the pyramid tea bag

Our pyramid tea bags celebrate the 'Evolution of Tea'. In small net-like mesh, each blend allows water to infuse with more of the tea's surface area, releasing more essential oils & character into the cup. We use whole leaf teas, rough-cut herbs, fruit pieces & real flowers, because we believe each t-sips blend deserves the very best. The unique triangular structure of these bags allow the tea to move around freely inside the pyramid, creating a 'Modern Tea Ceremony'.

our history

Expoteas Ceylon (Pvt.) Ltd, established in 1989, is a leading exporter of varieties of Pure Ceylon Tea from Sri Lanka. Specializing in bulk tea, herbal infusions & value-added specialty teas to markets across the globe. With a rapid growth our company has grown to one of the top 10 exporters of tea in Sri Lanka.

our plantations

With our own plantations we ensure the highest quality of tea. We have two estates – The Leveson-Gower Estate - a tea garden with one of the finest low-grown teas in Sri Lanka & The Galaxy Tea Factory- which produces black tea of different grades. The factories lies close to the only rainforest in Sri Lanka, 'Sinharaja' (high-quality teas from this area fetch premium prices in the largest tea auction in the world.)

We are committed to only use the orthodox 5 stages of production – withering, rolling, fermentation, drying & sorting. All our tea leaves are plucked & processed by hand by an experienced & highly skilled work force. Our pride rests in producing the very best Ceylon tea.

serving t-sips

We partner with a variety of establishments, from cafés to restaurants, global supermarket chains & hotels with an aim to impress customers with a new way to experience tea. We believe this value addition to their menus can take their service to the next level. Our commitment to these partnerships is more than just providing the tea, we look into every detail from individualized menus to serving accessories, enhancing every step along the way.

Our Vision

With a dynamic & skilled team, using state-of-the-art technology & premium facilities, we want to extend our passion for tea across the globe, making an excellent cup of tea accessible to all.

With every tea bag brewed we take a step closer to helping change a life.

Our business is built on relationships: relationships with our customers, partners, investors, employees and the communities in which we live and work. Contributing to the social welfare of our communities is a vital part of our work ethic. We aim to partner with and assist those who are less fortunate than ourselves, making a direct impact in their every day lives.
