PREFACE

This handbook is a part of a series of publications aimed at helping exporters, producers and government officials to utilize the trade opportunities available under the various Generalized System of Preferences (GSP) schemes. The series comprises the following publications:

Publications in the Generalized System of Preferences series

- Handbook on the Scheme of Australia (UNCTAD/ITCD/TSB/Misc.56)
- Handbook on the Scheme of Canada (Present volume)
- Handbook on the Scheme of the European Community (UNCTAD/ITCD/TSB/Misc.25/Rev.3)
- Handbook on the Rules of Origin of the European Union (UNCTAD/ITCD/TSB/Misc.25/Rev.3/Add.1)
- Handbook on the Scheme of Japan (UNCTAD/ITCD/TSB/Misc.42/Rev.4)
- Handbook on the Scheme of New Zealand (UNCTAD/ITCD/TSB/Misc.48)
- Handbook on the Scheme of Norway (UNCTAD/ITCD/TSB/Misc.29/Rev.1)
- Handbook on the Scheme of Switzerland (UNCTAD/ITCD/TSB/Misc.28/Rev.3)
- Handbook on the Scheme of Turkey (UNCTAD/ITCD/TSB/Misc.74)
- Handbook on the Scheme of the United States of America (UNCTAD/ITCD/TSB/Misc.58/Rev.2)
- List of GSP Beneficiaries (UNCTAD/ITCD/TSB/Misc.62/Rev.5)
- AGOA: A Preliminary Assessment (UNCTAD/ITCD/TSB/2003/1)
- Quantifying the Benefits Obtained by Developing Countries from the GSP (UNCTAD/ITCD/TSB/Misc.52)
- Trade Preferences for LDCs: An Early Assessment of Benefits and Possible Improvement (UNCTAD/ITCD/TSB/2003/8)

For further information on the Trade Negotiations and Commercial Diplomacy Branch and its activities, please contact:

NOTES

This handbook has been prepared by the UNCTAD secretariat based on the information below.

The official source of information is the regulations, which can be found on the website of the Department of Justice (<http://laws-lois.justice.gc.ca/>). The D-Memoranda are published by the Canada Border Services Agency (CBSA) and an excellent source of information, as they also contain administrative guidelines, which can be helpful in understanding the provisions of the regulations. They are not, however, the official source of information. When changes are made to the regulations, there can be a delay before the D-Memoranda are updated.

CHECKLIST: HOW TO BENEFIT FROM THE CANADIAN GSP

Step 1: Establish the product's tariff classification

Establish the correct tariff classification by identifying the tariff item number based on the Harmonized-System (HS) of the product intended for export to Canada. To do so, check the exact tariff classification and product description in the Customs Tariff (<http://www.cbsa-asfc.gc.ca/trade-commerce/tariff-tarif/menu-eng.html#current>).

Step 2: Check the product coverage

Find out whether your product is eligible for preference under the Canadian GSP scheme. To do so, consult the Customs Tariff.

Step 3: Assess the preferential margin

If your product is eligible for preferential treatment under the Canadian GSP, you should assess the preferential margin to determine the price you can offer your buyer or importer.

Step 4: Comply with origin criteria

Make sure that your product complies with the rules of origin for the Canadian GSP.

Step 5: Check consignment conditions

Make sure that the consignment conditions specified are met.

Step 6: Prepare documentary evidence

The Canadian GSP requires one of the following papers as documentary evidence.

- Certificate of Origin Form A
- Exporter's Statement of Origin
- Form B255 Textiles and Apparel Goods Originating in a Least Developed Country

Step 7: If you have questions

For questions relating to tariff classification, duties, origin requirements, customs and administrative procedures, contact the Canada Border Services Agency.

EXPLANATORY NOTES ON THE GSP SCHEME OF CANADA

1. Introduction

Canadian legislation implementing a system of tariff preferences in favour of developing countries was brought into effect on 1 July 1974 as part of a concerted international effort by industrialized countries to help developing countries expand their exports and thereby increase their foreign exchange earnings. Consequently, Canada's General Preferential Tariff (GPT) – Canada's designation for the GSP scheme – came into force, and it has been extended several times. Most recently, it was extended until 30 June 2014.¹

The GPT rates and coverage were modified several times. A major review was undertaken in 1995 to take into account the effect of erosion on the margin of preference resulting from the tariff reductions under the Uruguay Round of Multilateral Trade Negotiations. This action led to an expansion of product coverage and lower GPT rates of duty. Also, Canada expanded product coverage and eased the origin requirements for least developed countries (LDCs). Least Developed Country Tariff (LDCT) is the designation for LDC tariff rates under the Canadian GSP scheme.

The issue of treatment for LDCs is discussed in chapter 5 of this handbook. It should be noted that all countries entitled to LDCT treatment are also GPT beneficiaries.

2. Product Coverage, Preferential Tariff Rates and Beneficiary Countries

Canada grants tariff preferences for selected agricultural and industrial products of export interest to developing countries. Some products, such as certain textiles and apparel, footwear, and chemical products are excluded from GPT. For LDCs, with the exception of over-access dairy, poultry and egg products, Canada provides LDCT to all imports from these countries. The GPT rates range from duty-free to reductions in the most-favoured-nation rate, while the LDCT rates are duty-free. Information on product coverage and tariff reduction under the Canadian GSP is found in the *Customs Tariff* (<http://www.cbsa-asfc.gc.ca/trade-commerce/tariff-tarif/menu-eng.html#current>).

Beneficiary countries of the Canadian GSP are listed in the *Customs Tariff*. Since the publication of the previous handbook in December 2001, the following changes have been made with regard to beneficiary countries.

- Effective 30 May 2002, Senegal was designated as an LDCT beneficiary country.
- Effective 24 July 2003, Mongolia was designated as a GPT beneficiary country.
- Effective 1 May 2004, Canada withdrew entitlement to GPT from Cyprus, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, the Slovak Republic and Slovenia, owing to their accession to the European Union.
- Effective 6 April 2006, East Timor (Timor Leste) was designated as an LDCT beneficiary country.

3. Rules of Origin

In order to be eligible for GPT and LDCT rates, products from beneficiary countries must meet the Canadian GSP rules of origin. Also, proof of origin of the goods must be supported by the prescribed documentary evidence. General requirements for the rules of origin are explained below. Examples of origin determination are also discussed. The official source of the information on the Canadian GSP rules of origin is the *General Preferential Tariff and Least Developed Country Tariff Rules of Origin Regulations* (<http://laws-lois.justice.gc.ca/PDF/SOR-98-34.pdf>).

3.1 Wholly obtained goods

The following goods shall be deemed to be a bona fide product of a beneficiary country and to have originated in the beneficiary country:

- (a) Mineral products extracted from the soil or seabed of the country;
- (b) Vegetable products harvested in the country;
- (c) Live animals born and raised in the country;
- (d) Products obtained in the country from live animals;
- (e) Products obtained by hunting or fishing in the country;
- (f) Products of sea fishing and other marine products taken from the sea by vessels of the country;
- (g) Products made on board factory ships of the country exclusively from products referred to in paragraph (f);
- (h) Waste and scrap resulting from manufacturing operations of the country;
- (i) Used articles of the country imported into Canada for use only for the recovery of raw materials;
- (j) Goods produced in the country exclusively from the products referred to in paragraphs (a) to (h)

3.2. Goods with import content

Products manufactured in a beneficiary country are deemed to be originating if the value of the import content is not more than 40 per cent for GPT and not more than 60 per cent for LDCT, of the ex-factory price of the goods as packed for shipment to Canada. In other words, originating contents need to be equal or greater than 60 per cent for GPT and equal or greater than 40 per cent for LDCT, in order to benefit from GPT and LDCT market access. The value of import content is defined as their customs value at the time of importation into the preference-receiving country or, in the case of inputs of undetermined origin, the earliest ascertainable price paid for them in that country. The ex-factory price is the total value of: (a) materials, (b) parts, (c) factory overhead, (d) labour, (e) any other reasonable cost incurred during the normal manufacturing process (e.g. duties and taxes paid on materials imported into a beneficiary country and not refunded when the goods were exported) and (f) a reasonable profit. Any costs incurred subsequent to the goods leaving the factory, such as freight, loading and temporary storage, are not included in the ex-factory price calculation.

3.3. Global cumulation and donor country content

All GPT beneficiary countries are regarded as one single area. Therefore, to calculate GPT originating content, all value-added and manufacturing processes performed in the GPT area may be cumulated as the originating content. Also, any Canadian originating content can be regarded as GPT content. Any parts, materials or inputs used in the production of the goods that have entered the commerce of any country other than a GPT beneficiary country or Canada lose their GPT originating status.

Likewise, all LDCT beneficiary countries are regarded as one single area. Therefore, to calculate LDCT originating content, all value-added and manufacturing processes performed in the area may be cumulated as LDCT content. Any Canadian originating content can be regarded as LDCT content. Also, up to 20 per cent of the ex-factory price of beneficiary country content other than an LDC can be cumulated as LDCT originating content. Furthermore, packing required for the transportation of the goods concerned can be counted as originating content. Packing in which the goods are ordinarily sold for consumption in the LDC concerned is excluded. It should be noted that any parts, materials or inputs used in the production of the goods that have entered the commerce of any country other than an LDCT beneficiary country or Canada lose their LDCT status.

Examples for calculating the percentage of import content under global cumulation and the donor country content rule

- a) Radio sets manufactured in the Philippines with an ex-factory price per unit of Can\$100 contains the following components:
- (i) Integrated circuits and diodes made in Japan, value per radio set Can\$45;
 - (ii) Speakers made in Hong Kong (China), value per radio Can\$15;
 - (iii) Philippine originating component Can\$40.

The import content in this case amount to Can\$45 (integrated circuits and diodes), accounting for 45 per cent of the ex-factory price, whereas under global cumulation the speakers made in Hong Kong are considered to be GPT content. The radio sets, however, do not qualify as GPT originating products, because the value of the import content exceeds 40 per cent of the ex-factory price. If the integrated circuits and diodes had been made in Canada or in other GPT beneficiary countries, they could have been counted as donor- or GPT beneficiary-country content, and the radio sets would qualify as GPT originating products.

- (b) Radio sets manufactured in Bangladesh with an ex-factory price per unit of Can\$100 contain the following components.
- (i) Integrated circuits and diodes made in Japan, value per radio set Can\$55;
 - (ii) Speakers made in India, value per radio set Can\$20;
 - (iii) Bangladesh originating component Can\$25.

Bangladesh is an LDCT beneficiary country, and therefore, non-originating content should not be greater than 60 per cent of ex-factory price. GPT beneficiary content can be cumulated up to 20 per cent of the price of the Radio set, i.e., Can\$20. Thus, the price of the speakers made in India can be cumulated in the Bangladesh content. Consequently, non-originating contents in this case are integrated circuits and diodes made in Japan, that is, Can\$55; accounting for 55 per cent of the ex-factory price of the radio set. Therefore, the radio sets qualify as LDCT originating products.

3.4. Unit of qualification

For the purpose of determining the origin of goods, each article in a shipment shall be considered separately, except where a tariff item specifies that a group, set or assembly shall be considered to be one article. Furthermore, tools, parts and accessories imported with an article that constitute the standard equipment customarily included in the sale of articles of that kind, and the price of which is included in that of the article and for which no separate charge is made, shall be considered as forming a whole with the article. An unassembled article that is imported in more than one shipment because it is not feasible for transport, or production reasons to import it in one shipment shall be considered to be one article.

3.5. Direct shipment

The goods for which preferential treatment is claimed must be shipped directly from the preference-receiving country of origin to a Canadian consignee in Canada.

Goods imported into Canada from a beneficiary country but passing in transit through the territory of an intermediate country will lose their GPT or LDCT eligibility unless the following conditions are met:

- (a) They remain under customs transit control in the intermediate country;
 - (b) They do not undergo any operations in the intermediate country other than unloading, reloading, splitting up of loads or operations required to keep the goods in good condition;
 - (c) They do not enter into the trade or consumption in the intermediate country;
-

- (d) They do not remain in temporary storage in the intermediate country for a period exceeding six months.

Some exceptions exist where goods may be entitled to alternative shipping requirements. These include Mexican goods transhipped through a port of the United States of America adjacent to the Mexico-United States border, Chinese goods transhipped through Hong Kong (China), and Haitian goods transhipped from a port in the Dominican Republic.² In all these cases, a through bill of lading to a consignee in Canada is required. More information on these exceptions is contained in Mexico Deemed Direct Shipment (General Preferential Tariff) Regulations (<http://laws-lois.justice.gc.ca/PDF/SOR-98-37.pdf>), China Direct Shipment Condition Exemption Order (<http://laws-lois.justice.gc.ca/PDF/SOR-85-156.pdf>) and Haiti Deemed Direct Shipment (General Preferential Tariff and Least Developed Country Tariff) Regulations (<http://laws-lois.justice.gc.ca/PDF/SOR-2010-58.pdf>).

3.6. Documentary evidence on proof of origin

The goods for which GPT or LDCT is claimed shall be invoiced separately from other goods, and they must be accompanied by a GSP Certificate of Origin Form A or an Exporter's Statement of Origin as documentary evidence on proof of origin. To claim LDCT status for textiles and clothing (HS Chapters 50–63), however, a different form (Form B255 Textiles and Apparel Goods Originating in a Least Developed Country) must be submitted.

Canada does not require the GSP Certificate of Origin Form A to be stamped and signed by an authority designated by the beneficiary country. Therefore, Certificate of Origin Form A does not have to be an original and field No. 11 in the certificate may be left blank. Certificate of Origin Form A or the Exporter's Statement of Origin must be signed by the exporter in the beneficiary country from which the goods were consigned to Canada. It must contain a full description of the goods and the marks and numbers of the package, and must be cross-referenced to the customs invoice.

A consignee in Canada must be identified in field No. 2 of Certificate of Origin Form A to ensure that the exporter in the beneficiary country has certified the origin of the goods according to Canadian rules of origin. The consignee is the person or company – the importer, agent, or other party in Canada – to which goods are shipped under a through bill of lading and is so named in the bill. The only exception to this condition may be considered when the goods are wholly obtained in the beneficiary country in question, in which case no consignee is required.

Form A or the Exporter's Statement is not required for GPT-eligible goods imported in a traveller's luggage or consigned from an individual in the beneficiary country to an individual in Canada and declared at the time of importation as/and not intended for resale.

In most cases, exporters should find the Exporter's Statement of Origin easier to complete and provide than the alternate Form A. The detailed instructions on the documentary evidence on proof of origin are found in General Preferential Tariff and Least Developed Country Tariff Rules of Origin Regulations (<http://laws-lois.justice.gc.ca/PDF/SOR-98-34.pdf>).

3.7. Marking

Certain goods of the six product categories listed below must be marked with the country of origin in accordance with the Determination of Country of Origin for the Purpose of Marking Goods (Non-NAFTA³ Countries) Regulations. These categories include the following:

- Goods for personal or household use;
 - Hardware;
 - Novelties and sporting goods;
 - Paper products;
 - Apparel;
 - Horticultural products.
-

Further information on marking requirements and the goods concerned is set out in Determination of Country of Origin for the Purpose of Marking Goods (Non-NAFTA Countries) Regulations (<http://laws-lois.justice.gc.ca/PDF/SOR-94-16.pdf>), Marking of Imported Goods Regulations (<http://laws-lois.justice.gc.ca/PDF/SOR-94-10.pdf>), and Customs Act, sections 35.01, 35.02, 43.1, 57.01, 61, 63, 64, and 159.1 (<http://laws-lois.justice.gc.ca/PDF/C-52.6.pdf>).

4. Handicraft Products

4.1. General

Canada grants duty-free entry for handicraft products classified under Tariff Item No. 9987.00.00 of the Canadian Customs Tariff. Detailed information on duty-free handicraft products is set out in the Customs Tariff, Tariff item No. 9987.00.00 of Schedule (<http://www.cbsa-asfc.gc.ca/trade-commerce/tariff-tarif/2012/01-99/ch99-2012-eng.pdf>). This treatment is granted provided that the products concerned meet the following conditions:

- (a) They qualify for GPT treatment;
- (b) They are listed in the schedule of handicraft goods;
- (c) They meet the definition laid down for that purpose;
- (d) They are covered by special documentary evidence.

Handicraft goods are defined as follows:

- (a) Originate in a country entitled to the benefits of the GPT;
- (b) Bear shapes or decorations that are traditionally used by indigenous people or represent any national, territorial or religious symbols of the geographical region where produced;
- (c) Acquired their essential characteristics by the handiwork of individual craftsmen using tools held by hand or tools not powered by machines other than those powered by hand or foot;
- (d) Are non-utilitarian and not copies or imitations of handicraft goods of any country other than the country in which they originate, and are not produced in large quantities by sophisticated tools or by moulding.

