## 6.0 DESIGN AND SUPERVISION CAPABILITY

The Engineering Department of Signet Consultants (Pvt) Ltd situated at 723/ 2E, Pannipitiya Road, Thalawathugoda is equipped with latest structural analysis software such as ETABS, SAP 2000, PROKON, SAFE and PLAXIS. All graduate structural engineers have extensive knowledge and experience on these structural analysis software.

All analysis, design and detailing work are carried out to comply with prevailing international code of practices and standards and to the highest quality.

The British Standards, Australian Standards and Euro Codes are used for the identification of loads on structures, and for design of reinforced concrete, pre-stressed concrete, water retaining, steel, timber, masonry structures and shallow and deep foundation systems.

Considering the lateral stability of structures, wind load evaluation, analysis, design and detailing are performed as per British Standards, Australian Standards and Euro Codes and the structures are designed and detailed to withstand lateral wind loads.

Considering the recent concerns over predicted earthquake hazards in Sri Lanka, it is essential to design buildings in Sri Lanka to withstand moderate earthquakes. Australian Standards and Euro Codes are used to Analyze design and detail structures to withstand moderate earthquakes.

The Draughting Department of Signet Consultants (Pvt) Ltd is equipped with computer software such as REVIT 2018, AutoCAD 2018, 3D Max and Google Sketch Up. All diploma holding draughts persons have extensive knowledge and experience in detailing and drafting.

Construction Supervising Engineers of Signet Consultants (Pvt) Ltd are at construction sites to carry out checks on construction work to see compliance with detailed structural drawings and specifications.

Signet Consultants (Pvt) Ltd has been providing consulting services in structural engineering for leading Architects, Commercial Companies, Individual Clients and Contractors. We offer our structural engineering consultancy services to the full satisfaction of our clients.
