# Chairman's

## M e s s a g e

Quality has always been the ethos that guides our existence. A philosophy that has ensured the satisfaction of the people we serve, while fortifying our reputation as a dependable organization.

And yet, finding success among our clientele is not the only goal we aspire to achieve. Kandetiya Agro Products believes in the growth of the people that support us every day. That is why our every achievement, milestone and feat of greatness is passed down to the lives around us, in the form of better standards of living and higher quality of life.

# Managing Director's

## M e s s a g e

We have always been committed to moving in an upward trajectory in every aspect of our core function. That is why we are dedicated to growing our portfolio of products while elevating our standards of quality. Expanding our reach across international borders while exploring new avenues to uplift the lives of the people and communities that support us.

# Our Products

Bringing you the Inimitable Quality  
of Ceylon Coconut

A thick, creamy white, sterilized cream extracted from the coconut kernel, which is then Ultra-High-Temperature (UHT) processed and packed aseptically. Available as 24% and 30% of fat content and stable at 4° -30°C due to homogenization.

**Packaging Options:**

5kg BIB | 20L BIB | 200L Metal Drum  
200L Paper IBC | 1000L Paper IBC

# Coconut CREAM

# Coconut MILK

A UHT processed opaque, milky-white liquid extracted from the grated pulp of matured coconuts with a fat content of 18%. Stable at 4°-30°C due to homogenization

**Packaging Options:**

5kg BIB | 20L BIB | 200L Metal Drum  
200L Paper IBC | 1000L Paper IBC

NEW

# Coconut Milk

## *with Coconut Water*

A UHT processed opaque, milky-white liquid extracted from the grated pulp of matured coconuts, **diluted with coconut water**, with a fat content of 18% and 24%. Stable at 4°-30°C due to homogenization

### **Packaging Options:**

5kg BIB | 20L BIB | 200L Metal Drum

200L Paper IBC | 1000L Paper IBC

## Coconut Oil

The refined, bleached and deodorised (RBD) coconut oil has a very high smoking point (450°F) which is why it is a widely used ingredient in cooking. The physical refining process of our coconut oil ensures the removal of excess free fatty acids, high colour particles, aroma, impurities and moisture to guarantee a prolonged shelf-life.

## Desiccated Coconut

Shredded and dehydrated white meat of matured coconuts with great natural aroma, containing no refined sugars or artificial flavours, additives or sweeteners. Available in a variety of sizes as fine, medium, chips and other grades.

## Fresh Grated Coconut

This product is made from hygienically grated kernels of Sri Lankan coconut. Each matured, high-quality coconut is handpicked by experts. They are then deshelled, peeled, washed, blanched, and then grated mechanically into fine particles before being frozen to ensure maximum freshness on delivery.

## Coconut Water

A clear liquid found inside the coconut, that is extracted from fresh, curated, matured and paired coconuts. Our products are manufactured using the latest UHT technology under stringent quality assurance systems and aseptically packed to preserve freshness.

# Feedback

## **Alternative Dairy Products Manufacturer, Canada**

*“One of the key features we value is the stability the manufacturer has been able to achieve.*

*The cream has no issues of being stored at room temperature. Also, it has a very good shelf-life which has made it very easier for us to plan the operations.”*

## **Yoghurt Manufacturer, Netherlands**

*“The Coconut Cream produced by Kandetiya, has a unique quality of its own, something we’ve not seen from other suppliers. It has the perfect aroma and texture for secondary manufacturing processes.”*

## **Ice Cream Manufacturer, US**

*“The viscosity of the cream is highly commendable. It is consistent throughout the batch, as well as the texture.”*

## **Alternative Dairy Products Manufacturer, Australia**

*“A highly recommendable manufacturer of high-quality coconut milk.”*

*Sustainability*

# KAP's Current Sustainability Commitments

## Water

- Optimised usage in processing plants
- Rainwater collection
- Soil moisture conservation

## Chemicals

- Organically certified processing units and plantations
- Optimized CIP chemical usage
- Free from hazardous chemicals

## Energy

- Moving from fossil fuel to biomass
- Pooling staff transport

## Emission

Boiler running hour optimization

## Effluent

Treating and recycling wastewater and using for agricultural purposes

## Solid Waste

- Burnt Ash in boilers use as fertilizer for coconut plantations
- Recycling packing waste

Designing factory layouts with minimum harm to biodiversity

Maintaining natural habitats in coconut plantations

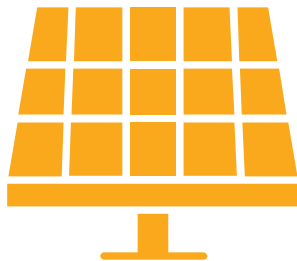

Contribution in tree planting campaigns with national forest department

# 2025

## KAP's Sustainability Goals

Compensate  
**25%**  
of electricity requirement  
through solar power energy  
by year 2025

Plant  
**50,000**  
trees by the year 2025

A photograph of two young girls in school uniforms. The girl in the foreground is wearing a pink face mask with a unicorn and panda pattern. She has her hair in two braids. The girl behind her is smiling and looking to the side. The background is a blurred outdoor setting with trees and a yellow wall.

# Corporate Social Responsibilities

We always believe that the true value of success is determined not only by what we achieve, but also by what we give back to whom supported us along the way. Hence CSR has become one of our top priorities to make sure all our victories are shared generously with every stakeholder.
