ABOUT US

We help companies build better software

Mickiesoft (Pvt) Ltd is a software development company based in Moratuwa, Sri Lanka, founded in 2021. We design and build native iOS and Android apps, ERP and enterprise systems, Microsoft 365 and Office add-ins, and custom software for businesses worldwide.

We also set up dedicated development teams in Sri Lanka that work as an extension of our clients' in-house teams, giving them experienced engineers at lower cost. Mickiesoft is registered as an exporter with the Sri Lanka Export Development Board.

AT A GLANCE

- ✓ Founded 2021, Moratuwa, Sri Lanka
- ✓ 11–50 engineers, designers and QA
- ✓ Registered exporter, Sri Lanka EDB

Fast, scalable full-stack web apps built with Next.js.

Custom Software
Bespoke systems designed around how you work.

Dedicated Teams
Developers who work as part of your in-house team.

IT Operations
Hosting, deployment, monitoring and ongoing support.

Industries: FMCG & distribution · Healthcare · Retail · Hospitality · Professional services

OUR SOLUTIONS

Products built for real businesses

Alongside client projects, we build and run our own platforms for the industries we know best.

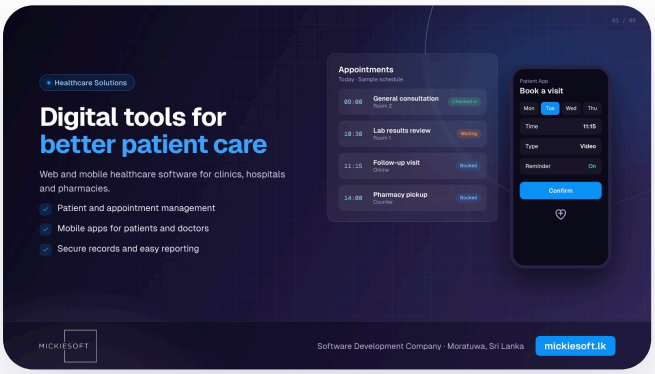

FMCG DISTRIBUTION

End-to-end distribution and van-sales platform

Used by distributors to manage the whole sales cycle, from the rep in the field to the head office.

- ✓ Android field app for orders, outlets and collections
- ✓ Web back office with stock, routes and invoicing
- ✓ Credit control and real-time sales reports

HEALTHCARE

Healthcare apps for clinics and hospitals

Web and mobile software that makes care easier for patients, doctors and staff.

- ✓ Patient and appointment management
- ✓ Mobile apps for patients and doctors
- ✓ Secure records and easy reporting

ERP & custom business software

Inventory, finance, HR, payroll and sales modules, plus Microsoft 365 and Excel add-ins that connect your existing tools.

TECHNOLOGIES WE USE

Kotlin & Android · Swift & iOS · Cross-platform mobile · Next.js & React · .NET & C# · SQL Server · Microsoft 365 & Office.js · Azure & cloud hosting

HOW WE WORK WITH YOU

Flexible ways to engage

Fixed Budget Projects
Clear scope, timeline and price, delivered end to end.

Hire a Dedicated Team
A full team that works only on your product, managed by us.

Hire Professionals
Add experienced developers, designers or QA to your team.

IT Operations
Hosting, deployment, monitoring and support after launch.

WHY MICKIESOFT

Custom Solutions
Software shaped around your process, not the other way round.

Expert Team
Experienced engineers, designers and QA in Sri Lanka.

Agile Process
Short sprints, regular demos and transparent reporting.

24/7 Support
We stay with you after launch to keep things running.

OUR PROCESS

STEP 1
Discover
We learn your goals, users and requirements.

STEP 2
Design
Clear plan, UX and architecture before code.

STEP 3
Build
Agile sprints with demos every two weeks.

STEP 4
Launch & support
Go live, then monitor, improve and support.

LET'S TALK

Have a project in mind? We'd love to hear about it.
