Projects (PVT) LTD.

WHAT MAKES US STAND OUT FROM OUR COMPETITORS?

We are never alone in the professional & technical services that we offer. More often than not, there is someone else out there who offers the same service as us and are competing for our clients. The Reputation, The Client Loyalty , Stronger and Meaningful Relationships are what make us different ! We have been able to complete many multi million Dollar Projects to the satisfaction of clients with the highest quality in the service provided. We are always excited to work with Clients who are really excited about what we are doing!

What Really makes us stand out from the Competition is that unlike other competitors the services which are provided by Venora is done inhouse and it is not outsourced from any third party company. We make sure that we provide our Clients with the Same Quality in all the services provided by us and that ensures the Guarantee in the Service Overall. Our Team of Passionate & Skilled Individuals help you build your Dream leading you to Ultimate Satisfaction.

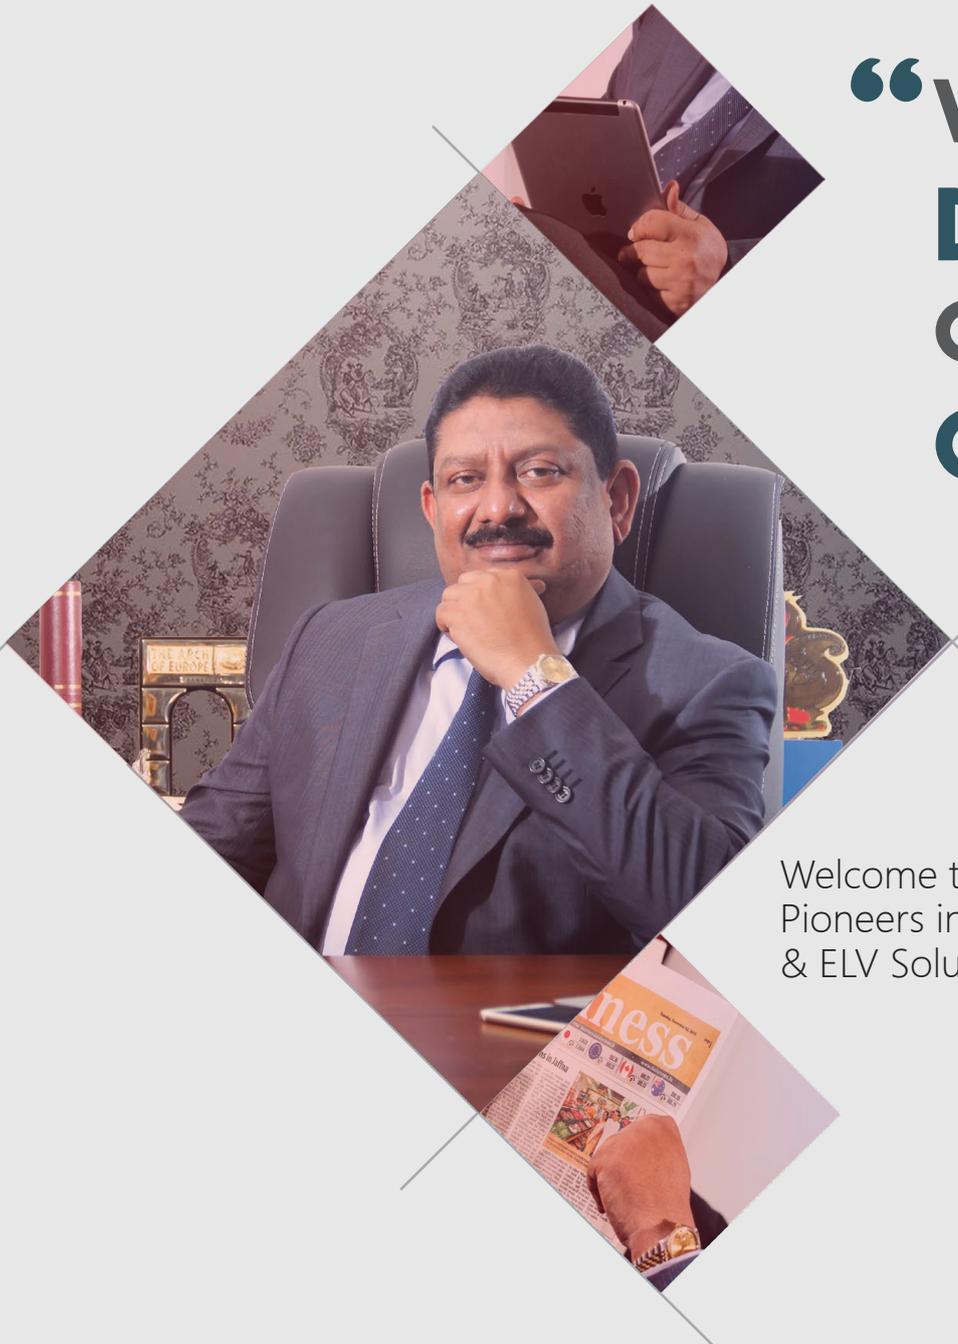

A QUICK GLANCE OF OUR WORKFORCE

Targeted at

Integrity, including a respect for all diverse backgrounds, beliefs and ideas.
Simplicity, looking to continually improve processes, procedures and activities and work across organizational boundaries.

“WE BRING
DELIGHT TO
OUR
CLIENTS”

Welcome to Venora International Projects
Pioneers in Electrical ,Telecommunication
& ELV Solutions!

With a team experienced and qualified engineers and business professionals in our various business units, today, Venora International, is fully geared to meet the demands of the Local & Foreign market place.

All the business models operate autonomously sharing our primary culture of placing customer on top with an unswerving commitment to offer the best in value and quality to every customer, the group has worked assiduously to realize this vision.

Our group enjoys a high credit rating in the global business community and thus financially a strong company. We are proud of our achievements. I am confident that our group will see even greater growth and scale even greater heights.

