RETAINING THE HUMAN TOUCH

We believe in the human factor. Midaya has been acquiring, nurturing and perfecting skills and techniques since 1968. Our biggest resource is our people.

Midaya is nimble enough to adapt to new trends and professional enough to deliver 100% quality and consistency. We believe in mutually beneficial relationships and understand that total transparency is vital for success.

We work with designers around the world who require a reliable production platform and manufacturers who need to outsource their production. We offer flexible quantities and maximum quality. Our bodies include Earthenware, Stoneware, Terracotta and Stained Porcelain.

Relationship, Quality, Integrity, Consistency and Flexibility are our key values.