The following are the definitions of the terms used to characterize handicraft goods:

- (a) traditional characteristics – any shape or decoration that has been used widely or habitually by the indigenous people of the geographical region where produced, or that represents any accepted national, territorial, or religious symbol of the country of manufacture, such as, the maple leaf or beaver in Canada's case;
 - (b) artistic characteristics – any shape or decoration developed from a traditional shape or design, but carried out in a contemporary idiom;
 - (c) geographical region – the country of manufacture being a country entitled to the benefits of the General Preferential Tariff, or a specific region of that country;
 - (d) non-utilitarian – goods that may have a function or a purpose but are obtained or valued for their artistic, religious, or cultural features;
 - (e) traditional manual skills – skills handed down from generation to generation, such as: appliqué work, knitting, beating, knotting, branding, moulding, carving, needlework, chasing, netting, crocheting, painting, cutting, plaiting, drawing, printing, dyeing, punching, embossing, quilting, embroidering, rubbing, enamelling, scraping or scratching, engraving, studding, etching, tatting, filigreeing, tooling, hammering, twisting, inlaying, weaving or joining.
-

Under tariff item No. 9987.00.00 of the Canada Border Services Agency, handicrafts include the following products:

- (a) Puppets, musical instruments (other than guitars, viols, harpsichords or copies of antique instruments), gourds and calabashes, incense burners, retablos, fans, screens, lacquerware, hand-carved picture frames, hand-carved figurines of animals, and religious symbols and statuettes, composed wholly or in chief part by value of wood, if not more than their primary shape is attained by mechanically powered tools or machines;
- (b) Ornaments, mirrors and figurines, composed wholly or in chief part by value of bread dough;
- (c) Hookahs, nargiles, candelabra and incense burners, composed wholly or in chief part by value of clay;
- (d) Figurines, fans, hats, musical instruments, toys, sitkas, greeting cards and wall hangings, composed wholly or in chief part by weight of vegetable fibres or vegetable materials other than linen, cotton or corn husks;
- (e) Figurines, masks, baskets and artistic cut-outs, composed wholly or in chief part by value of paper or papier maché;
- (f) Puppets, bellows, pouffes, bottle cases, wine or water bottles and jugs, composed wholly or in chief part by value of hide or of leather that has not been finished beyond tanning other than by individual craftsmen;
- (g) Figurines, costume jewellery, beads, belts, hair pins, buttons, lamp bases and key holders, composed wholly or in chief part by value of coconut shell;
- (h) Musical instruments, chimes, combs, fans, costume jewellery, beads, belts, hair pins, wall and table decorations, buttons, lamp bases, and key holders, composed wholly or in chief part by value of mother of pearl, horn, shell including tortoiseshell, or coral;
- (i) Hookahs, nargiles, musical instruments, bells, gongs, incense burners, masks, adzes, mattocks, finger and keyhole plates, door handles and locks, hinges and latches, samovars, kukris and machetes, composed wholly or in chief part by value of base metals, if not more than their primary shape is attained by mechanically powered tools or machines;
- (j) Bracelets, nargiles and hookahs, composed wholly or in chief part by value of glass;
- (k) Fabrics decorated with crewel embroidery, hand-woven semi-finished wall hangings on back strap looms, reverse hand-sewn appliqué wall hangings, and dhurries, composed wholly or in chief part by weight of wool or cotton;
- (l) Lanterns, composed wholly or in chief part by value of stone.

The following articles or products are not accepted as handicrafts under the following conditions:

- (a) They are plain utilitarian goods with no particular artistic or decorative features (qualifying goods may have practical uses but are desired for their artistic characteristics);
- (b) They copy or imitate, or attempt to copy or imitate, traditional, decorative, artistic, or indigenous products of any country other than the country of manufacture;
- (c) Their essential characteristics are identical (in terms of size, design, method of production) to each other and if it is evident that their quality was closely controlled;
- (d) There is evidence that an original handicraft product was used as a “model” and reproduced in large quantities partly by hand and partly by sophisticated tools or by moulding;
- (e) They are produced by individual craftsmen who acquired their skills by formal training or working under close supervision.

The use of tools in the manufacture of handicraft products is admitted as long as the tools are held in the hand, or are not powered by machine other than those powered by hand or foot power. Products made from wood or from certain base metals as listed in the schedule are accepted as handmade if not more than their primary

shape is attained by mechanically powered tools or machines. In the case of leather products listed in the schedule, the leather cannot be finished beyond tanning other than by individual craftsmen.

4.2. Documentary evidence of handicraft goods

A claim for duty-free entry of handicraft products must be supported by a special Certificate of Handicraft Goods. The Certificate of Handicraft Goods does not exist as an already printed form, and it has to be produced in duplicate in the form set out below and has to contain the information required therein. Handicraft goods to be declared must be classified as Tariff item No. 9987.00.00 in the form.

In addition to the Certificate of Handicraft Goods, it would be useful for importers to have on hand a GSP Certificate of Origin Form A or an Exporter's Statement of Origin required for GPT qualification; the products that do not qualify for entry as handicraft products may be eligible for entry at GPT rates of duty. It is therefore recommended that exporters of handicraft articles complete both a special Certificate of Handicraft Goods and GSP Certificate of Origin Form A or Exporter's Statement of Origin.

4.3. Certificate of Handicraft Goods

The undersigned hereby declares that the following goods originated in (Name of country) which is entitled to the benefit of the General Preferential Tariff:

.....(Description of goods)

and certifies that the above-described goods are handicraft products with traditional or artistic characteristics that are typical of the geographical region where produced, namely, (Name of region) and have acquired their essential characteristic by the handiwork of individual craftsmen by means of the following process..... (e.g., carving, knitting, handweaving)

5. Special Treatment for Least Developed Countries

Least developed country beneficiaries enjoy more favourable treatment than non-LDC beneficiary countries for product coverage and the rules of origin of the Canadian GSP scheme. Up-dated information on countries designated as LDCs are found in the Customs Tariff (<http://www.cbsa-asfc.gc.ca/trade-commerce/tariff-tarif/menu-eng.html#current>). All GPT products had been duty-free for LDCs, and on 1 September 2000 and 1 January 2003, product coverage was further expanded adding 570 and 903 tariff lines, respectively.⁴ Canada provides duty-free access to all products from LDCs with the exception of over-quota tariff items for dairy, poultry and egg products.

With regard to origin requirements, up to 60 per cent of import content is allowed to acquire LDCT origin. Furthermore, the origin requirements for textiles and clothing have been relaxed and are now user-friendly. The rules of origin for these products are discussed below.

The official source of the information on the rules of origin for LDCT is the *General Preferential Tariff and Least Developed Country Tariff Rules of Origin Regulations* (<http://laws-lois.justice.gc.ca/PDF/SOR-98-34.pdf>).

Rules of origin for LDCT textiles and clothing

The textile and clothing products that are included in the schedule in the regulations are eligible for LDCT benefits, and the special rules of origin discussed below apply to these products.

Yarns and sewing threads acquire originating status if they are spun or extruded in a least developed country and do not undergo further processing outside an LDC.

Example: Yarns are spun in Bangladesh with cotton imported from Australia. The yarns are sent to Cambodia to be dyed. When the yarns are returned to Bangladesh they are sanitized and packed for shipment to Canada. As the cotton could be imported from anywhere, and further processing was done in an LDC (Cambodia), these yarns have LDCT origin. But if after the spinning process, the yarns were sent to China for dyeing and returned to Bangladesh, they would have lost LDCT origin because further processing occurred outside an LDCT beneficiary.

Fabrics are deemed to be originating if they are produced in an LDC with yarns originating in an LDC, a GPT beneficiary country, or Canada. Two conditions, however, need to be met: (a) the yarns do not undergo further processing outside an LDC, a GPT beneficiary country, or Canada; and (b) the fabrics do not undergo further processing outside an LDC.

Example: Cotton yarn produced in India is exported to Mali where it is woven into cotton fabric and exported to Canada. The fabric acquires LDCT origin, as India is a GPT beneficiary country. But if the fabric was sent to South Africa for further processing and returned to Mali, it would have lost LDCT origin.

Apparel products are deemed originating in an LDC if they are assembled in an LDC from fabric cut in that country or in Canada, or from parts knit to shape, provided the fabric, or the parts knit to shape, are produced in any of the following countries:

- (a) Any LDC or Canada from yarns originating in an LDC, a GPT beneficiary country or Canada, provided the yarns or fabric do not undergo further processing outside an LDC or Canada; or
- (b) A GPT beneficiary country from yarns originating in an LDC, a GPT beneficiary country or Canada, provided;
 - (i) The yarns and fabric do not undergo further processing outside an LDC, a GPT beneficiary country or Canada;
 - (ii) the value of any materials, including packing, that are used in the manufacture of the goods and that originate outside the LDC in which the goods are assembled is no more than 75 per cent of the ex-factory price of the goods as packed for shipment to Canada. For the purpose of this subparagraph, any materials used in the manufacture or production of the goods referred to in that subparagraph that originate from Canada are deemed to have originated in the LDC.

Example for (a): Lesotho imports fabrics woven in Mali with Egyptian yarns, cuts the fabrics and makes dresses. These dresses will qualify as LDCT originating, as the fabrics are produced in an LDC from yarns originating in a GPT country, and as the fabrics are cut and assembled in an LDC. If the yarns or the fabrics undergo further processing outside an LDC or Canada, for example, South Africa, the dresses will lose LDCT originating status.

Example for (b): Lesotho imports fabrics woven in China with Chinese yarns, cuts the fabrics and makes dresses. Local content such as labour accounts for 26 per cent of the ex-factory price of the dresses as packed for shipment to Canada. These dresses will qualify as LDCT originating, as non LDC originating content accounts for less than 75 per cent of the ex-factory price of the dresses.

Made-up textile articles are deemed to be originating if they are cut, or knit to shape, and assembled in an LDC from fabric produced in any LDC or Canada from yarns originating in an LDC, a GPT beneficiary country or Canada. The yarns and fabric used cannot undergo further processing outside an LDC or Canada.

Example: Cambodia makes blankets with wool fabrics woven by Bangladesh with yarns produced in Pakistan. The wool fabric is shipped directly to Cambodia from Bangladesh. The production process of the blankets in Cambodia included cutting of the wool fabric and sewing. These blankets will qualify as LDCT originating, as the fabrics are produced in an LDC with the yarns of GPT origin, and the final products are cut and assembled in an LDC.

6. Other Preferential Tariff Treatments

In addition to GPT and LDCT treatments, Canada offers two other preferential schemes of interest to certain specified developing countries. These schemes include the following:

Caribbean

Caribbean is the Canadian economic and trade development assistance programme for the Commonwealth Caribbean countries and territories. Caribbean preferences are available to most Commonwealth Caribbean States under the Commonwealth Caribbean Countries tariff treatment. Qualifying goods are granted duty-free entry into Canada. Product coverage is similar to that provided by the GPT with a slightly broader product coverage for agricultural products and processed agricultural goods. Basic qualifications are the same as those provided by GPT, except that the cumulation is restricted to Caribbean beneficiary members and the goods must be shipped directly to Canada from a beneficiary country. Canadian content is also allowed for cumulation. Consult the List of Countries in the Customs Tariff (<http://www.cbsa-asfc.gc.ca/trade-commerce/tariff-tarif/menu-eng.html#current>) for Caribbean beneficiaries. The official source of information on the rules of origin for the Caribbean preferences is the Commonwealth Caribbean Countries Tariff Rules of Origin Regulations (<http://laws-lois.justice.gc.ca/PDF/SOR-98-36.pdf>).

7. Safeguard Measures

In accordance with Article XIX of the General Agreement on Tariffs and Trade (GATT 1994), Canada may take emergency action in respect of products that are imported in such quantities and under such conditions as to cause or threaten to cause serious injury to domestic producers of like or directly competitive products by withdrawing or modifying its preferential concession. Under the legislation, the Canadian International Trade Tribunal may be directed by the Minister of Finance to conduct an inquiry into any complaint submitted by a Canadian producer claiming that he has suffered, or may suffer injury, as a result of factors connected with the Anti-Dumping Code and the Code on Subsidies and Countervailing Duties of the World Trade Organization (WTO) (GATT 1994). If it is satisfied that there is a prima facie case of injury, and it judges that the removal of the GPT concession would remove the injury, it will conduct a public inquiry and make recommendations to the Government. According to the recommendation of the Canadian International Trade Tribunal, the Government may withdraw the GPT concession or establish tariff rate quotas.

**Expansion of LDCT product coverage
List of tariff items eligible for duty-free entry from
Least Developed Countries (LDCs)
(effective 1 September 2000)**

Tariff items added effective September 1, 2000 have been listed by Harmonized System Chapter for convenience. Goods of the following Chapters of the Canadian Customs Tariff are eligible for duty-free treatment when imported from Least Developed Countries: Chapters 03, 05*, 09*, 12, 13, 14*, 25*, 26*, 27*, 28*, 29, 30*, 31*, 32*, 33*, 34*, 36*, 37*, 38*, 39*, 40*, 41*, 42*, 43*, 44*, 45*, 46*, 47*, 48*, 49*, 50*, 57*, 65, 66*, 67*, 68, 69*, 70, 72, 74*, 75*, 76*, 78*, 79*, 80*, 81*, 82*, 83*, 84*, 85, 86*, 87*, 88, 89*, 90*, 91*, 92*, 93*, 94, 95 and 97*.

* Goods in this Chapter were already eligible for duty-free treatment when imported from Least Developed Countries prior to 1 September 2000

For a Description of Goods classified in these tariff items, please consult the Canadian Customs Tariff (available on Canada Customs and Revenue Agency website at www.ccr-aadrc.gc.ca).

MEMORANDUM D11-4-4

In Brief

RULES OF ORIGIN RESPECTING THE GENERAL PREFERENTIAL TARIFF AND LEAST DEVELOPED COUNTRY TARIFF

This In Brief page has been revised to denote changes made as a result of the Government of Canada's Paperwork Burden Reduction Initiative. This revision replaces the In Brief page dated May 27, 2008. In accordance with the above the following change was made:

- (a) The last sentence in paragraph 64 was deleted, as it related to the verification of origin of goods, rather than to the procedural requirements for using the Exporter's Statement of Origin, the subject of this paragraph.
- (b) Memorandum D11-4-4 was also revised to include the most recent GPT and LDC Rules of Origin policy in the "Guidelines and General Information" section of this memorandum. Paragraph 67 was revised to make it clearer to the reader, while paragraph 86 was revised to include updated contact information. Additional editing revisions do not affect or change any of the existing policies or procedures contained in this memorandum.

MEMORANDUM D11-4-4

RULES OF ORIGIN RESPECTING THE GENERAL PREFERENTIAL TARIFF AND LEAST DEVELOPED COUNTRY TARIFF

This memorandum contains the *General Preferential Tariff and Least Developed Country Tariff Rules of Origin Regulations* and outlines the guidelines for the determination of the origin of goods for purposes of the General Preferential Tariff (GPT) and Least Developed Country Tariff (LDCT) treatment, enacted pursuant to the *Customs Tariff*.

Regulations

GENERAL PREFERENTIAL TARIFF AND LEAST DEVELOPED COUNTRY TARIFF RULES OF ORIGIN REGULATIONS

Interpretation

1. The definitions in this section apply in these Regulations.

“beneficiary country” means a country that is a beneficiary of the General Preferential Tariff; (*pays bénéficiaire*)

“least developed country” means a beneficiary country that is a beneficiary of the Least Developed Countries Tariff. (*pays parmi les moins développés*)

Origin of Goods

2. (1) A good originates in a beneficiary country or a least developed country if the good is

- (a) a mineral good extracted from the soil or the sea-bed of the country;
- (b) a vegetable good harvested in the country;
- (c) a live animal born and raised in the country;
- (d) a good obtained in the country from a live animal;
- (e) a good obtained from hunting or fishing in the country;
- (f) a good derived from sea fishing or other marine goods taken from the sea by a vessel of the country;
- (g) a good produced on board a factory ship of the country exclusively from a good referred to in paragraph (f);
- (h) waste and scrap derived from manufacturing operations of the country;
- (i) used goods of the country imported into Canada for use only for the recovery of raw materials; or
- (j) a good produced in the country exclusively from a good referred to in any of paragraphs (a) to (h).

(2) Goods originate in a beneficiary country if the value of the materials, parts or products originating outside that country, or in an undetermined location, and used in the manufacture or production of the goods is no more than 40% of the ex-factory price of the goods as packed for shipment to Canada.

(2.1) Goods other than goods of tariff item Nos. set out in Parts A1, B1, C1 and D of the Schedule originate in a least developed country if the value of the materials, parts or products originating outside that country, or in an undetermined location, and used in the manufacture or production of the goods is no more than 60% of the ex-factory price of the goods as packed for shipment to Canada.

