CHAPLON -Mountain Flower Tea Organic

Mountain Tea is a blend of green Ceylon tea, black Pekoe and flowers. Green tea is usually harvested at a late stage of the teens' development, making the leaf soft in taste. Pekoe is a fine top-shoot quality, which usually has more flavor than the older leaves. The tea is mixed with dried flowers and oils with exotic flavors. Scents of flowers and has a nice fresh, soft taste.

CHAPLON - Mint Tea Organic

Mint tea is a blend of black and green tea and mint. A fresh tea that is perfect on hot days. Can be sweetened with cane sugar and oxygenated when served. You oxygenate the tea by holding the jug approx. 40 cm above the glass and pour in a thin stream. A really good mix that also tastes great as iced tea.

Breakfast Tea is a blend of black Pekoe, which is a strong black tea - as well as white tea. Pekoe is a very fine top shot quality. CHAPLON - Quince Tea Organic

Our quince tea is composed of green and black tea, mixed with quince oil. Quince is a small apple-shaped fruit that actually originates from Persia, but which to that extent has been well received in Scandinavia. Not least among tea people with a penchant for flavored tea. A well-known and popular "Scandinavian" classic.

CHAPLON - Earl Gray Tea Organic

Earl Gray is our Pekoe blended with bergamot oil. Bergamot, also called bergamot orange, is the flavoring in Earl Gray tea. The squeezed oil from the small citrus fruit gives the tea a citrus-like aroma and the characteristic taste. Our Pekoe is a fine top shot quality. We have mixed a little jasmine in the tea, to round off the taste.
