

LEGENDARY
CEYLON
SPICES

LEGENDARY CEYLON SPICES

A coveted treasure for centuries, Ceylon's Legendary Spices, were sought after by many nations and 'True Ceylon Cinnamon' indigenous to Sri Lanka was once so valuable it was considered even more precious than gold due to its scarcity & multiple uses. From use in ancient Egypt as a medicine & spice to a luxury item in Europe, the location of this most valuable spice of the time, was a well-guarded secret by the merchants transporting it, who made up mythical tales to ward of competition.

With the rising popularity of cinnamon, the search for the secret source grew and it was ultimately the Portuguese who accidentally discovered the wonderful island of spices when a storm at sea blew a Portuguese Fleet to the shores of Ceylon, in 1505. Since then, the control of Ceylon Spices has passed through to the Portuguese, to the Dutch & to the British who ruled the island and ultimately back to Ceylonese, who gained independence and became known as Sri Lanka in 1948.

Today, with a rich long history, since even before the Arabian Trade, Ceylon Spices remain as vivid and varied as the beautiful island itself and are still renowned worldwide for its exotic flavour, aroma & superior quality.

AT SILVERMILL,
WE OFFER A RANGE OF LEGENDARY
CEYLON SPICES

EXPERTLY SOURCED & PROCESSED
AT OUR HIGH QUALITY PLANT

COMBINING THE RICH HERITAGE OF SPICES WITH MODERN DAY PROCESSING,
WE OFFER A RANGE OF PACKAGING OPTIONS TO SUIT YOUR NEEDS. INCLUDING
THE OPTION OF PRIVATE LABELLING.

OUR STORY BEGAN IN 1920...

In 1920, Mr. Anthony Silva, our founder, opened his first desiccated coconut factory in Giriulla, a major coconut growing area in Sri Lanka. Today, more than a century later, Silvermill remains under the meticulous management of the third and fourth generation of the Silva family who remain committed to perfect and high quality processing of food, beverage & spice products. Such operations are underpinned by the latest technologies to ensure that an innovative range of products are manufactured in Silvermill facilities in Sri Lanka, Indonesia and India.

Today, we continue to offer customized solutions to many global brands and believe in continuously improving and moving forward in our sustainability journey to create a positive impact in all that we do.

PURE CEYLON CINNAMON

(Cinnamomum zeylanicum)

Sri Lanka is the world's largest producer and exporter of true cinnamon, a common ingredient in seasonings, sauces, baked goods, and drinks. Used for cooking purposes, medicinal purposes and also in the cosmetic and perfumery industries, cinnamon is rich in phytochemically active and structurally diverse compounds with antimicrobial, antioxidant, and many other medicinal properties.

CEYLON BLACK PEPPER

(Piper nigrum)

Sri Lankan Pepper has a higher piperine content making it superior in quality and pungency. Black Pepper is used as a 'hot' cooking spice and used as a seasoning in rubs, spice blends, salad dressings and even in some desserts to enhance the flavour. It has a medicinal value as well and helps improve digestion, aids weight loss, improves liver and kidney functionality and also helps improve nutrient absorption.

CEYLON WHITE PEPPER

(Piper nigrum)

White Pepper come from the berries of the same Piper nigrum plant. This is milder in taste and further processed than Black Pepper and can be used in salads, cream sauces etc. White Pepper is high in antioxidants and has a lot of health benefits including improving digestion, controlling blood sugar, prevents cancer etc.

CEYLON MACE

(Myristica fragrans)

The versatile flavour of Mace makes it an useful spice to have around, especially since many recipes call for it and it works well with milk dishes like custards and cream sauces. Mace also adds flavour to light-coloured cakes and pastries and can be used to enhance the taste of clear and creamed soups, casseroles, chicken pies and sauces. It can also be used to add a subtle flavour to beverages like tea, masala milk, chocolate drinks and tropical punches.

CEYLON CLOVES

(Syzygium aromaticum)

Cloves are known to add depth and flavour to a wide variety of foods. These small dark brown pods are used to spice up curries, season meats, enrich sauces like Worcestershire sauce and even flavour spiced baked goods. Cloves also provide some impressive health benefits such as improving oral health, controlling cholesterol levels, boosting immunity etc.

CEYLON MORINGA

(Moringa oleifera)

Moringa is a superfood packed with antioxidants and contains many important vitamins and minerals. It can be added to soups, stews, or any stir fry when cooking, but it is recommended adding it raw at the end of cooking to optimize its nutritional benefits. Moringa leaves are supposed to have 7 times more vitamin C than oranges and 15 times more potassium than bananas. It also contains calcium, protein, iron and amino acids.

Creating a Positive Impact...

SILVERMILL FOUNDATION

'Corporate Social Responsibility - CSR', even before the term was coined has been an integral part of our business since its inception in 1920. Our Founder, Mr. Anthony Silva was a respected personality for his philanthropic activity in schools and places of worship in and around the factory he started in Girulla. Following in the footsteps of our founder, we have continued to support the community through our various initiatives over the years. In order to bring in transparency and better governance, we have now formalized our Group CSR activities under the Silvermill Foundation, an independently operated non-profit organization. Our CSR Programs are designed to 'Empower People & Inspire Communities' with the involvement of our employees, customers and external stakeholders in the three pillars of: People, Environment and Community. We have also aligned our CSR programs to larger global objectives by linking it to the relevant United Nations Development Program's Sustainable Development Goals (UNSDGs). We actively encourage our customers & key stakeholders to partner in our CSR activities, as together, we can support a larger and broader ambition! Our CSR Projects are focused in creating a positive impact in the areas of:

Agriculture & Livelihood Improvement

Sustainable Consumption & Responsible Manufacturing

Community Development

Education & Skills Development

Over 23,000
PEOPLE POSITIVELY IMPACTED
(2015-2021)

OUR SUSTAINABILITY JOURNEY

As an Agribusiness Group we believe in continuously improving and moving forward in our sustainability journey to create a positive impact in all that we do.

Over 4.6 million Litres of water collected through Rain Water Harvesting

Reduced Over 11.6 million Litres of Furnace Oil Imports per year through Biomass Energy

Reduced 112,000 Liters of Furnace Oil Imports per year through Rooftop Solar

100% of Steam Requirement generated through Biomass Energy

Reduced Over 35,000MT of CO2 Emissions per year through Biomass Energy & Rooftop Solar

Over 1,500 Farmers Trained on Water & Soil Conservation practices through the Silvermill Foundation

Over 18,000 Coconut Trees Planted through the Silvermill Foundation's Coconut Seedling Distribution Program

100 YEARS

OF MANUFACTURING EXCELLENCE

OUR VISION

“Be Sri Lanka’s most admired agribusiness group, partnering growers to provide sustainable innovative solutions to global brands”

INTEGRITY

Reputation is paramount - our word is our honor

OUR VALUES

INNOVATIVE

Our future is rooted in innovation - products, processes and customized solutions

LEARNING

Knowledge is our cornerstone - we will relentlessly pursue it

PARTNERSHIP

Foster enduring bonds with our stakeholders

TEAMWORK

Harness the power of our collective

ECO-FRIENDLY

Partner nature in all what we do

MODESTY

Remain humble as we succeed