(2.2) Goods of tariff item Nos. set out in Parts A1 and A2 of the Schedule originate in a least developed country if they are spun or extruded in a least developed country and do not undergo further processing outside a least developed country.

(2.3) Goods of tariff item Nos. set out in Parts B1 and B2 of the Schedule originate in a least developed country if they are produced in a least developed country from yarns originating in a least developed country, a beneficiary country or Canada, provided

(a) the yarns do not undergo further processing outside a least developed country, a beneficiary country or Canada; and

(b) the fabrics do not undergo further processing outside a least developed country.

(2.4) Goods of tariff item Nos. set out in Parts C1 and C2 of the Schedule originate in a least developed country if they are assembled in a least developed country from fabric cut in that country or in Canada, or from parts knit to shape, provided the fabric, or the parts knit to shape, are produced in

(a) any least developed country or Canada from yarns originating in a least developed country, a beneficiary country or Canada, provided the yarns or fabric do not undergo further processing outside a least developed country or Canada; or

(b) a beneficiary country from yarns originating in a least developed country, a beneficiary country or Canada, provided

(i) the yarns and fabric do not undergo further processing outside a least developed country, a beneficiary country or Canada, and

(ii) the value of any materials, including packing, that are used in the manufacture of the goods and that originate outside the least developed country in which the goods are assembled is no more than 75% of the ex-factory price of the goods as packed for shipment to Canada.

(2.5) For the purpose of subparagraph 2(4)(b)(ii), any materials used in the manufacture or production of the goods referred to in that subparagraph that originate from Canada are deemed to have originated in the least developed country.

(2.6) Goods of tariff item Nos. set out in Part D of the Schedule originate in a least developed country if they are cut, or knit to shape, and sewn or otherwise assembled in the least developed country from fabric produced in any least developed country or Canada from yarns originating in a least developed country, a beneficiary country or Canada, provided the yarns and fabric do not undergo further processing outside a least developed country or Canada.

(3) For the purpose of subsection (2), the following are deemed to have originated in the beneficiary country:

(a) any materials, parts or products used in the manufacture or production of the goods referred to in that subsection and originating from any other beneficiary country or from Canada, and

(b) any packing required for the transportation of the goods referred to in that subsection, not including packing in which the goods are ordinarily sold for consumption in the beneficiary country.

(4) For the purpose of subsection (2.1), the following are deemed to have originated in the least developed country:

(a) any materials, parts or products used in the manufacture or production of the goods referred to in that subsection and that

(i) originate from any other least developed country or from Canada, or

(ii) have a value of up to 20% of the ex-factory price of the goods, as packed for shipments to Canada, from a beneficiary country other than a least developed country; and

(b) any packing required for the transportation of the goods referred to in that subsection, not including packing in which the goods are ordinarily sold for consumption in the least developed country.

3. (1) For the purpose of determining the origin of goods, each good in a shipment shall be considered separately, except that

(a) if a group, set or assembly of goods is classified in one tariff item, the group, set or assembly shall be considered to be one good, and

(b) tools, parts and accessories

(i) that are imported with a good,

(ii) that constitute the standard equipment customarily included in the sale of a good of that kind, and

(iii) the price of which is included in that of the good and for which no separate charge is made, shall be considered as forming a whole with the good.

3

(2) An unassembled good that is imported in more than one shipment because it is not feasible for transport or production reasons to import it in one shipment shall be considered to be one good.

Direct Shipment

4. (1) Goods are entitled to the General Preferential Tariff only if the goods are shipped directly to Canada, with or without transshipment, from a beneficiary country.

(2) Goods are entitled to the Least Developed Country Tariff only if the goods are shipped directly to Canada, with or without transshipment from a least developed country

GUIDELINES AND GENERAL INFORMATION

INTRODUCTION

1. GPT and LDCT beneficiary countries are identified in the *Customs Tariff*.
2. All countries entitled to the LDCT treatment as indicated in the *Customs Tariff*, are also beneficiaries of the GPT.

DEFINITIONS

3. The “Interpretation” section of the *Regulations* contains definitions that are important in understanding the administration of the *Regulations*. For purposes of this Memorandum, the following terms are also important:

“ex-factory price” means the total value of: (a) materials; (b) parts; (c) factory overhead; (d) labour; (e) any other reasonable costs incurred during the normal manufacturing process, e.g. duties and taxes paid on materials imported into a beneficiary country and not refunded when the goods were exported; and (f) a reasonable profit. [Note: Any costs incurred subsequent to the goods leaving the factory, such as freight, loading, temporary storage, are not included in the ex-factory price calculation.] (*prix ex-usine*)

“HS” means the Harmonized Commodity Description and Coding System that is used for the classification of goods. (*SH*)

“originating in Canada” means, for **yarns**, a good which has been spun or extruded in Canada and has not undergone any further processing outside of Canada or a LDCT beneficiary; for **fabric**, a good which has been produced in Canada from yarns originating in a LDCT or GPT beneficiary or Canada and the fabric does not undergo any further processing outside Canada or a LDCT beneficiary. (*origine du Canada*)

“paragraph” means a subset of a section to the *Regulations* (for example: paragraph 2(1)(a) is one of the definitions used to determine if a good originates from a GPT or LDCT beneficiary country. (*alinéa*))

“section” means a portion of the *Regulations* (for example: Section 4 pertains to Direct Shipment). (*article*)

“subsection” means a subset of a section of the *Regulations* (for example subsection 2(1) defines goods as wholly obtained or produced). (*paragraphe*)

“*Regulations*” means the *General Preferential Tariff and Least Developed Country Tariff Rules of Origin Regulations*. (*Règlement*)

PRODUCT COVERAGE

4. The applicable GPT rates of duty appear in the *Customs Tariff*. Goods for which a GPT rate is not indicated are not entitled to a GPT rate of duty but rather are subject to an alternate tariff treatment, usually the Most-Favoured-Nation (MFN) Tariff. In addition, handicrafts from GPT beneficiary countries that meet the criteria outlined in Memorandum D10-15-13, *Handicrafts*, may benefit from duty-free treatment.
5. The applicable LDCT rates of duty accorded to goods are identified in the *Customs Tariff*. Where a LDCT rate is not indicated, the goods in question are not entitled to the LDCT treatment, but rather are usually subject to the alternate GPT or MFN tariff treatment.

METHODS OF DETERMINING COUNTRY OF ORIGIN

General

6. The country of origin of goods imported from a GPT or LDCT beneficiary is determined using the rules of origin set out in sections 2 through 4 of the *Regulations*.

Rules of Origin for GPT

7. To determine if goods are entitled to the GPT, only subsections 2(1), (2) and (3) of the *Regulations* may be applied.

GPT – Application of Subsection 2(1)

8. A good is “wholly obtained or produced” in a GPT beneficiary if it meets one of the definitions set out in subsection 2(1) of the *Regulations*. “Wholly obtained” does not mean a good purchased in a GPT beneficiary. Goods, which are “wholly obtained or produced” in a GPT beneficiary, **must not** contain any foreign materials or parts from outside that GPT beneficiary.

Example: Sugar cane grown and harvested in Jamaica would meet the definition of paragraph 2(1)(b) of the *Regulations*.

Example: Leather belts are produced in the Philippines. They are made from leather wholly produced from cattle born and raised in the Philippines. Therefore the belts are wholly produced in the Philippines by the application of paragraph 2(1)(j).

GPT – Application of Subsections (2) and (3)

9. To qualify for the GPT treatment by the application of subsection (2) of the *Regulations*, at least 60% of the ex-factory price of the good as packed for shipment to Canada must originate in one or more GPT beneficiary countries or Canada.

Example: A radio receiver subassembly is produced in Malaysia from imported parts. The receiver

subassembly is then exported to Indonesia, where it is manufactured with other imported materials into a finished radio. As both countries are GPT beneficiary countries, the value of the materials and work done in Malaysia may be added to the work done in Indonesia to determine whether the radio meets the 60% content requirement.

Example: Insulated wire is manufactured in Colombia. The materials used include steel from Canada, rubber from Malaysia, and Colombian materials and labour costs. To determine whether the wire meets the qualifying content requirement, the value of the Canadian steel may be added to the content originating from the GPT beneficiary countries.

10. The GPT 60% qualifying content may be cumulated from various GPT beneficiary countries or Canada in accordance with subsection (3) of the *Regulations*. However, any parts, materials or inputs used in the production of the goods that have entered the commerce of any country other than a GPT beneficiary country or Canada lose their GPT status.

11. To calculate the qualifying content, all GPT beneficiary countries are regarded as one single area. All value-added and manufacturing processes performed in the area may be integrated to meet the qualifying content requirement. Any Canadian content used in the production of the goods is also regarded as content from the GPT beneficiary country where the goods originate.

12. The goods must be finished in the GPT beneficiary country in the form in which they were imported into Canada.

Rules of Origin for LDCT

13. To determine if goods are entitled to the LDCT, only subsections 2(1), (2.1) through (2.6) and (4) of the *Regulations* may be applied.

14. The goods must be finished in a LDCT beneficiary country in the form in which they were imported into Canada.

LDCT – Application of Subsection 2(1)

15. Where any good is identified in the *Customs Tariff* as being accorded the LDCT, subsection 2(1) may be applied to determine if the goods qualify for the LDCT. A good is "wholly obtained or produced" in a LDCT beneficiary if it meets one of the definitions set out in subsection 2(1) of the *Regulations*.

16. Goods, which are wholly obtained or produced in a LDCT beneficiary under this subsection, **must not** contain any foreign materials or parts from outside any LDCT beneficiary. In addition, "wholly obtained" does not mean a good purchased in a LDCT beneficiary.

Example: Fish caught in Haiti would meet the definition of paragraph 2(1)(e) of the *Regulations*.

Example: Cotton is harvested in Burundi. The cotton is spun into yarn and then woven into blankets in Burundi. The blankets are wholly produced in Burundi by the application of paragraph 2(1)(j).

17. When goods of HS Chapters 50-63 are determined to originate by the application of this subsection, Criteria G would be quoted in Field 6 of the *Certificate of Origin – Textile and Apparel Goods Originating in a Least Developed Country*.

LDCT – Application of Subsections (2.1) and (4)

18. Where any good, with certain exceptions, is identified in the *Customs Tariff* as being accorded the LDCT, subsection (2.1) may be applied to determine if the good qualifies for the LDCT. **Exceptions:** this subsection may not be used to determine the origin of goods set out in Parts A1, B1, C1 or D of the Schedule to the *Regulations*.

19. To qualify for the LDCT treatment by the application of this subsection, at least 40% of the ex-factory price of the good as packed for shipment to Canada must originate in one or more LDCT beneficiary countries or Canada.

20. In accordance with subsection (4) of the *Regulations*, the LDCT 40% qualifying content may be cumulated from various LDCT beneficiary countries or Canada and, in addition, the 40% of the ex-factory price of the goods as packed for shipment to Canada may also include a value of up to 20% of the ex-factory price of the goods from GPT eligible countries. However, any parts, materials or inputs used in the production of the goods that have entered the commerce of any country other than a LDCT beneficiary country or Canada lose their LDCT status.

21. To calculate the qualifying content, all LDCT beneficiary countries are regarded as one single area. All value-added and manufacturing processes performed in the area may be integrated to meet the qualifying content requirement. Any Canadian content used in the production of the goods is also regarded as content from the LDCT beneficiary country where the goods originate.

Example: Wool of Yemen is combined with spandex of Hong Kong and sewing thread of India to manufacture wool socks in Yemen. Under this subsection, a textile or apparel good must contain parts and materials of LDC origin that represent no less than 40% of the ex-factory price of the good as packed for shipment to Canada. The wool of Yemen origin represents 35% of the ex-factory price. The sewing thread of India and spandex of Hong Kong represents an additional 7%. This subsection permits inputs from GPT beneficiaries, in this case Hong Kong and India, to be included in the 40% parts and materials requirement. The 35% input of wool from Yemen combined with the 7% sewing thread and

spandex inputs from the GPT countries exceed the 40% minimum input requirement under this subsection. The socks therefore qualify for the LDCT.

22. The exporter/producer has the option of certifying any good set out in paragraph 18 under this subsection or under subsection 2(1).

23. When goods of HS Chapters 50-63 are determined to originate by the application of this subsection, Criteria A would be quoted in Field 6 of the *Certificate of Origin – Textile and Apparel Goods Originating in a Least Developed Country*.

LDCT – Application of Subsection (2.2)

24. This subsection may only be used to determine if “yarns and sewing threads” as set out in Parts A1 and A2 of the Schedule to the *Regulations* are entitled to the LDCT.

25. “Yarns or sewing threads” must be spun or extruded in a LDCT beneficiary country. Once spun or extruded, the goods cannot undergo any further processing outside any LDCT beneficiary.

Example: Cotton of any country of origin is imported into Bangladesh and spun into yarn in Bangladesh. The yarn is sent to Cambodia to be dyed. When the yarn is returned to Bangladesh it is sanitized and packed for shipment to Canada. Such goods would be entitled to the LDCT.

However, if after the spinning process, the yarns were further processed in China (GPT), returned to Bangladesh, then exported to Canada, the goods would not be entitled to be certified as originating in a LDC because further processing occurred outside a LDCT beneficiary.

26. When goods of Parts A1 or A2 are determined to originate by the application of this subsection, Criteria B would be quoted in Field 6 of the *Certificate of Origin – Textile and Apparel Goods Originating in a Least Developed Country*.

27. Where “yarns or sewing threads” are classified under a tariff item set out in Part A2 of the Schedule to the *Regulations* the exporter/producer has the option of certifying the goods under this subsection or under subsections 2(1) or (2.1).

LDCT – Application of Subsection (2.3)

28. This subsection may only be used to determine if “fabrics” as set out in Parts B1 and B2 of the Schedule to the *Regulations* are entitled to the LDCT.

29. To be entitled to the LDCT such “fabrics” must be produced in a LDCT beneficiary from yarns that originate in any LDCT or GPT beneficiary or Canada.

30. The yarns used in the “fabrics” must not undergo any further processing outside any LDCT or GPT beneficiary or Canada. The “fabrics” must not undergo any further processing outside any LDCT beneficiary or Canada.

Example: Cotton yarn produced in India is exported to Mali where it is woven into cotton fabric that is exported to Canada. As the cotton fabric meets the conditions of this subsection, the goods are entitled to be certified as originating in a LDC.

Example: Yarn produced in Spain is exported to Mali where it is woven into fabric for export to Canada. The fabric would not be entitled to be certified as LDC originating as the yarn does not originate in a LDCT beneficiary country, a GPT beneficiary country or Canada.

31. When goods of Parts B1 and B2 are determined to originate by the application of this subsection, Criteria C would be quoted in Field 6 of the *Certificate of Origin – Textile and Apparel Goods Originating in a Least Developed Country*.

32. Where a “fabric” is classified under a tariff item set out in Part B2 of the Schedule to the *Regulations*, the exporter/producer has the option of certifying the goods under this subsection or subsections 2(1) or (2.1).

LDCT – Application of Paragraph (2.4)(a)

33. This paragraph may only be used to determine if “apparel goods” as set out in Parts C1 and C2 of the Schedule to the *Regulations* are entitled to the LDCT.

34. To be entitled to the LDCT, such “apparel goods” must be assembled in a LDCT beneficiary. The fabric used in the assemble of such “apparel goods” must be cut in **that LDC** or Canada, and, in the case where such “apparel goods” are assembled from parts, those parts must be knit to shape in a LDC or Canada.

35. Furthermore, the fabric, or parts knit to shape, must be produced in any LDC or in Canada from yarns originating in any LDCT or GPT beneficiary or in Canada. The yarns or fabric, or parts knit to shape, must not undergo any further processing outside any LDCT beneficiary or Canada.

Example: Dresses or skirts manufactured in Mali will qualify as originating and be eligible for duty-free LDCT provided that the dresses or skirts are assembled in Mali from fabric that has been cut in Mali or Canada. The fabric must be produced in any LDC or in Canada from yarns that that originate in any LDC, GPT country or Canada and the yarns or fabric have not undergone any further processing outside any LDC or Canada.

36. When goods of Parts C1 and C2 are determined to originate by the application of this subsection, Criteria D would be quoted in Field 6 of the *Certificate of Origin – Textile and Apparel Goods Originating in a Least Developed Country*.

37. Where "apparel goods" are classified under a tariff item set out in Part C2 of the Schedule to the *Regulations* the exporter/producer has the option of certifying the goods under this subsection or subsections 2(1) or (2.1).

LDCT – Application of Paragraph (2.4)(b) and Subsection (2.5)

38. This paragraph may only be used to determine if "apparel goods" as set out in Parts C1 and C2 of the Schedule to the *Regulations* are entitled to the LDCT.

