With this mountain of experience behind him, Mr Justin Fernando is our greatest strength and our source of inspiration and guidance.

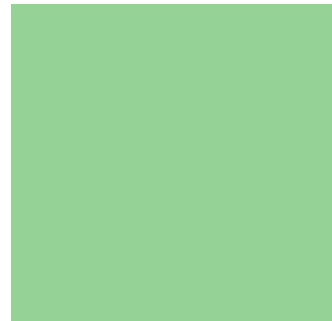

STRATEGIC DIRECTION

Vision

“Constantly reach new heights in the Global Coco peat and coir substrate supply Market through continuous improvement to quality and service for global growers and green house agricultural practises. “

Mission

“Establishing a strong foothold in the International Coco peat and coir product Markets through the attraction of and fulfilling the needs of genuine clients while at the same time improving the Quality of Life of Sri Lankan Coconut growers creating a win-win situation in the supply chain.”

Factory

Grow Bags

Compressed slabs of Coco Coir

Used for vegetables such as Tomato, Cucumber, Bell Pepper, Capsicums, Chilies, Egg Plant
and for Fruits such as Strawberry. Flowers such as rose, gerberas etc.

Can be customized based on the request of the buyer.

Grow Cube

Generally, grow cube is 10x10x10 cm. Special material used which is non-woven bag.

Used by growers and nursery plant users. Suitable for tomatoes, chilies, cucumber, peppers, strawberries, roses, and gerberas.

Can be customized based on the request of the buyer.

Coir / Coco Peat Disc

Coconut fibers bound together through natural latex spray

Prevent moisture loss from the base of plant, conserve nutrients and protect from heat damages.

Can be customized based on the request of the buyer.
