

Premium Ceylon Cinnamon Supplier, Exporting Worldwide

ESTD.2021

ROSHAN CINNAMON EXPORTERS (PVT) LTD

"The True Taste of Ceylon Cinnamon – Trusted Worldwide"

Who We Are...

Founded in 2021, Roshan Cinnamon Exporters (Pvt) Ltd is a trusted Sri Lankan cinnamon exporter specializing in premium Ceylon cinnamon under the Roshan Cinnamon brand. Led by Roshan Wickramasinghe, our company operates from Kurudugaha, Sri Lanka, producing over 13,000 kg of cinnamon monthly with a skilled team of 15-20 trained workers.

We export cinnamon quills, cinnamon chips, and cinnamon powder, serving global markets including USA, Peru, Honduras, Guatemala, Bolivia, India, Italy, and Germany. While cinnamon is our core expertise, we also supply cloves, pepper, nutmeg, and mace upon buyer requests. Our products come in various packaging formats, tailored to customer specifications. With over three acres of cinnamon plantations, we ensure high-quality, sustainable sourcing while prioritizing customer satisfaction and long-term partnerships.

If you're looking for a reliable bulk cinnamon supplier, partner with Roshan Cinnamon to experience the finest Ceylon cinnamon exports from Sri Lanka.

Our Vision

To be recognized as a leading global supplier of Ceylon cinnamon, expanding our presence in new markets while promoting Sri Lanka's rich cinnamon heritage through sustainable and innovative practices.

Our Mission

To deliver premium-quality True Ceylon Cinnamon to global markets while maintaining authenticity, sustainability, and ethical sourcing. We strive to build long-term partnerships by ensuring consistent quality, reliable supply, and exceptional customer service.

Our Values

- **Authenticity & Purity** – We deliver 100% True Ceylon Cinnamon, ensuring the highest quality and natural freshness in every shipment.
- **Customer Commitment** – We prioritize buyer satisfaction, offering customized solutions and reliable global shipping to meet your business needs.
- **Sustainability & Ethics** – Our cinnamon is ethically sourced, supporting local farmers and maintaining environmentally responsible practices.
- **Quality & Excellence** – We adhere to strict quality control standards to guarantee premium-grade cinnamon for food, beverage, and spice industries.
- **Global Trust & Reliability** – With years of expertise, we are a trusted exporter serving USA, Europe, the Middle East, and Asia, building long-term partnerships worldwide.

Our Strengths

- **Expertise in Ceylon Cinnamon** – Specializing in premium-quality True Ceylon Cinnamon, ensuring superior taste, aroma, and freshness.
- **Own Cinnamon Plantations** – Direct sourcing from over three acres of cinnamon farms, guaranteeing consistent supply and sustainable harvesting.
- **High Production Capacity** – Processing 13,000 kg of cinnamon monthly with a skilled workforce to meet bulk buyer demands worldwide.
- **Global Market Reach** – Successfully exporting to USA, Peru, Honduras, Guatemala, Bolivia, India, Italy, and Germany, with secure, fast shipping.
- **Flexible Packaging & Customization** – Offering various packaging options based on buyer preferences for retail, wholesale, and bulk distribution.
- **Commitment to Quality & Trust** – Maintaining strict quality control for premium-grade cinnamon, ensuring buyer satisfaction and long-term partnerships.

The Rich History of Ceylon Cinnamon

Ceylon cinnamon, often called “True Cinnamon” (*Cinnamomum verum*), has been prized for centuries for its delicate aroma, sweet flavor, and medicinal properties. Native to Sri Lanka, it has been an integral part of global trade, luxury goods, and ancient remedies.

Ancient Beginnings

Cinnamon's history dates back over 2,000 years, with records showing its use in Ancient Egypt, Rome, and China. The Egyptians used it for preserving food and in religious ceremonies, while the Romans valued it as a precious spice. Sri Lanka's unique climate and soil conditions made it the world's finest source of Ceylon cinnamon, attracting Arab traders as early as the 4th century.

Colonial Trade & Global Demand

By the 16th century, Portuguese explorers monopolized Sri Lanka's cinnamon trade, recognizing its unmatched quality. The Dutch later took control in the 17th century, developing large-scale cinnamon plantations. The British followed in the 19th century, further expanding production and global exports.

Modern Cinnamon Industry

Today, Sri Lanka remains the world's leading producer of Ceylon cinnamon, exporting to USA, Europe, and Asia. Unlike Cassia cinnamon, Ceylon cinnamon is prized for its ultra-thin quills, refined aroma, and low coumarin content, making it the preferred choice for health-conscious consumers, gourmet foods, and premium spice markets.

As a trusted Ceylon cinnamon exporter, Roshan Cinnamon Exporters (Pvt) Ltd continues this rich legacy, providing pure, sustainably sourced cinnamon to global buyers.

Grades of Ceylon Cinnamon

Ceylon cinnamon is classified into different grades based on quill thickness, texture, aroma, and oil content, making it suitable for various industries.

- **ALBA** – The finest, ultra-thin cinnamon quills with a smooth texture and delicate aroma, ideal for luxury food brands and gourmet use.
- **C5 SPL (Special)** – Premium-grade cinnamon with an exceptional fragrance, preferred by high-end spice manufacturers.
- **C5 & C4** – Popular grades with a balanced aroma and refined taste, widely used in food processing and beverages.
- **M5 & M4** – Medium-grade cinnamon, commonly supplied to bulk spice markets, bakeries, and confectioneries.
- **H1, H2, H2 SUPER, H2FAQ, H3** – Stronger-flavored grades, rich in essential oils, perfect for tea blends, pharmaceuticals, and extracts.
- **Offcuts & Chips** – Cost-effective options used for cinnamon oil extraction, spice blends, and industrial applications.

As a leading Sri Lankan cinnamon exporter, Roshan Cinnamon Exporters (Pvt) Ltd ensures high-quality, sustainably sourced cinnamon tailored to buyer requirements. Partner with us for premium Ceylon cinnamon, trusted worldwide.