39. To be entitled to the LDCT, such "apparel goods" must be assembled in a LDCT beneficiary. The fabric used in the assembly of such "apparel goods" must be cut in **that LDC** or Canada.

40. Furthermore, the fabric or parts knit to shape must be produced in a GPT beneficiary from yarns originating in any LDCT or GPT beneficiary or Canada. The yarns or fabric, or parts knit to shape, must not undergo any further processing outside a LDCT beneficiary, a GPT beneficiary or Canada.

41. Finally, the value of any materials, including packing, that are used in the manufacture of the goods, that originate outside the LDC in which the goods are assembled must not be more than 75% of the ex-factory price of the goods as packed for shipment to Canada. However, any parts, materials or inputs used in the production of the goods that have entered the commerce of any country other than a LDCT beneficiary country or Canada lose their LDCT status.

42. For purposes of paragraph 41, any materials used in the manufacture or production of the good that originate in Canada are deemed to have originated in the LDC where the goods are assembled.

Example: Those same dresses or skirts manufactured in Mali will qualify as and be eligible for duty-free LDCT provided that the dresses or skirts are assembled in Mali and the fabric used in the manufacture of the dresses or skirts is produced in a GPT country from yarns originating in a LDCT or GPT beneficiary or Canada. The yarns and fabric cannot undergo further processing outside a LDCT or GPT beneficiary or Canada. When using fabric manufactured in a GPT, the value of any materials, including packing, that does not originate in the LDC in which the dresses or skirts are assembled must not exceed 75% of the ex-factory price of the goods as packed for shipment to Canada.

43. When goods of Parts C1 and C2 are determined to originate by the application of this subsection, Criteria E would be quoted in Field 6 of the *Certificate of Origin – Textile and Apparel Goods Originating in a Least Developed Country*.

44. Where "apparel goods" are classified under a tariff item set out in Part C2 of the Schedule to the *Regulations* the exporter/producer has the option of certifying the goods under this subsection or subsections 2(1) or (2.1).

LDCT – Application of Subsection (2.6)

45. This subsection may only be used to determine if "made-up textile goods" as set out in Part D of the Schedule to the *Regulations* are entitled to the LDCT.

46. To be entitled to the LDCT, such "made-up textile goods" must be cut, or knit to shape, and sewn or otherwise assembled in a LDCT beneficiary.

47. Furthermore, the fabric or parts knit to shape must be produced in a LDCT beneficiary or Canada from yarns originating in any LDCT or GPT beneficiary or Canada. The yarns or fabric or parts knit to shape must not undergo any further processing outside a LDCT beneficiary or Canada.

Example: Wool yarn produced in Afghanistan is exported to Bangladesh where the yarn is produced into wool fabric. The wool fabric is shipped directly to Lao People's Democratic Republic for further production into a good classified as "Other Made-up Textile Article." The production process of the finished good in Lao People's Democratic Republic must include cutting, or knitting to shape, of the fabric as well as sewing or otherwise assembling in that country in order for the good to qualify for the LDCT.

48. When goods of Part D are determined to originate by the application of this subsection, Criteria F would be quoted in Field 6 of the *Certificate of Origin – Textile and Apparel Goods Originating in a Least Developed Country*.

49. The exporter/producer has the option of certifying "made-up textile goods" of Part D of the Schedule to the *Regulations* under this subsection or subsection 2(1).

NON-ORIGINATING MATERIALS, PARTS, OR PRODUCTS

50. When determining if goods of HS Chapters 50-63 are entitled to the LDCT by the application of subsections (2.3) or (2.6) or paragraph (2.4)(a) of the *Regulations*, any materials, parts or products such as threads, linings, interfacing, trims, zippers, buttons or fasteners may be disregarded.

51. When determining if goods of HS Chapters 50-63 are entitled to the LDCT by the application of subsection (2.1) of the *Regulations* exporters must ensure that the value of

all materials, parts or products, including such materials, parts or products as threads, linings, interfacing, trims, zippers, buttons or fasteners which originate outside Canada or any least developed country, or in an undetermined location, is no more than 60% of the ex-factory price of the goods as packed for shipment to Canada.

52. For purposes of subsection (2.1), the value of any materials, parts or products used in the manufacture or production of the goods may include a value of up to 20% of the factory price of the goods, as packed for shipment to Canada from a GPT beneficiary country.

53. When determining if goods of HS Chapters 61 and 62 are entitled to the LDCT by the application of subparagraph (2.4)(b)(ii) of the *Regulations*, exporters must ensure that the value of all materials, parts or products, including such materials, parts or products as threads, linings, interfacing, trims, zippers, buttons or fasteners that originate outside Canada, or the least developed country in which the goods are assembled, is no more than 75% of the ex-factory price of the goods as packed for shipment to Canada.

CERTIFICATION REQUIREMENTS – COMMERCIAL GOODS

General

54. Section 4 of the *Proof of Origin of Imported Goods Regulations*, found in Memorandum D11-4-2, *Proof of Origin*, outlines the requirements for the GPT and LDCT proof of origin. The exporter of the goods located in the beneficiary or least developed country in which the goods were finished must complete the proof of origin.

55. The proof of origin is not required to be an original. In all cases, proof of origin must cross-reference the applicable invoice number(s). The invoice must list the goods for which the preferential treatment is claimed separately from the non-preference receiving goods. However, separate invoices are not required.

Proof of Origin – GPT

56. For all originating goods from GPT beneficiary countries, Form A – *Certificate of Origin* or the Exporter's Statement of Origin may be submitted as proof of origin. In most cases, exporters should find the Exporter's Statement of Origin easier to complete and provide than the alternate Form A. See paragraphs 59 to 64 below for further information about these documents.

Proof of Origin – LDCT

57. Except for originating goods of HS Chapters 50-63, either Form A – *Certificate of Origin* or the Exporter's Statement of Origin may be submitted as proof of origin. In most cases, exporters should find the Exporter's Statement of Origin easier to complete and provide than

the alternate Form A. See paragraphs 59 to 64 below for further information about these documents.

58. For originating textile and apparel goods of HS Chapters 50-63 the *Certificate of Origin – Textile and Apparel Goods Originating in a Least Developed Country* (Form B255) must be submitted as proof of origin. See paragraphs 65 to 67 below for further information about this certificate.

Form A – Certificate of Origin

59. A copy of the Generalized System of Preferences, Form A – *Certificate of Origin*, and the completion instructions are found in Appendix A.

60. Canada no longer requires Form A to be stamped and signed by an authority designated by the beneficiary country. Therefore, Form A no longer needs to be an original and Field No. 11 may be left blank.

61. A consignee in Canada must be identified in Field No. 2 to ensure that the exporter in the beneficiary or least developed country certified the origin of the goods according to Canadian rules of origin. The consignee is the person or company, whether it is the importer, agent, or other party in Canada, to which goods are shipped under a Through Bill of Lading (TBL) and is so named in the bill. The only exception to this condition may be considered when 100% of the value of the goods originates in the beneficiary or least developed country in question, in which case no consignee is required.

62. For the GPT and LDCT, the origin criterion in Field No. 8 of Form A must be one of the following:

- P** means wholly (100%) produced (as defined in subsection 2(1) of the *Regulations*) in the beneficiary or least developed country;
- F** for GPT, means, at least 60% of the ex-factory price was produced in the GPT beneficiary country;
- F** for LDCT, means, at least 40% of the ex-factory price was produced in the LDCT country. The existing 40% of the ex-factory price of the goods as packed for shipment to Canada may also include a value of up to 20% of the ex-factory price of the goods from countries eligible for GPT;
- G** for GPT, means, at least 60% of the ex-factory price was cumulatively produced in more than one GPT beneficiary country or Canada;
- G** for LDCT, means, at least 40% of the ex-factory price was cumulatively produced in more than one LDCT beneficiary country or Canada. The existing 40% of the ex-factory price of the goods as packed for shipment to Canada may also include a value of up to 20% of the ex-factory

price of the goods from countries eligible for GPT.

Exporter's Statement of Origin

63. A copy of the Exporter's Statement of Origin is set out in Appendix B. It must be completed and signed by the exporter in the beneficiary or least developed country in which the goods were finished. The statement may be written out on a Form CH1, *Canada Customs Invoice*, or a commercial invoice or provided as a separate document. The information required in the statement must be provided in its entirety for goods to qualify for the GPT or LDCT.

64. If the statement is provided as a separate document from the invoice, the statement must reference the applicable invoice number(s). If the statement is for multiple invoices, the invoice numbers must be identified

within the statement. A statement with an attached list of invoice numbers will not be acceptable.

Certificate of Origin – Textile and Apparel Goods Originating in a Least Developed Country (Form B255)

65. A copy of the certificate and the completion instructions are found in Appendix C.

66. The *Certificate of Origin* must be completed by the exporter of the goods in the least developed country in which the goods were finished in the form they imported into Canada.

67. The applicable origin criteria for yarns, threads, fabrics, apparel goods, and other made-up textile articles are set out in the table below:

APPLICABLE ORIGIN CRITERIA FOR TEXTILE AND APPAREL GOODS

GOODS		ORIGIN CRITERIA						
		"A" subsection (2.1)	"B" subsection (2.2)	"C" subsection (2.3)	"D" paragraph (2.4)(a)	"E" paragraph (2.4)(b)	"F" subsection (2.6)	"G" subsection 2(1)
Goods of HS Chapters 50-63 which are not listed in the Schedule to the <i>Regulations</i>		v						v
Goods as set out in the Schedule to the <i>Regulations</i> :								
A1	Yarns/Threads		v					v
A2	Yarns/Threads	v	v					v
B1	Fabrics			v				v
B2	Fabrics	v		v				v
C1	Apparel Goods				v	v		v
C2	Apparel Goods	v			v	v		v
D	Other Made-up Textile Articles						v	v

CERTIFICATION REQUIREMENTS – CASUAL GOODS

68. Section 4 of the *Proof of Origin of Imported Goods Regulations*, found in Memorandum D11-4-2, outlines the requirements for the GPT and LDCT proof of origin for casual goods. Where casual goods are:

- (a) imported in a traveller's baggage or consigned from an individual in the beneficiary or least developed country to an individual in Canada; and
- (b) declared at the time of importation as not intended for resale,

the importer is exempt from providing proof of origin, if there is no evidence to indicate that the goods are not the product of the beneficiary or least developed country.

OBLIGATIONS REGARDING IMPORTATIONS

69. According to section 4 of the *Proof of Origin of Imported Goods Regulations*, to claim the GPT or LDCT benefits, importers must make a declaration that they have in their possession the required proof of origin, a Form A – *Certificate of Origin*, an Exporter's Statement of Origin or the *Certificate of Origin – Textile and Apparel Goods Originating in an Least Developed Country*.

70. The importer makes this declaration on Form B3, *Canada Customs Coding Form*, by inserting Code 9 for GPT or Code 8 for LDCT in Field No. 14, "Tariff Treatment." Also, the importer declaration field on Form B3 must be completed with the signature of the importer. For further instructions concerning Form B3, please refer to Memorandum D17-1-10, *Coding of Customs Accounting Documents*.

71. The proof of origin must be presented to the CBSA upon request. Failure to do so will result in the application of either the Most-Favoured-Nation (MFN) tariff treatment or other appropriate tariff treatment and the application of Administrative Monetary Penalty C152, "Importer or owner of goods failed to furnish proof of origin upon request."

72. When requested by the CBSA to present the proof of origin, the importer may be required to provide a complete and accurate translation in English or French.

73. Importers may be requested to submit further documentation to substantiate the origin of the goods, such as bills of materials and purchase orders.

FALSE DECLARATIONS

74. The making or assenting to the making of a false declaration in a statement made verbally or in writing to the CBSA is an offence under section 153 of the *Customs Act* and may be subject to sanctions under section 160 of that Act.

SHIPPING REQUIREMENTS

75. The goods must be shipped directly on a TBL to a consignee in Canada from the beneficiary or least developed country in which the goods were certified. Evidence in the form of a TBL (or a copy) showing that the goods have been shipped directly to a consignee in Canada must be presented to the CBSA upon request.

76. The TBL is a contract to convey goods from one point to another. It is to ensure the direct shipment of goods from the country of origin to a consignee in Canada. The TBL is one single document that is issued prior to the goods beginning their journey when the carrier assumes care, custody, and control of the goods. It usually contains the following information:

- (a) the identity of the exporter in the country of origin;
- (b) the identity of the consignee in Canada;
- (c) the identity of the carrier or agent who assumes liability for the performance of the contract;
- (d) the contracted routing of the goods identifying all points of transshipment;
- (e) a full description of the goods and the marks and numbers of the package; and
- (f) the place and date of issue.

Note: A TBL that does not include all points of transshipment may be accepted, if these are set out in related shipping documents presented with the TBL.

77. In the case of consolidated freight, where the TBL is a lengthy document covering unrelated goods, the importer may present the cargo receipt from the carrier (or a copy) in lieu of the TBL. The CBSA may request that the TBL be presented as final verification that the goods have been shipped directly to Canada.

78. On a case-by-case basis, an amended TBL may be accepted as proof of direct shipment where documentation errors have occurred and the amended TBL corrects an error in the original document. In such cases, the carrier must provide proof that the amended TBL reflects the actual movement of the goods as contracted when the goods began their journey. Documentation presented must clearly indicate the actual movement of the goods.

79. Air cargo is usually transhipped in the air carrier's home country even if no transshipment is shown on the house air waybill. Therefore, where goods are transported via air freight, the house air waybill is acceptable as a TBL.

Consignee

80. To fulfil the direct shipment requirement, goods must be shipped to a consignee in Canada. The consignee is the person or company, whether the importer, agent, or other party in Canada, to which goods are shipped under a TBL and is so named in the bill. In circumstances where goods are consigned "to order," the TBL is acceptable as evidence of direct shipment as long as the party within Canada to whom the goods are shipped is identified on the TBL, usually in the "Notify Party" field.

Transshipment

81. Transshipment through an intermediate country is permitted provided the conditions prescribed by section 18 of the *Customs Tariff* are met, as follows:

- (a) the goods remain under customs transit control in the intermediate country;
- (b) the goods do not undergo any operation in the intermediate country other than unloading, reloading or splitting up of loads, or any other operation required to keep the goods in good condition;
- (c) the goods do not enter into trade or consumption in the intermediate country; and
- (d) the goods do not remain in temporary storage in the intermediate country for a period exceeding six months.

82. Transshipment is the act of taking cargo out of one conveyance and loading it into another conveyance. It also includes the act of taking cargo out of one conveyance and reloading it into the same conveyance. The landing of an airplane for refuelling or docking of a ship to take on additional cargo does not constitute transshipment if the goods in question are not unloaded from the conveyance.

83. Some exceptions exist where goods may be entitled to alternative shipping requirements. For more information, please refer to Memorandum D11-4-9, *Mexico Goods Deemed to Be Directly Shipped to Canada for the Purposes of the General Preferential Tariff (GPT)*, or Memorandum D11-4-10, *China Direct Shipment Condition Exemption Order*.

MARKING

84. Where goods are required to be marked, they are to be marked with the country of origin in accordance with the *Determination of Country of Origin for the Purpose of Marking Goods (Non-NAFTA Countries) Regulations*. Further information concerning the marking of goods is set out in D11-3-1 *Marking of Imported Goods*.

REFUNDS

85. Where the GPT or the LDCT treatment is not claimed at time of importation as a result of an error, involuntary omission, proof of origin not available at time of importation, or any other circumstances, an application for a refund may be submitted under paragraph 74(1)(e) of the *Customs Act*. An application for a refund of duties must be filed on Form B2, *Canada Customs – Adjustment Request*, within four years from the date of accounting at a customs office in the region where the goods were accounted for under the *Customs Act*. Refer to Memorandum D6-2-3, *Refund of Duties*, for more information.

APPENDIX A

FORM A – CERTIFICATE OF ORIGIN

1. Goods consigned from (Exporter's business name, address, country)			Reference No. GENERALIZED SYSTEM OF PREFERENCES CERTIFICATE OF ORIGIN (Combined declaration and certificate) FORM A Issued in..... (country) See the instructions that follow.		
2. Goods consigned to (Consignee's name, address, country)					
3. Means of transport and route (as far as known)			4. For official use		
5. Item number	6. Marks and numbers of packages	7. Number and kind of packages: description of goods	8. Origin criterion (See the instructions that follow.)	9. Gross weight or other quantity	10. Number and date of invoices
11. Certification It is hereby certified, on the basis of control carried out, that the declaration by the exporter is correct. Place and date, signature and stamp of certifying authority			12. Declaration by the exporter The undersigned hereby declares that the above details and statements are correct: that all the goods were produced in (country) and that they comply with the origin requirements specified for those goods in the Generalized System of Preferences for goods exported to (importing country) Place and date, signature of authorized signatory		

INSTRUCTIONS ON THE COMPLETION OF FORM A – *CERTIFICATE OF ORIGIN*

General Preferential Tariff (GPT)

If the 60% ex-factory price is not satisfied, or is not supported by adequate documentation, the goods are not eligible for the GPT and a Form A should not be issued for such goods.

