Forward

We are extremely honored and privileged to have been selected to conduct the feasibility study to 'Set up export oriented projects in Sri Lanka – construction industry' by the Export Development Board of Sri Lanka (EDB), the apex body that promotes exports to the global market.

It was a tremendous opportunity for us to be with the industry icons and experts of engineering services export service and the experts of Sri Lankan engineering, architecture and quantity surveying and project management consultants and share some of their past, present and future aspirations and goals.

We are immensely grateful to the Experts of Engineering Project Export Service and to the beneficiaries and the key informants who welcomed us with open arms and furnished us with the vital information prepare this report.

It is with sincere and heartfelt appreciation that we dedicate this report to the Sri Lanka Export Development Board, to the beneficiaries and experts of Engineering Project Export Service in Sri Lanka.

Thanking You.

Feasibility study report for setting up of export oriented projects on Construction Sector

| Table of Contents | Page No |
|---|---------|
| 1. Preface | 6 |
| 2. Mapping of the Capabilities of Local Construction Sector vis – a - vis Global Construction Projects. | 8 |
| 3. Addressing Bottlenecks Hindering Lankan Constructors to Enter Global Markets | 8 |
| 4. Sri Lanka Export Development | 9 |
| 5. Industry Experts | 11 |
| 6. Engineering Consultancy Services | 14 |
| 7. Dispute Review Services | 17 |
| 8. Project Management Services | 18 |
| 9. Schematic Design Phase | 24 |
| 10. The Main Processes in the Industry Are | 26 |
| 11. Areas to be Incorporated | 28 |
| 12. The Contractual Relationships | 29 |
| 13. Institutional Experience | 30 |
| 14. Structural Design | 31 |
| 15. E-Procurement | 32 |
| 16. Building Management Systems | 33 |
| 17. Description of the Industry | 34 |
| 18. Players in the Industry | 35 |
| 19. Potential / Contract Type | 37 |
| 20. Design and Build Contracts | 40 |
| 21. Identify Bottlenecks - Local and the Responsible Entity | 41 |
| 22. Seychelles Construction Industry | 42 |
| 23. South Africa Construction Industry | 45 |
| 24. Uganda Construction Industry | 45 |
| 25. Kenyan Construction Industry | 46 |
| 26. Dubai Construction Industry | 47 |
| 27. Saudi Arabia Construction Industry | 48 |
| 28. Rwanda Construction Industry | 50 |
| 29. UK Construction Industry | 51 |
| 30. Auckland / New Zealand Construction Industry | 52 |
| 31. Qatar Construction Industry | 55 |
| 32. Competitive/Comparative Advantages | 57 |
| 33. Export Market Evaluation | 57 |
| 34. Recommendation on Market Entry Strategies for Each Market. | 58 |
| 35. Market Linkage and Buyers Contacts | 59 |
| 36. Export Marketing Plan and Strategies | 61 |

| | |
|---|-----|
| 37. Financial Analysis and Profitability Forecast | 62 |
| 38. Overall Assessment and Conclusion | 63 |
| 39. An Influx of Foreign Revenue Flowing Into The Country. | 64 |
| 40. Human Resources in the Construction Industry | 64 |
| 41. Exporting Professional Services Overseas. | 66 |
| 42. The Construction Industry and Engineering Services | 66 |
| 43. Recommendations to Promote Venturing Overseas By Local Contractors | 67 |
| 44. Strengths of Local Construction Industry as a Driver For External Trade | 68 |
| 45. Issues Affecting The Trade and Areas Needed Improvements | 69 |
| 46. Policy Recommendations | 69 |
| 47. Engineering Services Exporting Projects Works by Sri Lankan Contractors | 71 |
| 48. Niche Markets for Exporting Projects Works | 71 |
| 49. Risks | 72 |
| 50. Income Tax | 73 |
| 51. Tax Treaties: Avoidance of Double Taxation | 74 |
| 52. Capability Matrix | 75 |
| 53. Market Challenges | 81 |
| 54. Laws/Regulations of Foreign Direct Investment | 83 |
| 55. Investment Incentives | 84 |
