

Lanka Technology Manufacturer

"Powering Innovation with Precision Wire Solutions"

COMPANY PROFILE

Trusted Wire Harness Manufacturer for Automotive, Industrial, and Electronics Industries

About Us

Lanka Technology Manufacturer is a recognized leader in precision wire harness manufacturing, committed to delivering reliable and innovative connectivity across industries worldwide.

With decades of expertise, advanced facilities, and a customer-first approach, Lanka Technology Manufacturer ensures that every solution meets international quality standards while driving progress in modern technology.

Our Vision

To power innovation and connectivity with precision-engineered wire harness solutions.

Our Service

Custom Manufacturing – Tailored harnesses designed to meet unique client requirements.

Design Support – Engineering guidance from concept to implementation.

Integration Services – Assembly, testing, and seamless integration.

Quality Certification – Rigorous compliance with global standards.

Ongoing Support – Dedicated long-term service and technical assistance.

Cable Assembly – Specialized assemblies for automotive, industrial, and electronics.

Industries & Expertise

Industries We Serve

Industrial & Robotics –

Supporting automation and advanced robotics.

Automotive –

Reliable harnesses for next-generation vehicles.

Electronics –

Compact, high-performance connectivity solutions.

Telecommunications –

Infrastructure built for seamless communication.

Renewable Energy –

Harnesses for solar, wind, and clean energy systems.

Aerospace & Defense –

Rugged, high-reliability solutions for demanding environments.

Our portfolio

Our Expertise

50+

Skilled professionals

300+

years of combined experience

100%

customer satisfaction