Least Developed Country Tariff (LDCT)

If the 40% ex-factory price is not satisfied, or is not supported by adequate documentation, the goods are not eligible for the LDCT and a Form A should not be issued for such goods.

In order for a Form A to be accepted by the CBSA, it must be properly completed, as follows:

- Field No. 1** – Complete with the name, address, and country of the actual manufacturer or exporter of the goods. Please do not identify a trading house, freight forwarder, export broker, etc. The manufacturer or exporter must be located in the GPT or LDCT beneficiary country in which the goods are being certified.
- Field No. 2** – Identify the consignee (name and address) in Canada.
- Field No. 3** – The CBSA does not consider this a mandatory field, but you may indicate the shipping details, as far as known when Form A is completed.
- Field No. 4** – This field is usually left blank. However, if Form A is issued after the goods have already been shipped, stamp or write "Issued Retrospectively."
- Field No. 5** – This field is not mandatory for goods exported to Canada. It is usually used to itemize goods if Form A covers two or more categories of goods (for example, items 1, 2, 3 or items a, b, c).
- Field No. 6** – If the goods are crated or otherwise packaged, indicate the quantity of packages or crates. Also indicate any markings on the crates that will be useful in cross-referencing Form A to the Through Bill of Lading so that the CBSA officers can establish that the form covers the goods that are physically imported.
- Field No. 7** – Describe the goods fully. Indicate makes, models, styles, serial numbers, or any other relevant description. It is in the exporter's interest to give as full a description as possible. The CBSA will not accept a Form A that cannot be matched with the imported goods due to a vague description. It is also helpful to show the Harmonized System subheading of the goods in this field.
- Field No. 8** – The origin criterion shown must be one of the following:
- P** means 100% of the goods produced in the GPT or LDCT beneficiary country in question;
 - F** for GPT, means, at least 60% of the ex-factory price is produced in the GPT beneficiary country;
 - F** for LDCT, means, at least 40% of the ex-factory price is produced in the LDCT beneficiary country. The existing 40% of the ex-factory price of the goods as packed for shipment to Canada may also include a value of up to 20% of the ex-factory price of the goods from countries eligible for GPT;
 - G** for GPT, means at least 60% of the ex-factory price was cumulatively produced in more than one GPT beneficiary country or Canada;
 - G** for LDCT, means at least 40% of the ex-factory price was cumulatively produced in more than one LDCT beneficiary country or Canada. The existing 40% of the ex-factory price of the goods as packed for shipment to Canada may also include a value of up to 20% of the ex-factory price of the goods from countries eligible for GPT.
- If any criterion other than P, G, or F is shown for goods exported to Canada, it will be assumed that the goods do not satisfy the Canadian GPT or LDCT rules of origin and they will not receive any tariff preference.
- Field No. 9** – Give the weight or other quantity of the goods. The best unit of measure to use when completing this field is the unit of measure given for the particular goods in the *Customs Tariff* (e.g. number, pairs, dozens, kilograms, litres).
- Field No. 10** – Cross-reference Form A to the commercial invoice. This helps the CBSA match the form with the invoice, but it also ensures that the signing officer has verified the ex-factory price of the proper goods.
- Field No. 11** – This field may be left blank. As of March 1, 1996, Canada no longer requires Form A to be certified by a designated authority in the GPT or LDCT beneficiary country.

Field No. 12 – This is the exporter's declaration that Form A is accurate and that the goods do meet the GPT or LDCT rules of origin. Proof of origin must be completed by the exporter of the goods in the GPT or LDCT beneficiary country in which the goods were finished. The individual completing the Form A on behalf of the company must be knowledgeable regarding the origin of the goods and have access to cost of production information, should a verification be requested.

APPENDIX B

EXPORTER'S STATEMENT OF ORIGIN

I certify that the goods described in this invoice or in the attached invoice No. _____ were produced in the beneficiary country of _____ and that at least _____ % of the ex-factory price of the goods originates in the beneficiary country/countries of _____.

Name and title

Corporation name and address

Telephone and fax numbers

Signature and date (day/month/year)

Textile and Apparel Goods Originating in a Least Developed Country (LDC)
Certificate of Origin Instructions

For purposes of obtaining the LDC preferential tariff treatment, this document must be completed legibly and in full by the exporter and be in the possession of the importer at the time the declaration is made.

Field 1: State the name, address, and country of the manufacturer or exporter of the goods. The manufacturer or exporter must be located in the Least Developed Country (LDC) in which the goods are being certified. **Do not identify a trading house, freight forwarder, export broker, etc.**

Field 2: State the name and address of the importer in Canada.

Field 3: Indicate the shipping details, as far as known when the *Certificate of Origin* is completed.

Field 4: If the goods are crated or otherwise packaged, indicate the quantity of packages or crates. Also indicate any markings on the crates that can cross-reference the *Certificate of Origin* to the Through Bill of Lading.

Field 5: Provide a full description of each good. Indicate model numbers, styles, serial numbers, or any other relevant description. It is in the exporter's interest to give as full a description as possible. If known, provide the Harmonized System heading or subheading number for each good.

Field 6: For each good described in Field 5, state which criterion (A through G) is applicable. To be entitled to the Least Developed Country Tariff (LDCT), goods listed in the Schedule to the *General Preferential Tariff and Least Developed Country Tariff Rules of Origin Regulations* ('Regulations') must meet at least one of the criteria below.

Preference Criteria

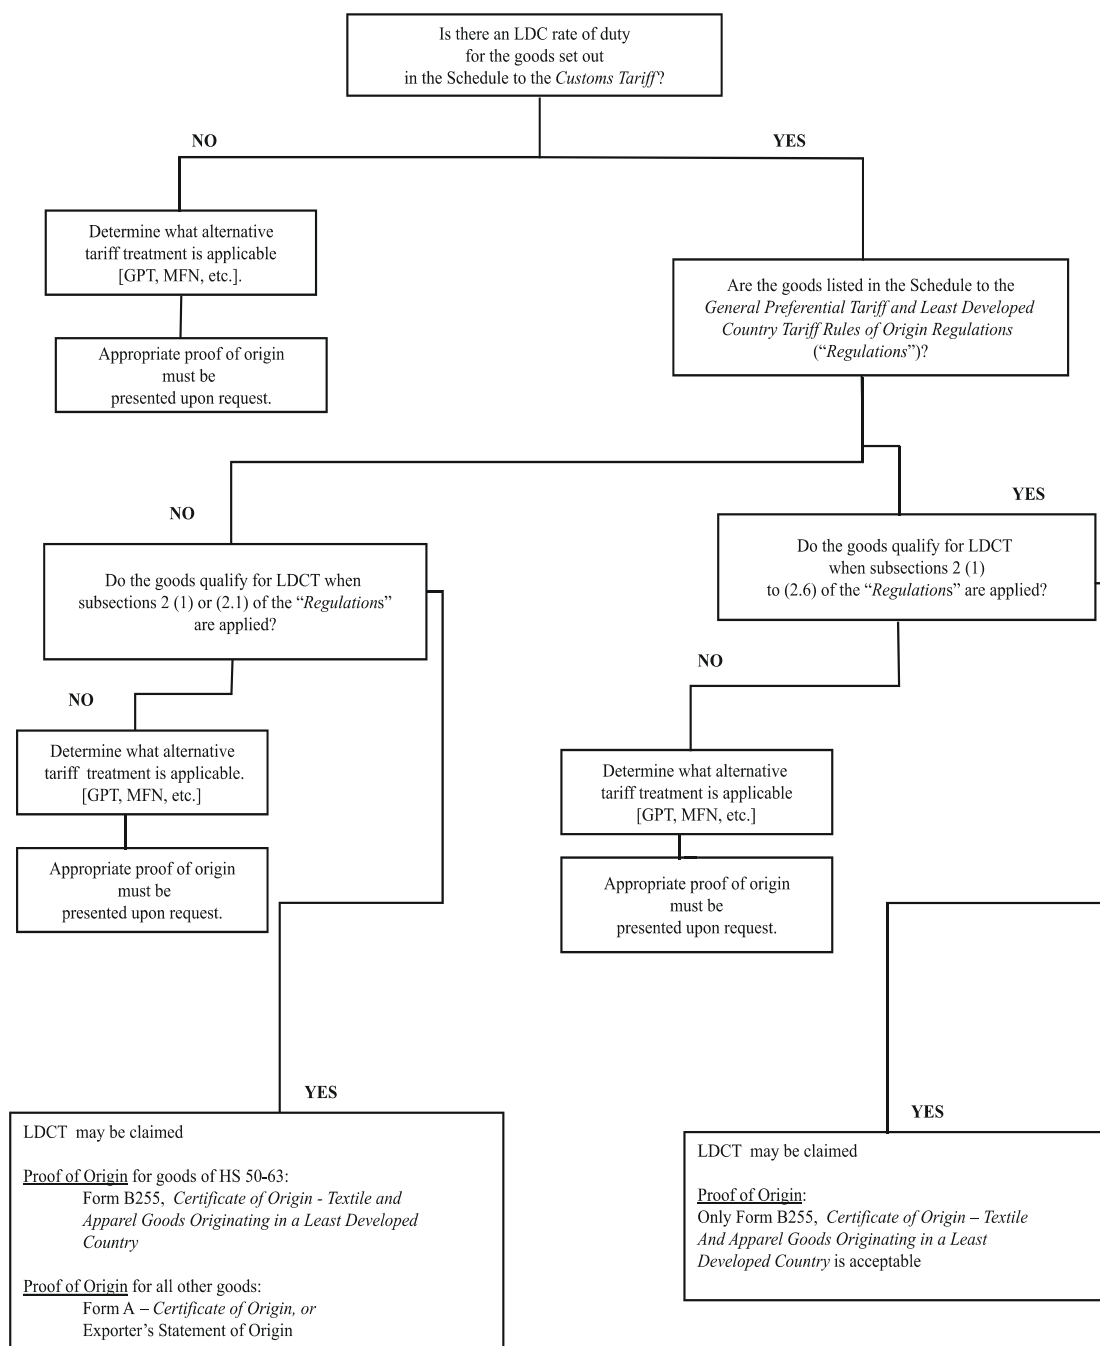

- A** The good is produced in a LDC and the value of the materials, parts or products originating outside that LDC, or in an undetermined location, and used in the manufacture or production of the good does not exceed 60% of the ex-factory price of the good as packed for shipment to Canada. For the purpose of this criterion, up to 20% of the ex-factory price may originate from General Preferential Tariff (GPT) eligible countries. **This criterion does not apply to goods listed in Part A1, Part B1, Part C1 or Part D of the Schedule to the Regulations.**
- B** The good is listed in Part A1 or Part A2 of the Schedule to the Regulations and has been spun or extruded in a LDC and has not undergone further processing outside a LDC.
- C** The good is listed in Part B1 or Part B2 of the Schedule to the Regulations and is produced in a LDC from yarns originating in a LDC, a GPT beneficiary or Canada and the yarns have not undergone further processing outside a LDC, a GPT beneficiary or Canada and the fabric has not undergone further processing outside a LDC.
- D** The good is listed in Part C1 or Part C2 of the Schedule to the Regulations and has been assembled in a LDC from fabric cut in that LDC or Canada, or from parts knit to shape, and the fabric (or parts knit to shape) has been produced in any LDC or Canada from yarns originating in a LDC, a GPT beneficiary or Canada and the yarns or fabric have not undergone further processing outside a LDC or Canada. **Note: This criterion applies if the fabric (or parts knit to shape) is produced in any LDC or Canada.**
- E** The good is listed in Part C1 or Part C2 of the Schedule to the Regulations and has been assembled in a LDC from fabric cut in that LDC or Canada, or from parts knit to shape, and the fabric (or parts knit to shape) has been produced in a GPT beneficiary from yarns originating in a LDC, a GPT beneficiary or Canada and neither the yarns or the fabric have undergone further processing outside a LDC, a GPT beneficiary or Canada and the value of any materials, including packing, that are used in the manufacture of the good and that originate outside the least developed country in which the good is assembled is no more than 75% of the ex-factory price of the good as packed for shipment to Canada. **Note: This criterion applies if the fabric (or parts knit to shape) is produced in a GPT beneficiary.**
- F** The good is listed in Part D of the Schedule to the Regulations and was cut (or knit to shape) and sewn or otherwise assembled in a LDC from fabric produced in any LDC or Canada from yarns originating in a LDC, a GPT beneficiary or Canada and the yarns and fabric have not undergone further processing outside a LDC or Canada.
- G** The good is 'wholly obtained or produced entirely' in the territory of one or more LDC.

Field 7: State the date(s) and invoice number(s) for the goods described in Field 5.

Field 8: This field is to be completed by the exporter of the goods in the LDC in which the goods were finished in the form they were imported into Canada. The individual completing the *Certificate of Origin* on behalf of the company must be knowledgeable regarding the origin of the goods and have access to production information, should a verification be requested. This field is the exporter's declaration that the *Certificate of Origin* is accurate and that the goods meet the LDCT rules of origin for textile and apparel goods.

Memorandum D11-3-1
Marking of imported goods
28 January 2011

Canada Border
Services Agency

Agence des services
frontaliers du Canada

Ottawa, January 28, 2011

MEMORANDUM D11-3-1

In Brief

MARKING OF IMPORTED GOODS

1. This memorandum has been updated to reflect changes to the *Regulations for Determining the Country of Origin Goods Imported From a NAFTA Country for the Purpose of Specifying That Certain Goods be Marked* and the *Regulations for Determining the Country of Origin Goods Imported From a non-NAFTA Country for the Purpose of Specifying that Certain Goods be Marked*.
2. The section titled Penalties has been added to reflect the authority to issue administrative monetary penalties for failure to comply with marking requirements.
3. Terminology has been updated to reflect changes in the Canada Border Service's Agency's (CBSA) organizational structure.
4. Paragraphs 38 and 39 were simplified to clarify proper procedures.
5. In Paragraph 47, there is new information on Administrative Monetary Penalties (AMPs) for failure to mark goods.
6. In Paragraph 49, there is additional contact information.
7. Group 3's item 2, within Appendices A (Schedule I) and B (Guide to Schedule I), only applies to goods coming from non-NAFTA countries.
8. Item 6 (from non-NAFTA list) within Appendices C (Schedule II) and D (Guide to Schedule II) no longer shows the description of the tariff classifications mentioned within this section.
9. Item 7 (from the NAFTA list) of Appendices C (Schedule II) and D (Guide to Schedule II) no longer shows the description of the tariff classifications mentioned within this section.
10. Appendix F – Regional Contacts – is updated.

Legislation

The following are excerpts from legislation relevant to the marking program.

Customs Act

Marking of Goods

35.01 No person shall import goods that are required to be marked by any regulations made under section 19 of the *Customs Tariff* unless the goods are marked in accordance with those regulations.

Notice Requiring Marking or Compliance

(2) The Minister or any officer designated by the President for the purposes of this section may, by notice served personally or by registered mail, require any person

(a) to mark the imported goods in accordance with the regulations made under section 19 of the *Customs Tariff*, within such reasonable time as may be stipulated in the notice, if there has been a failure to comply with section 35.01 with respect of the goods; or

(b) to comply with section 35.01 in respect of any goods designated in the notice that will subsequently be imported by the person.

Goods Imported From a NAFTA Country

(4) If a person imports goods of a prescribed class from a NAFTA country, that person is not liable to a penalty under section 109.1 unless

(a) the person has previously failed to comply with section 35.01 in respect of imported goods and has been given a notice pursuant to subsection (2);

(b) the goods with respect to which there has been a failure to comply with section 35.01 or a notice given pursuant to subsection (2) have been released without being marked in the manner referred to in section 35.01; or

(c) the imported goods have been marked in a deceptive manner so as to mislead another person as to the country or geographic area of origin of the goods.

Penalties and Interest

Designated provisions

109.1 (1) who fails to comply with any provision of no person shall act or a regulation designated by the regulations made under subsection (3) is liable to a penalty of not more than twenty-five thousand dollars, as the Minister may direct.

Failure to comply

(2) Every person who fail to comply with any term or condition of a licence issued under this Act or the *Customs Tariff* or any obligation undertaken under section 4.1 is liable to a penalty of not more than twenty-five thousand dollars, as the Minister may direct.

Designation by regulation

(3) The Governor in Council may make regulations

(a) designating any provisions of this Act, the *Customs Tariff* or the *Special Import Measures Act* or of any regulation made under any of those Acts; and

Canada

- (b) establishing short-form descriptions of the provisions designated under paragraph (a) and providing for the use of those descriptions.

