

SasiaNet

Gilt-Edged Software Solutions

Incorporated in 1997, SasiaNet is an independent software services provider which specializes in developing business critical software products for the Financial Services industry. SasiaNet has successfully developed and implemented a number of software products relating to debt / equity investment management, leasing / asset financing, supply chain financing and financial accounting. The company's client base includes commercial banks, primary dealers of the Central Bank of Sri Lanka, investment / fund managers and entities engaged in leasing / factoring operations.

NetAssest

NetAssest carries a history of two decades of refinements and additions to its software applications. The NetAssest suite comprises of applications that can be seamlessly integrated, yet loosely coupled to operate independently. Ability to automate core operations of an entire NBFC (non-banking finance company) makes us competitive in the financial services industry. The Suite comprises of:

- NetAssest | Leasing
- NetAssest | Loans
- NetAssest | Hire Purchasing
- NetAssest | Gold Loans / Pawning
- NetAssest | Savings
- NetAssest | Deposits
- NetAssest | AML

DealNet

DealNet is the most comprehensive locally developed software solutions suite for investment banks and corporate treasury divisions. Developed specifically for the Sri Lankan market by Sri Lankan Financial and Information Technology professionals, DealNet handles all existing intricacies of Sri Lankan markets and was also awarded Bronze at the National Best Quality Software Awards 2006. The core of DealNet gives rise to the following 5 investment banking domains.

- DealNet | Investment Management
- DealNet | Treasury Management
- DealNet | Mutual Funds Management
- DealNet | Margin Trading
- DealNet | Primary dealer
- DealNet | Online Portal

NetFactors

NetFactors family of applications runs back to the year 1997, where SasiaNet commenced development of Sri Lanka's first Factoring application. Its first user organization which started using the application in 1999 is still using the application with multiple version upgrades due to its product excellence and service quality.

The Suite comprises of:

- NetFactors | Invoice factoring
- NetFactors | PO Financing
- NetFactors | Dealer Financing
- NetFactors | Trade Financing
- NetFactors | Invoice Discounting
- NetFactors | Cheque Discounting

The Suite is augmented with NetFactors | Client Access Portal which extends invoice related, debtor / client related information to its clients and debtors.

NetSmart Pro

Our NetSmart Pro solutions are for organizations that wish to be digitally geared in overcoming their operational challenges. The NetSmart Pro solutions are applicable for many other industries. Since we are a Fintech, we've maintained our precision in our cross-vertical solutions too. SmartCollector, an application in the NetSmart Pro family, was awarded Bronze at the National Best Quality Software Awards 2020 (NBQSA 2020) under the Financial Services Category. NetSmart Pro Suite comprises of the following cross-industry applications:

- NetSmart Pro | TaskPro
- NetSmart Pro | SmartAlertz
- NetSmart Pro | SmartCollector
- NetSmart Pro | SmartAuction
- NetSmart Pro | SmartPurchase
- NetSmart Pro | e-receipt
