expertise makes all the magic of printing exactly what one bears in mind-pictures.

if you can dream it, we can print it!

# commercial business

printing and packaging

we have thorough and robust quality screening processes and sorting work-flows that are rather time and resource consuming but eventually constitute to ensuring that the promise of quality is met without any compromise whatsoever and that nothing is left for chance, anywhere during the process.

we continuously meet the visible and technical quality parameters set by our customers for each carton type and we are delighted to have been able to achieve persistent green signals at every quality test so far have had.

**hot stamp foiling and die-cutting with SBL**

our SBL machines blended with veteran experts can produce the best-in-grade hot stamp foiling and other related finer finishing effects to boost the overall look-n-feel of products

# writing tools business

pens and felt pens

armed with a fully automated machine set-up in our writing tools manufacturing plant, we are geared not merely to make pens but to deliver a whole new writing experience, by integrating global technology and unparalleled standards of quality to the already futuristic manufacturing process.

we use superior quality low-viscosity inks that are ultra-glide and super-hi flow, enabling a smooth writing as never before to most of those who use economy class pens.

our pen designs are sleek and stylish, making life-companions.

# copier sheeter business

## photocopy papers

the newest addition to the portfolio of premium quality stationery is the premium-white photocopy paper. superior quality paper is sourced for manufacturing this product from one of the most renowned mills in indonesia with ISO 9001, ISO 9706, ISO 14001 quality systems & PEFC certifications.

we are the first and so far the only sri lankan photocopy paper brand to have the sheets cut, gathered and packed 'at home' using a state-of-the-art machine, encapsulating modern technology of a fully automated end-to-end process drive in a single floor line.

this photocopy paper is compatible with a multitude of printing and copying devices such as laser printers, copier machines, facsimile machines, litho & mono-inkjet printers. thorough technical tests have been carried out both by us team as well as by independent expert bodies on the quality of the paper and has been signaled green on all the parameters including the paper brightness, opacity, tensile strength, tear index, thickness, ph value & water absorption ratio etc.

**the GREEN factory concept**

we believe in a greener environment. all our factory complexes have a lot of greenery and beautifully landscaped vegetation of fruity, flowering and ornamental plants

# our certifications

We are honored and endorsed by the world's leading certification bodies for robust and consistent quality management systems as well as for superior hr practices within the entire organization.

We are also licensed locally for ensuring environmental protection by properly managing the streams of waste disposals and emissions such as noise, air and water etc., as per the prescribed framework that is approved by the regulating body enacted by law in sri lanka.

ISO 9001:2008  
Certificate No.

### **learning never ends**

we have cross functional teams that work together in achieving superiority along the lines of continuous improvements

## our promise

we commit to create an amicable work environment where learning & development happens each day in and day out, thereby unleashing the true potential lying hidden in each of our employees across functions and grades, which will eventually make the best of our infrastructure and other resources to bring a delightful experience to all our stakeholders – the customers, the partners, sales channels and the extended supply chain.