Offences

159.1 No person shall

- (a) fail to mark imported goods in the manner referred to in section 35.01;
- (b) mark imported goods in a deceptive manner so as to mislead another person as to the country or geographic origin of the goods; or
- (c) with intent to conceal the information given by or contained in the mark, alter, deface, remove or destroy a mark on imported goods made as required by the regulations made under subsection 19(2) of the *Customs Tariff*.

Customs Tariff

Marking of Goods

Regulations requiring marking

19. (1) The Governor in Council may, on the recommendation of the Minister, make regulations

- (a) requiring imported goods of any description or class, including a description or class specified in terms of the use of the goods, to be marked, in accordance with the regulations made under subsection (2), so as to indicate their country or geographic area of origin; and
- (b) for determining the country or geographic area of origin of imported goods for marking purposes.

Regulations prescribing marking requirements

(2) The Minister of Public Safety and Emergency Preparedness may make regulations for the purpose of the administration of this section, including regulations prescribing

- (a) the manner in which imported goods must be marked and any conditions applicable to the marking of the goods; and
- (b) when imported goods must be marked, including whether they must be marked before or after importation, and any conditions applicable to the time of marking.

Applicable regulations

(3) Regulations made under this section may apply generally or be limited to particular countries or geographic areas defined in the regulations.

Regulations

Regulations for Determining the Country of Origin of Goods Imported From a NAFTA Country for the Purpose of Specifying That Certain Goods be Marked

Short Title

1. These Regulations may be cited as the *Determination of Country of Origin for the Purposes of Marking Goods (NAFTA Countries) Regulations*.

Marking

3. (1) Goods set out in Schedule I that are imported from a NAFTA country shall be marked so as to indicate their country or countries of origin as determined under these Regulations.

(2) Subsection (1) does not apply to goods set out in Schedule II.

3. The outermost usual container of goods referred to in any of items 10 to 14 and 18 of Schedule II shall be marked with the country or countries of origin of the goods contained in the outermost usual container.

Regulations for Determining the Country of Origin of Goods Imported From a Non-NAFTA Country for the Purpose of Specifying That Goods be Marked

Short Title

1. These Regulations may be cited as the *Determination of Country of Origin for the Purpose of Marking Goods (Non-NAFTA Countries) Regulations*.

Application

2. (1) Subject to subsection (2) goods set out in Schedule I that are imported into Canada from a country other than a NAFTA country shall be marked so as to indicate their country of origin, in accordance with the *Marking of Imported Goods Regulations*.

(2) These Regulations do not apply to goods set out in Schedule II.

Country of Origin

3. The country of origin of goods is the country in which the goods were substantially manufactured.

Regulations Respecting the Marking of Imported Goods

Interpretation

2. In these Regulations,

“Act” means the *Customs Act*; (*Loi*)

“country of origin” means

(a) in the case of goods imported from a NAFTA country, the country of origin of the goods determined in accordance with the *Determination of Country of Origin for the Purposes of Marking Goods (NAFTA Countries) Regulations*, and

(b) in the case of goods imported from any other country, the country of origin of the goods determined in accordance with the *Determination of Country of Origin for the Purpose of Marking Goods (Non-NAFTA Countries) Regulations*; (*pays d'origine*)

“goods” means any goods in respect of which any regulations made pursuant to paragraph 19(1)(a) of the *Customs Tariff* apply; (*marchandises*)

“identical goods” means goods that are the same in all respects, including physical characteristics, origin, quality and reputation, except for minor differences in appearance; (*marchandises identiques*)

“NAFTA goods” means any goods in respect of which the *Determination of Country of Origin for the Purposes of Marking Goods (NAFTA Countries) Regulations* apply; (*marchandises d'un pays ALÉNA*)

“Non-NAFTA goods” means any goods in respect of which the *Determination of Country of Origin for the Purpose of Marking Goods (Non-NAFTA Countries) Regulations* apply; (*marchandises d'un pays autre qu'un pays ALÉNA*)

“similar goods” means goods that closely resemble each other in respect of their component materials and characteristics, are capable of performing the same functions, are commercially interchangeable, and were produced in the same country; (*marchandises semblables*)

“sufficiently permanent” means, in respect of a marking, capable of remaining in place until the goods reach the ultimate purchaser or, in the case of non-NAFTA goods where there is no ultimate purchaser, the ultimate recipient, unless deliberately removed; (*suffisamment permanente*)

“ultimate purchaser” means the last person in Canada who purchases the goods in the form in which they are imported, whether or not that purchaser is the last person to use the goods in Canada; (*dernier acheteur*)

“ultimate recipient” means the last person in Canada who receives the goods in the form in which they are imported; (*dernier destinataire*)

“usual container” means the container in which goods will ordinarily reach their ultimate purchaser. (*contenant usuel*)

General

3. (1) The marking of NAFTA goods shall indicate, to the ultimate purchaser, the country of origin of the NAFTA goods.

(2) The marking of non-NAFTA goods shall indicate, to the ultimate purchaser, or where there is no ultimate purchaser, to the ultimate recipient, the country of origin of the non-NAFTA goods.

General Manner of Marking

4. (1) NAFTA goods shall be marked in English, French or Spanish.

(2) Non-NAFTA goods shall be marked in English or French.

5. The marking of goods shall be legible, sufficiently permanent and capable of being seen easily during normal handling of the goods or their container.

6. Where the words “Canada” or “Canadian” or any abbreviation thereof, or the name of any country or place other than the country of origin of the goods appears on any goods elsewhere than in the country of origin marking, and the presence of the words can be expected to mislead the ultimate purchaser or the ultimate recipient, as the case may be, the country of origin marking shall be located in close proximity to those words and shall contain the expression “made in,” “produced in” or “printed in” or any other expression, in any of the languages used in accordance with subsection 4(1) or (2), that indicates to the ultimate purchaser or to the ultimate recipient, as the case may be, the country of origin of the goods.

7. An abbreviation of a country name may be used in a country of origin marking if the abbreviation clearly indicates to the ultimate purchaser or to the ultimate recipient, as the case may be, the country of origin of the goods.

Specific Manner of Marking

8. For the purposes of section 5 and subject to section 9, goods that are iron or steel pipes or tubes shall be marked

(a) by paint stencilling, die stamping, cast-in-mould lettering, etching or engraving; or

(b) in the case of pipes or tubes that have an inside diameter of 4.8 cm or less (1.9 inches or less) and are imported in bundles, by tagging or labelling each bundle.

9. Goods that are iron or steel pipes or tubes and have a critical surface finish may be marked by tagging or labelling each pipe or tube.

10. For the purposes of section 5, the country of origin marking for goods that are printed or lithographed paper products shall be

- (a) of a size not smaller than 1.6 mm (0.06 inch); and
- (b) in a colour that is as bold as any other characters or images that are printed or lithographed on the paper product.

11. A container that is required to be marked in accordance with the *Determination of Country of Origin for the Purposes of Marking Goods (NAFTA Countries) Regulations*, in which is imported an empty usual container, whether or not the usual container is disposable, shall be marked with the country of origin of the usual container.

12. A usual container that is required to be marked in accordance with the *Determination of Country of Origin for the Purposes of Marking Goods (NAFTA Countries) Regulations*, imported filled, whether or not the usual container is disposable, shall be marked with the country of origin of its contents unless the contents are marked with their country of origin and the usual container can be readily opened for inspection of the contents, or the marking of the contents is clearly visible through the usual container.

Time of Marking

13. Subject to section 14, goods shall be marked before their importation.

Exceptions

14. Goods may be marked in Canada after their importation but before their release, if

- (a) the goods are not imported as mail;
- (b) a notice referred to in subsection 35.02(2) of the Act in respect of similar goods or identical goods to be imported
 - (i) has not been served on the importer of the goods, or
 - (ii) has been served on the importer of the goods less than thirty days or more than two years before the importation of the goods;
- (c) the importer of the goods
 - (i) before the importation of the goods, gives written notice to an officer that the goods will be marked in Canada by the importer, or
 - (ii) at the time of the importation of the goods, gives notice to an officer that the goods will be marked in Canada by the importer, where the importer demonstrates that it was not possible to give the notice referred to in subparagraph (i) before the importation of the goods; and
- (d) the importer of the goods complies with any instructions given pursuant to section 15.

15. After receipt of a notice referred to in paragraph 14(c), an officer shall give the importer of the goods written instructions indicating

- (a) the Canada Border Services Agency (CBSA) office, bonded warehouse or sufferance warehouse in Canada where the marking is to be done;
- (b) the time within which the marking must be completed; and
- (c) the CBSA office, bonded warehouse or sufferance warehouse in Canada where the goods are to be made available on the completion of the marking for examination by an officer.

16. (1) An importer of goods who has given a notice under subparagraph 14(c)(i) shall present to an officer a copy of the instructions referred to in section 15 at the time the goods

- (a) are reported under section 12 of the Act; and
- (b) are accounted for under subsection 32(1) or (2) of the Act.

(2) An importer of goods who has given a notice under subparagraph 14(c)(ii) shall present to an officer a copy of the instructions referred to in section 15 at the time the goods are accounted for under subsection 32(1) or (2) of the Act.

17. An importer of goods that are required to be marked, who delivers the goods to a bonded warehouse before they are marked, shall mark the goods in accordance with any instructions given under section 15 before a transfer document may be submitted in accordance with section 18 of the *Customs Bonded Warehouses Regulations*.

GUIDELINES AND GENERAL INFORMATION

Introduction

1. The authority for application of Canada's marking program is contained in section 19 of the *Customs Tariff*. This section enables regulations to be made which identify:

- (a) what goods require country of origin marking;
- (b) the appropriate country to be marked on goods;
- (c) the proper method and manner of marking;
- (d) the time when goods must be marked.

2. The requirement for country of origin marking should not be confused with labelling requirements of other government departments such as Agriculture and Agri-Food Canada and Industry Canada. For example, Industry Canada's regulations require that certain product related information such as fabric content of apparel be shown on a product label.

3. Certain goods when imported into Canada are required to be marked to indicate clearly the country in which the goods were made. The goods that require marking are listed in Appendix A to this memorandum. The foreign exporter or producer usually applies the country of origin marking. However, Canadian importers are responsible for ensuring that imported goods comply with marking requirements at the time they import the goods.

4. For goods imported from a NAFTA country, the purpose of the marking requirement is to inform the ultimate purchaser of the country of origin of the goods. The ultimate purchaser is the last person in Canada who purchases the goods in the form in which they are imported, whether or not that purchaser is the last person to use the goods in Canada. In order to have an ultimate purchaser, a purchase or transaction must take place.

5. When goods are imported from a non-NAFTA country, the marking should indicate to the ultimate purchaser, or where there is no ultimate purchaser to the ultimate recipient, the country of origin of the goods. The ultimate recipient is the last person in Canada who receives the goods in the form in which they are imported.

6. Depending on whether the goods are imported from a NAFTA or a non-NAFTA country, there are differences in CBSA's administration of the marking program. These differences are explained in the sections that follow.

Definitions

7. The "Interpretation" section of the *Marking of Imported Goods Regulations* contains definitions that are important to understanding the administration of the marking program. In addition, definitions for the following terms are also important:

"Container" – A general term for the packaging used to transport goods, such as, but not limited to, boxes, wooden crates, and plastic receptacles.

"Critical surface finish" – The marking of certain types of pipes and tubes (e.g., ornamental products, specialized products used in the aerospace industry) may constitute an unreasonable burden for technical or commercial reasons, resulting in damage to the product. In such cases, the product may be considered to have a critical surface finish.

"For the exclusive use of the importer or that importer's employees and not for resale to the general public" – Applies to the exclusion of imported goods of which the importer/owner or the importer/owner's employee(s) is (are) the final user. This exclusion includes goods supplied by an importer/owner to the importer/owner's employee(s) whether free or for a charge, e.g., uniforms. This exclusion does not apply to goods for external distribution by the importer/owner, e.g., sales samples or giveaways, when they are imported from non-NAFTA countries.

"Ornamental pipe and tube" – These articles are generally defined as being tubular products with critical surface finishes, and are generally used for architectural purposes (e.g., railings or cross bars for fencing, excluding fence posts) and furniture manufacturing. When produced from carbon steel grades, the product generally has a polished surface. Ornamental tubing may be round, square, rectangular, or may be rolled to a variety of specialized sectional shapes depending on the final use. When determining whether tubing is ornamental in nature, consideration should be given to the degree the exporter has undertaken to protect the surface finish (e.g., individual wrapping, protective packaging such as wooden crates or metal containers).

"Outermost usual container" – A shipping container used to transport goods. In some cases, goods may reach the ultimate purchaser in the outermost usual shipping container.

"The form in which it was imported" – Means the condition of the good before it has undergone one of the changes in tariff classification, or other applicable requirements as described in the marking rules.

"Used goods" – Does not include seconds, factory rejects, or blemished goods.

"Usual container" – Means the container in which goods will ordinarily reach the ultimate purchaser (point of sale packaging).

Goods That Require Marking

8. Schedule I of the *Determination of Country of Origin for the Purpose of Marking Goods (NAFTA Countries) Regulations* and of the *Determination of Country of Origin for the Purpose of Marking Goods (Non-NAFTA Countries) Regulations* identifies those goods that require marking. Schedule I is contained in Appendix A to this memorandum. The list of goods that require marking is divided into the following six main product categories:

- (a) Goods for Personal or Household Use;
- (b) Hardware;
- (c) Novelties and Sporting Goods;
- (d) Paper Products;
- (e) Apparel; and
- (f) Horticultural Products.

9. To clarify the types of goods included in each product category, a guide to Schedule I has been prepared. This guide is contained in Appendix B. The purpose of this guide is to show examples of some of the goods that require marking, and to provide definitions of various terms where possible. This guide is not designed to cover all goods that require marking.

10. Further information or clarification regarding which goods require marking may be obtained by contacting a marking expert located at one of the CBSA offices listed in Appendix F.

11. In addition to the guide referred to in Appendix B, the following general principles should be applied when interpreting the wording contained in Schedule I:

(a) If an imported article does not fall under a specific class of goods, it may fall under a more general class. For example, although cotton gloves that require marking are not specifically annotated in paragraph 5(4) “Gloves made partially or wholly of leather” of the Schedule, they would fall under the more general paragraph 5(10) “Apparel made substantially or wholly of natural or synthetic textile fibres”.

(b) When determining whether an article described in the “Goods for Personal or Household Use” category requires marking, it is important to consider the meaning of the wording used in the heading. For example, if “Blankets” that are listed in paragraph 1(5) of the Schedule are imported by hospitals or university dormitories, they would not require marking. Blankets imported under such circumstances would not be considered as goods for personal or household use.

(c) It should not be automatically assumed that the modern counterparts to classes of goods listed in the Schedule require marking if they are not specifically listed. For example, compact disc players do not require marking as they are not specifically listed in the Schedule despite the fact that they have replaced the use of phonographs (paragraph 1(15) under “Goods for Personal or Household Use”).

(d) If a class of goods in the Schedule is preceded by the phrase “the following,” the list that follows is all-inclusive and the requirement for marking applies only to the goods listed.

(e) If a class of goods in the Schedule is preceded by the phrase “including,” this means including but not limited to the list that follows.

Exemptions

12. Certain types of goods, or goods imported under specific conditions may be exempt from the requirement for country of origin marking. These exemptions are listed in Schedules II (see Appendix C to this memorandum) of the *Determination of Country of Origin for the Purposes of Marking Goods (NAFTA Countries) Regulations* and the *Determination of Country of Origin for the Purpose of Marking Goods (Non-NAFTA Countries) Regulations*. There are 21 exemptions that apply to goods imported from a NAFTA country, and 7 exemptions that apply to goods imported from a non-NAFTA country.

13. Importers, exporters, and producers are advised to contact a marking expert (ME) in the region where goods will be imported to obtain information regarding the use of exemptions. Depending on the circumstances involved, the party requesting information may be required to substantiate entitlement through the submission of an advance ruling request, or by providing some form of written evidence supporting the use of an exemption. Information on advance rulings is contained in the section entitled “Advance Rulings.” The specific exemption being requested should be identified at the time of release by means of a written explanation to the border services officer or a notation on the invoice. The officers will consult with the regional marking expert in situations where it is not evident that an importer is entitled to use an exemption. In such cases, the marking expert will make a determination regarding the marking of the goods.

14. A guide for Schedule II is contained in Appendix D. The purpose of this guide is to explain the documentation and/or information that may be required by CBSA in order to determine the applicant’s eligibility for use of a specific exemption.