FINANCIAL INSTITUTIONS

Commercial Bank has been catering the needs of the Management of Venora for a Time Period of 12 Years. They always have been capable of lending advice to make Venora where it is now.

Sampath Bank being able to understand the growing demand of Venora helped to overcome challenges as well as to be a winner in the Engineering World throughout the Past 3 Bold Years.

Being one of the Top Corporate Clients of the Bank of Ceylon helped us gain Simple and Speedy solutions for any urgent financial needs. The Three Years of Financial Dealing with BOC helped us achieve our Yearly Goals easily.

Transparency, Clarity & Confidence in BDO made Venora believe in them throughout the Entire Journey of the Business. They have provided us with their exceptional Advisory Practice during the Instances where Life Changing Decisions were taken.

Bold Relationships

Exclusive Partnerships

WHAT WE DO TO MAKE CHANGE HAPPEN!

Our Insights, tools and expertise knowledge help clients to achieve their biggest goals. Our Electrical Engineering Project Division offers Technical Support to our valued Customers.

ELV SYSTEM INSTALLATION

This includes all the systems in building which operate on low voltages like telephone, data transmission, LAN, CCTV, fire alarm, public address, master clock systems etc. We can help you integrate both existing and new building systems – economically and efficiently.

ELECTRICAL INSTALLATION

Project Related Lighting, Building Management Systems for Commercial and Non-Commercial Projects.

SWITCH BOARD ASSEMBLING

We do Own Fully-Fledged Switch Board Manufacturing facility with ample space and all required modern day equipment and well experienced staff to fabricate all kinds of electrical Switch Boards.

LIGHTNING & SURGE PROTECTION

As electrical earthing contractors and lightning protection contractors, our systems are critical to our customers in the construction, power, telecommunication and water industries.

// EXCELLENCE AWARDS

2013

2014