Methods of Determining Country of Origin for Marking

15. There are different methods used to determine the country of origin, depending on whether the goods are imported from a NAFTA country (the United States or Mexico) or from a non-NAFTA country. When determining the country of origin for goods imported from a NAFTA country, a set of marking rules are used. These are technical rules that are applied systematically to determine the country or countries of origin of a good for country of origin marking purposes. The following list identifies some of the criteria used in determining the country of origin for goods imported from NAFTA countries. This list is not all inclusive and is only meant to provide a general guide as to how the country of origin may be determined. Generally, the country of origin is the country in which:

- (a) the goods are wholly obtained or produced;
- (b) the goods are produced exclusively from domestic materials;
- (c) the foreign materials incorporated into the goods undergo a specific tariff classification change; or
- (d) the single material that gives the goods their essential character was produced.

16. For goods imported from a non-NAFTA country, the country of origin of goods is the country in which the goods were substantially manufactured. This means the country where the major part of production or manufacturing took place. It will be necessary to consider the accumulated costs of material, labour, and overhead when determining the proper country of origin for marking purposes.

Method and Manner of Marking

17. The *Marking of Imported Goods Regulations* contain provisions that explain the proper method and manner of marking goods from either NAFTA or non-NAFTA countries.

General Manner of Marking Goods

18. In general, the marking of goods from both NAFTA and non-NAFTA countries must clearly indicate the country of origin of the goods. When goods are imported from NAFTA countries, marking shall be in English, French, or Spanish. For goods imported from non-NAFTA countries, marking shall be in English or French.

19. Generally, importers, exporters, or producers are encouraged to use the full name of the country of origin in the marking reference. However, the use of abbreviations may be necessary where there are space limitations on a product.

20. An abbreviation of a country name may be used as a marking reference, if the abbreviation clearly indicates to the ultimate purchaser or to the ultimate recipient the country of origin of the goods. This provision applies to goods from both NAFTA and non-NAFTA countries. Short country names will not be allowed to be abbreviated as it would be more difficult for the ultimate purchaser or ultimate recipient to reasonably conclude the name of the country.

21. The marking of goods shall be legible, sufficiently permanent, and capable of being easily seen during normal handling of the goods or their container. The provision to allow marking on containers only applies to goods imported from NAFTA countries provided certain conditions are met. For goods imported from non-NAFTA countries, marking should appear on the individual article. In addition, if point of sale packaging conceals the marking on the product, then the packaging should also be marked.

22. Any reasonable method of marking that will remain on the good or its container (where applicable) until the product reaches the ultimate purchaser or recipient is acceptable. In most cases, the methods of marking that will be acceptable will depend on the nature of the goods. Appendix E defines several examples of acceptable methods of marking. It should be noted that other methods of marking may be considered as acceptable.

23. For apparel, CBSA will accept country of origin marking on the same label required by the *Textile Labelling Act* and Regulations of Industry Canada. It should be noted that methods of marking country of origin, other than the use of labels, may also be acceptable for apparel.

Specific Manner of Marking Goods

24. There are specialized requirements that apply to the marking of iron or steel pipes and tubes. The specific methods of marking for each pipe or tube are: paint

stencilling, die stamping, cast-in-mould lettering, etching, or engraving. For pipes or tubes that have an inside diameter of 4.8 cm or less (1.9 inches or less) and are imported in bundles, marking by tagging or labelling each bundle is acceptable.

25. Iron or steel pipes and tubes that have a critical surface finish (e.g., ornamental products) may be marked by tagging or labelling each pipe or tube, or where bundled, by tagging or labelling each bundle. If this provision is applicable, the importer, exporter, or producer should provide a written description of the goods to the marking expert in the region where goods will be imported indicating why they would be considered as having a critical surface finish. The section entitled "Definitions" contains descriptions of the terms "critical surface finish" and "ornamental pipe and tube."

26. The following pipes and tubes are exempt from country of origin marking requirements:

- (a) intended for use as parts and such parts are usually of a specific size and are committed by design to a particular application, and will generally have a part number applied thereon;
- (b) intended for use as a casting or mould in a manufacturing process. The importer/agent may be requested to supply appropriate specifications and supporting documentation;
- (c) when imported for use as original equipment in and by manufacturers of automobiles, buses, or specified commercial vehicles; and
- (d) when the non-ferrous metal content is greater than 50%. Pipe and tube containing less than 50% by weight of iron is not considered to be of iron or steel. The importer/agent may be required to supply appropriate specifications and supporting documentation.

27. Country of origin marking for goods that are printed or lithographed paper products should be of a size not smaller than 1.6 mm or 1/16 of an inch. Examples of acceptable methods of marking:

United States
Printed in the United States
Made in the USA
Made in the United States
Mexico
Printed in Mexico
Made in Mexico
Japan
Made in Japan
Spain
Made in Spain

Note: For printed matter, there is also a requirement for the marking to be in a colour that is as bold as any other

characters or images that are printed or lithographed on the paper product.

28. To avoid confusion as to the country of origin of the goods, if the word “Canada” or “Canadian” appears on the goods either spelled in full or abbreviated, the country of origin may be required to appear in close proximity to that reference and be preceded by: “made in,” “produced in,” “printed in,” or some similar expression. The same provision applies where any other country or place name appears other than that of the country of origin. The presence of these words referring to other geographic locations must be expected to mislead the ultimate purchaser or ultimate recipient in order to trigger the application of this provision.

29. In the case of printed matter, the “close proximity provision” will not apply to geographical references that are contained within the body or text of a publication.

30. When NAFTA goods require marking, the country of origin may appear on the usual container only (point of sale packaging) if this is the manner in which the ultimate purchaser buys the good. Country of origin may also appear on the good, provided the usual container can be readily opened for inspection of the content, or the marking of the content is clearly visible through the usual container. Detailed information regarding the application of exemptions to the marking requirements is contained in Appendix D.

Authorization to Mark Goods in Canada

31. The *Marking of Imported Goods Regulations* provides the authority where, under certain conditions, authorization may be granted to mark goods in Canada after they have been imported but before they are released from CBSA. Whenever possible, importers should request such authorizations before the goods arrive in Canada. Authorization may be granted for goods from both NAFTA and non-NAFTA countries.

32. An importer should request pre-authorization to mark goods in Canada before importation actually takes place. Pre-authorization may be granted for a one time importation only, or a blanket authorization may be granted that allows for marking of goods over a specific period of time (e.g., 6 months) covering several shipments. In addition, an importer may also request authorization to mark goods in Canada at the time of importation. If this latter method is used, approval will only be given for the shipment on hand. A request for blanket authorization for multiple shipments of goods must be submitted prior to importation.

33. The applicant must meet the following conditions in order to be given approval to mark goods in Canada:

- (a) the goods cannot be imported as mail;
- (b) a notice of non-compliance pursuant to subsection 35.02(2) of the *Customs Act* must not have

been issued to the importer on similar or identical goods more than 30 days before the importation of the goods or less than two years before importation of the goods;

(c) if authorization is requested prior to importation, the importer gives written notification to CBSA that the goods will be marked in Canada;

(d) if authorization is not requested prior to importation, the importer gives written notification at the time of importation to CBSA that the goods will be marked in Canada and demonstrates that it was not possible to give prior notice;

(e) transfer of ownership of the goods cannot take place until the goods are marked properly.

34. The written notification referred to in the previous paragraph should take the form of a letter to the Superintendent or chief officer at the CBSA office nearest to the location where the goods will be released. The letter should contain the following information:

- (a) importer name, number, and address;
- (b) complete description of the goods;
- (c) location where goods are to be marked;
- (d) if location is a bonded warehouse, location of warehouse, warehouse licence number, and security number;
- (e) date by which the marking will be completed;
- (f) the location where the goods may be verified for compliance;
- (g) if the request is for a blanket authorization to mark goods;
- (h) name and telephone number of a contact person.
- (i) if authorization to mark in Canada is requested at the time of importation, the importer of the goods must also demonstrate that it was not possible to submit notification prior to importation

35. To ensure acceptance of the request, it is advisable that the importer discuss the arrangements for authorization to mark goods in Canada with CBSA before a written notification is submitted. There are five locations that may be acceptable for marking purposes:

- (a) public bonded warehouse;
- (b) private bonded warehouse;
- (c) importer’s premises;
- (d) CBSA office; and
- (e) sufferance warehouse.

36. Due to space limitations at many CBSA offices it may not be possible to mark goods at these locations. In addition, goods may be marked at a location other than the office of report provided this information is included with the notification.

37. Once the importer's written notification has been presented, CBSA will review the request and notify the applicant of the decision made. Authority to mark will take the form of a letter of authorization issued by the chief officer of CBSA or the superintendent. The letter of authorization will confirm whether the location for marking is acceptable, indicate the time frame for completion of the marking, and specify the location where goods will be examined, if required. In cases where pre-authorization for marking has been approved, the importer should present the letter of authorization to the appropriate CBSA office at the time of first reporting and also when requesting release of the goods. When approval for marking has been granted at the time of importation, the letter of authorization should be presented when requesting release of the goods.

38. The importer may mark goods in a bonded warehouse. Information regarding bonded warehouse requirements is contained in Memorandum D7-4-4, *Customs Bonded Warehouses*.

Issuance of Notices to Mark Goods

39. When goods have not been marked in accordance with the marking requirements, a notice to properly mark the goods will be issued by the regional marking expert for goods imported, from both NAFTA and non-NAFTA countries, indicating:

- (a) in what manner goods currently under customs control must be marked; or
- (b) in what manner subsequent importations of identical or similar goods are to be marked.

40. The following three options are available to the importer when goods arrive in Canada that are not marked according to the requirements of the marking program:

- (a) mark the goods in Canada, provided the conditions outlined in the section entitled "Authorization to Mark Goods in Canada" are met;
- (b) export the goods; or
- (c) abandon the goods to the Crown.

Advance Rulings

41. NAFTA importers, exporters, and producers may request an advance ruling on country of origin marking for goods to be imported from a NAFTA country. Authority for this provision of the marking program is contained in section 43.1 of the *Customs Act*. Such requests must be submitted in writing prior to the importation of the goods.

If the requesting party is a person with an office in Canada, the request should be sent to the marking expert in the CBSA office responsible for their area. If the requesting party does not have an office in Canada, the request should be sent to the marking expert in the area where the majority of importations will likely occur. CBSA will then issue rulings on one or more of the following marking components:

- (a) Is the good required to be marked with its country of origin?
- (b) What country of origin must be marked on the good?
- (c) What is the acceptable method and manner of marking the good?

42. It is mandatory that a request for an advance ruling includes, as a minimum, the component described in paragraph (a). Additional information regarding advance rulings is contained in Memorandum D11-4-16, *Advance Rulings Under Free Trade Agreements*.

Determinations/Re-determinations

43. A marking determination is a decision rendered by a border service officer located at their regional office (please refer to Appendix F for the list of all offices and their contact information) indicating whether or not goods imported from a NAFTA country have been marked in accordance with marking regulations. This authority is contained in section 57.01 of the *Customs Act*. A marking re-determination is a decision made by an officer in a CBSA office to modify a marking determination. Sections 60 and 61 of the *Customs Act* provide CBSA with such authority. The determination or re-determination generally includes all three marking components referred to in paragraph 41 above.

44. A NAFTA importer, exporter, or producer may file an appeal of a marking determination/re-determination with the appropriate CBSA office within 90 days of having received a notice of the marking determination. All requests for review of a marking determination/re-determination should be accompanied by such information as:

- (a) descriptive illustrations, literature, or samples relating to the goods that are subject of the request;
- (b) other supporting documentation such as the certificate of origin, relevant file number, or previous advance rulings.

45. Decisions made by CBSA on appeals of determinations/re-determinations may be further appealed to the Canadian International Trade Tribunal (CITT) and subsequently to the Federal Court of Canada. The authority for appeals of determinations/re-determinations is provided for under sections 67 and 68 of the *Customs Act*.

Penalties

46. Failure to mark goods in accordance with the marking requirements may result in the application of penalties. There are now provisions for CBSA to issue both civil and criminal penalties for goods imported from both NAFTA and non-NAFTA countries. The authority to issue civil penalties is contained in section 109.1 of the *Customs Act* and the authority for criminal persecutions is found in the *Designated Provisions (Customs) Regulations*.

47. For specific penalties on marking violations, please refer to the CBSA Web site at **www.cbsa.gc.ca**.

48. Criminal penalties pursuant to section 159.1 of the *Customs Act* may be assessed by CBSA where a person:

- (a) fails to mark goods in the manner referred to in Section 35.01;
- (b) marks the goods in a deceptive manner so as to mislead another person as to the country of origin or geographic origin of the goods; or
- (c) with intent to conceal the information given by or contained in the mark, alters, defaces, removes or destroys a mark on imported goods made as required by the regulations made under subsection 19(2) of the *Customs Tariff*.

Additional Information

49. Additional information regarding CBSA's country of origin marking program may be obtained by contacting the regional marking expert in any one of the CBSA offices listed in Appendix F.

50. For questions concerning the administration of these procedures from a CBSA perspective should be directed to the CBSA Border Information Service (BIS) online at www.cbsa.gc.ca, or call BIS toll-free in Canada at **1-800-461-9999**. If you are calling from outside Canada, you can access BIS by calling 204-983-3500 or 506-636-5064 (long-distance charges will apply). BIS agents are available, during regular business hours from Monday to Friday (except holidays), 8:00 to 16:00 local time. TTY is also available within Canada: **1-866-335-3237**.

APPENDIX A**GOODS TO BE MARKED****SCHEDULE I****Goods From a NAFTA or Non-NAFTA Country**

The following goods are required to be marked with their country of origin whether they are imported from a NAFTA or a non-NAFTA country; with (exceptions indicated in the exception of goods in category 3, item 2 (Athletic gloves and mitts); marking requirements only applies to goods imported from a non-NAFTA country).

1. Goods for Personal or Household Use

- (1) Bakeware and cookware made of aluminum
- (2) Bakeware and cookware made of cast iron
- (3) Bath mats, towels, and wash cloths, knitted or woven
- (4) Batteries, dry cell
- (5) Blankets
- (6) Brushes, including toothbrushes and their handles
- (7) Candles
- (8) Cards, the following: credit and identification, made of any material that has a diameter that exceeds, or a side the length of which exceeds, ½ inch (1.27cm) in width and that is imported in sheet form or otherwise
- (9) Chrome-plated ware and utensils for use in serving food and beverages
- (10) Cigar and cigarette lighters, except lighters for incorporation into motor vehicles
- (11) Clocks and movements, except clocks and movements for use as original equipment by motor vehicle manufacturers
- (12) Containers, thermostatic, the following: carafes, flasks, jars, jugs and vacuum bottles, and refills or inserts therefor
- (13) Cutlery, chrome-plated or stainless steel
- (14) Dishes and ornaments made of china earthenware, ironstone, porcelain, semi-porcelain, stoneware or white granite
- (15) Electronic equipment, the following: phonographs, radio receiving sets, radio-phonograph sets, radio-phonograph-television sets, record players, tape recorders and television receiving sets
- (16) Ironing board covers and pads
- (17) Kitchenware made of metal or plastic, coated, lithographed, painted or otherwise, the following: bread boxes, cake humidors, canisters, foil and paper dispensers, range sets, serving ovens and step-on waste cans
- (18) Knives, the following: jack, pen and pocket; scissors and shears
- (19) Lawn mowers (powered)
- (20) Matches in books, boxes, or folders
- (21) Pencils
- (22) Pens, the following: ballpoint and fountain; and nib penholders
- (23) Pillowslips and sheets made of cotton
- (24) Razor blades (safety type)
- (25) Thermometers
- (26) Tiles, glazed, unglazed and ceramic mosaic, the following: hearth, floor, and wall
- (27) Umbrellas
- (28) Utensils, kitchen type, and chrome-plated or stainless steel
- (29) Watch bracelets (expansion type)

2. Hardware

- (1) Caps, made of metal, lithographed or printed, for containers, the following: lug, screw, and vacuum
- (2) Copper tubing
- (3) Drapery I-beam rails, made of aluminum, brass, steel or other metals or plastic, and component parts of drapery I-beam rails
- (4) Electrical measuring devices for panel mounting designed to indicate alternating or direct current microamperes, milliamperes or amperes, millivolts, volts or kilovolts and such other variables as pressure, resistance and temperature that may be translated into alternating or direct current or voltage
- (5) Glass in panes or sheets, the following: common or colourless window, laminated, plate and sheet
- (6) Goods made of porcelain for electrical use
- (7) Files and rasps
- (8) Sink strainers (basket type)
- (9) Tubes, electronic
- (10) Twines, the following: baler and binder
- (11) Wire insect screening
- (12) Iron or steel pipes and tubes

3. Novelties and Sporting Goods

- (1) Articles in the style of North American Indian handicrafts
- (2) Athletic gloves and mitts, including baseball and hockey gloves and mitts¹
- (3) Bicycles
- (4) Decorations, novelties, and ornaments
- (5) Enamelled emblems and silver plated or sterling silver bracelets, brooches, pins and spoons, all designed as souvenirs of Canada, its provinces, territories, cities, towns or other geographical locations
- (6) Gift wrappings, the following: bindings, braids, ribbons, tapes, ties and trimmings, made chiefly or wholly of textile fibres
- (7) Toys, games and athletic and sporting goods

4. Paper Products

- (1) Boxes and cartons, empty folding or set up, made of paper, paper board, plain or corrugated fibre or fibre board, for use as shipping containers
- (2) Paper matter and products, lithographed or printed

5. Apparel

- (1) Boots, shoes and slippers
- (2) Brassieres, corselettes, garter belts, girdles and lacing corsets
- (3) Fabrics, braided or woven, containing rubber yarns, not exceeding 12 inches (30.48cm) in width; boot and shoe laces
- (4) Gloves made partially or wholly of leather
- (5) Hair pieces, the following: wigs, half wigs, switches, postiches, pony tails, toupees and other types of hair pieces designed to be worn on the head of a person
- (6) Handbags and purses, except handbags and purses made of beads, metal mesh or similar material

¹ Please note that this applies to non-NAFTA goods only; this section has been repealed for all NAFTA goods - [repealed SOR/2002-129, s.5]

- (7) Hats, including berets, bonnets, caps, hoods and shapes made of felt fur, wool felt, and wool-and-fur felt
- (8) Knitted garments
- (9) Raincoats and rain wear made of plastic
- (10) Apparel made substantially or wholly of natural or synthetic textile fibres

6. Horticultural Products

- (1) Tubers, tuberous roots, and rhizomes, dormant, in growth, or in flower, of paeonias
- (2) Tubers, tuberous roots, corms, crowns and rhizomes, dormant, of irises or other perennials, except begonias
- (3) Tubers, tuberous roots, or rhizomes, in growth or in flower, of begonias
- (4) Bulbs, dormant or in growth, except tulip bulbs
- (5) Unrooted cuttings or slips of fruit or nut trees, shrubs or bushes
- (6) Trees, shrubs, bushes, vines, or seedling stock, grafted or not, including those capable of bearing fruit, when in a usual container
- (7) Christmas trees, rooted or unrooted, when in a usual container
- (8) Rose bushes, grafted or not, except cut roses, when in a usual container

APPENDIX B

GUIDE TO SCHEDULE I

Product	Definition	Examples
Section 1 of Schedule I – Goods for Personal or Household Use		
1(1) Bakeware and cookware made of aluminum	used to bake or cook food	cake pan, muffin pan, cookie sheet, pots, pans
1(2) Bakeware and cookware made of cast iron	used to bake or cook food	cake pan, muffin pan, cookie sheet, pots, pans
1(3) Bath mats, towels and wash cloths, knitted or woven	bath mat: mat placed on floor in bathroom; wash cloth: used for wiping the hands, face, or person when washing or bathing	wash cloths: face cloths
	towel: used for wiping something dry, esp. for wiping the hands, face, or person after washing or bathing	towels: bath towels, hand towels, kitchen towels, beach towels
1(4) Batteries, dry cell	primary batteries having a zinc anode, a carbon or graphite cathode surrounded by manganese dioxide and a paste containing ammonium chloride as an electrolyte	alkaline and nickel cadmium batteries, does not include car batteries
1(5) Blankets	bed coverings	comforters, duvets, electric blankets
1(6) Brushes, including toothbrushes and their handles		paint brushes, hair brushes, eyelash brushes
1(7) Candles	a body of wax, tallow, or the like, formed around a wick of cotton or flax, and used to give artificial light	Christmas candles, table candles
1(8) Cards, the following: credit and identification, made of any material that has a diameter that exceeds or a side the length of which exceeds 1/2 inch (1.27cm) in width and that is imported in sheet form or otherwise	credit cards: allows one to make a transaction and to pay at a future date; identification cards: shows tombstone information identifying an individual	credit cards: those provided by department stores and financial institutions; identification cards: driver's licence
1(9) Chrome-plated ware and utensils for use in serving food and beverages	chromium-plated kitchen utensils used to serve food and beverages; similar to 1(13) and (28)	chrome-plated ware: serving dishes, ice tongs utensils: ladle, spatula, salad servers
1(10) Cigar and cigarette lighters, except lighters for incorporation into motor vehicles	devices that produce a flame with which to light cigarettes and cigars	disposable lighters (butane), refillable lighters
1(11) Clocks and movements, except clocks and movements for use as original equipment by motor vehicle manufacturers	clock: an instrument for the measurement of time; movement: the moving mechanism of a watch or clock	clocks: wall clocks, grandfather clocks, digital or analog, not including watches
1(12) Containers, thermostatic, the following: carafes, flasks, jars, jugs and vacuum bottles, and refills or inserts therefor		
1(13) Cutlery, chrome-plated or stainless steel	similar to 1(9) and (28) implements for eating and/or serving food	forks, knives, spoons

Product	Definition	Examples
1(14) Dishes and ornaments made of china earthenware, ironstone, porcelain, semi-porcelain, stoneware or white granite		plates, side plates, cups, mugs, saucers, ornaments
1(15) Electronic equipment, the following: phonographs, radio receiving sets, radio-phonograph sets, radio-phonograph television sets, record players, tape recorders and television receiving sets		
1(16) Ironing board covers and pads		
1(17) Kitchenware made of metal or plastic, coated, lithographed, painted or otherwise, the following: bread boxes, cake humidors, canisters, foil and paper dispensers, range sets, serving ovens and step-on waste cans		
1(18) Knives, the following: jack, pen, and pocket; scissors and shears	jack-knife: a large folding clasp-knife for the pocket or purse penknife: a small folding knife, usually carried in the pocket or purse pocketknife: a knife with one or more blades which fold into the handle, for carrying in the pocket or purse	
1(19) Lawn mowers (powered)	used to cut grass	gas or electrically powered
1(20) Matches in books, boxes, or folders		
1(21) Pencils	an instrument for marking, drawing, or writing and having a tapered point	eyebrow/eyeliner pencil; mechanical lead pencil; non-mechanical lead pencil
1(22) Pens, the following: ball point and fountain; and nib penholders		not including felt or nylon tipped pens, nor highlighters
1(23) Pillowslips and sheets made of cotton	coverings for pillows and beds made of cotton	includes pillowcases and shams
1(24) Razor blades (safety type)	must be safety type	blades only, does not include disposable unit, whereby a handle is attached
1(25) Thermometers	an instrument for measuring temperature	food, body, weather
1(26) Tiles, glazed, unglazed and ceramic mosaic, the following: hearth, floor, and wall		
1(27) Umbrellas	anything serving as protection from the elements (i.e., rain or sun)	parasols, golf
1(28) Utensils, kitchen type, chrome-plated or stainless steel	similar to 1 (9) and (13)	flour sifters, egg beaters
1(29) Watch bracelets (expansion type)		
Section 2 of Schedule I – Hardware		
2(1) Caps, made of metal, lithographed or printed, for containers, the following: lug, screw and vacuum		
2(2) Copper tubing	mainly used for plumbing to supply water	for sinks, bathtubs, washing machines

Product	Definition	Examples
2(3) Drapery I-beam rails, made of aluminum, brass, steel or other metals or plastic, and component parts of drapery I-beam rails	tracks to carry curtains	component parts: brackets, rollers, hooks, screws
2(4) Electrical measuring devices for panel mounting designed to indicate alternating or direct current microamperes, milliamperes or amperes, millivolts, volts or kilovolts and such other variables as pressure, resistance and temperature that may be translated into alternating or direct current or voltage	the electrical measuring device is mounted on a panel	
2(5) Glass in panes or sheets, the following: common or colourless window, laminated, plate and sheet		
2(6) Goods made of porcelain for electrical use	insulating posts for electrical high and low voltage lines	usages: telephone posts (low voltage), hydro lines (high voltage)
2(7) Files and rasps	file: a metal instrument, having one or more of its faces covered with small cutting edges or teeth, for abrading, reducing, or smoothing surfaces rasp: a coarse kind of file, having separate teeth raised on its surface by means of a pointed punch	
2(8) Sink strainers (basket type)		
2(9) Tubes, electronic	components of electrical circuits for radios and televisions used for internal electronics and for viewing TV; tubes which contain electrons flowing through them	television tubes, computer monitor tubes, fluorescent light tubes
2(10) Twines, the following: baler and binder	twine: thread or string composed of two or more yarns or strands twisted together	
2(11) Wire insect screening	a wire mesh used in windows and doors to protect against insects, e.g., mosquitos	window/door wire mesh
2(12) Iron or steel pipes and tubes		not including parts that are used to join lengths of pipe together, i.e., pipe fittings, outlets, and nipples or exemptions listed in the section entitled "Method and Manner"
Section 3 of Schedule I – Novelties and Sporting Goods		
3(1) Articles in the style of North American Indian handicrafts	imitation of North American Indian handicrafts either by mass production or otherwise Indian: Aboriginal people of North America Handicraft: skilled work with the hands	

Product	Definition	Examples
3(2) Athletic gloves and mitts, including baseball and hockey gloves and mitts (applies only to goods from Non- NAFTA countries)		
3(3) Bicycles		
3(4) Decorations, novelties and ornaments	decoration and ornament: that which adorns novelty: a new or unusual thing or occurrence; small decoration or toy of novel design	decorations: artificial flowers and fruits, statuettes novelties: figurine stamp pads
3(5) Enameled emblems and silver plated or sterling silver bracelets, brooches, pins and spoons, all designed as souvenirs of Canada, its provinces, territories, cities, towns or other geographical locations	enamel: glasslike coating emblem: a symbol	lapel pins that depict provincial flags
3(6) Gift wrappings, the following: bindings, braids, ribbons, tapes, ties and trimmings, made chiefly or wholly of textile fibres		
3(7) Toys, games and athletic and sporting goods	toy: a plaything for children or others; something contrived for amusement rather than for practical use game: amusement, fun, sport Athletic: pertaining to sporting activities sport: pleasant past time; amusement; diversion	toys: balloons, dolls, stuffed toys games: board games, bowling balls
Section 4 of Schedule I – Paper Products		
4(1) Boxes and cartons, empty folding or set up, made of paper, paper board, plain or corrugated fibre or fibre board, for use as shipping containers		
4(2) Paper matter and products, lithographed or printed		books, magazines, catalogues, calendars, business reports, maps, posters, business invoices; not including blank paper
Section 5 of Schedule I –Apparel		
5(1) Boots, shoes and slippers		not including shoe uppers
5(2) Brassieres, corselettes, garter belts, girdles and lacing corsets		
5(3) Fabrics, braided or woven, containing rubber yarns, not exceeding 12 inches (30.48cm) in width; boot and shoe laces		
5(4) Gloves made partially or wholly of leather		
5(5) Hair pieces, the following: wigs, half wigs, switches, postiches, pony tails, toupees and other types of hair pieces designed to be worn on the head of a person		
5(6) Handbags and purses, except handbags and purses made of beads, metal mesh or similar material		

Product	Definition	Examples
5(7) Hats, including berets, bonnets, caps, hoods and shapes made of felt fur, wool felt, and wool-and-fur felt		straw hats
5(8) Knitted garments		sweater, vest, socks, hat, mittens, leg warmers, coat, scarf
5(9) Raincoats and rain wear made of plastic	plastic: any number of synthetic polymeric substances	
5(10) Apparel made substantially or wholly of natural or synthetic textile fibres	natural textile fibres: cotton, wool, silk, ramie synthetic textile fibres: polyester, nylon, rayon, viscose, spandex	shirt, pants, skirt, dress, jacket, vest, socks, stockings, hat, gloves, scarf, belt, undergarments
Section 6 of Schedule 1 – Horticultural Products		
6(1) Tubers	a short, thick, fleshy, usually but not always underground stem or branch bearing buds (eyes) that serve as storage organs	Begonia
6(2) Tuberous roots	large fleshy roots bearing or producing tubers	Tuberous Begonia, spider plants
6(3) Rhizomes, corms, crowns (also known as Corona)	rhizomes: rootstock, usually an underground rootlike stem on or under the ground that sends up a succession of leaves or stems at the apex and emitting roots from the lower side corms: a solid, swollen part of a stem, usually underground, as the so-called “bulb” crowns: the base of a plant, where the stem and root meet; part of a rhizome with a large bud, suitable for propagation; a circular appendage, or a circle of appendages; in a flower, an outgrowth of the perianth, or the staminal circle or a cluster of small cells crowning the oogonium	Dogwood, German Iris Crocus and Gladiolus

APPENDIX C**GOODS EXEMPT FROM MARKING****SCHEDULE II****Goods From a Non-NAFTA Country**

1. Donations for charitable purposes and not for the purpose of sale.
2. Gifts or bequests.
3. Antiques.
4. Used goods, with the exception of iron or steel pipes and tubes.
5. Goods for the exclusive use of the importer or that importer's employees and not for resale to the general public, with the exception of iron or steel pipes and tubes.
6. Goods that are imported under tariff item No. 9808.00.00, 9809.00.00 or 9810.00.00.
7. Goods imported for subsequent exportation from Canada, with the exception of iron or steel pipes and tubes.

Goods From a NAFTA Country

1. Goods for charitable purposes and not for the purpose of sale.
2. Goods that are gifts or bequests.
3. Goods that are antiques or goods produced more than 20 years prior to importation.
4. Used goods, with the exception of iron or steel pipes and tubes.
5. Goods that are for the exclusive use of the importer or that importer's employees and not for resale to the general public, with the exception of iron or steel pipes and tubes.
6. Goods imported for use by the importer and not intended for sale in the form in which they were imported.
7. Goods that are imported under tariff item No. 9808.00.00, 9809.00.00 or 9810.00.
8. Goods that are imported for subsequent exportation from Canada, with the exception of iron or steel pipes and tubes.
9. Goods that, for purposes of temporary duty-free admission, are in transit or in bond or otherwise under CBSA control.
10. Goods that are incapable of being marked.
11. Goods that cannot be marked prior to exportation without causing them injury.
12. Goods that cannot be marked except at a cost that is substantial in relation to their value for duty so as to discourage their exportation.
13. Goods that cannot be marked without materially impairing their function or substantially detracting from their appearance.
14. Goods that are in a container that is marked in a manner that will reasonably indicate their origin to the ultimate purchaser.
15. Goods that are crude substances.
16. Goods that are to undergo production in Canada by the importer, or on the importer's behalf, in a manner that would result in their becoming goods the country of origin of which is Canada.
17. Goods in respect of which, by reason of their character or the circumstances of their importation, the ultimate purchaser would reasonably know their country of origin even though the goods are not marked with country of origin.
18. Goods that are imported without the required marking and cannot be marked after their importation except at a cost that would be substantial in relation to their value for duty, provided that the failure to mark either goods before importation was not for the purpose of avoiding compliance with the marking requirement.
19. Goods that are original works of art.

20

20. Goods that are classified under subheading No. 6904.10 (ceramic building bricks), or heading No. 85.41 (diodes, transistors and similar semiconductor devices, includes photosensitive) or 85.42 (electronic integrated circuits), other than goods that are so classified by reason of their having undergone a non-qualifying operation specified in section 13 of these Regulations.

21. Goods in respect of which there is no ultimate purchaser.

APPENDIX D

GUIDE TO SCHEDULE II

1. Goods for charitable purposes and not for the purpose of sale (NAFTA and non-NAFTA)

The importer may be required to submit evidence that the goods are for charitable purposes and not for resale. A letter from the recipient of the goods is an example of what may serve as satisfactory proof. It should be noted that the wording for this exemption is different when comparing the NAFTA Schedule with the Non-NAFTA Schedule. While the wording is slightly different, the interpretation of these exemptions is identical in both cases.

2. Goods that are gifts or bequests (NAFTA and non-NAFTA)

The importer may be required to submit evidence that goods are either gifts or bequests. For gifts, a letter from the donor indicating that no sale has taken place is an example of what documentation may serve as satisfactory proof. A bequest may be confirmed by presentation of a copy of the will.

3. Goods that are antiques or goods that have been produced more than 20 years prior to importation (NAFTA and non-NAFTA)

For goods imported from NAFTA countries, it may be evident to the BSO at the time of importation that the goods are more than 20 years old. However, it may be necessary to present evidence of the age of the goods. For non-NAFTA goods, it may be necessary for the importer to present evidence that the goods are antiques. A certificate of antiquity or a letter from an antique dealer may be satisfactory. For the purposes of the country of origin marking requirement, antiques are articles that are more than 100 years old. It should be noted that for goods imported from non-NAFTA countries, such goods must be antiques before they qualify for this exemption.

4. Used goods, with the exception of iron or steel pipes and tubes (NAFTA and non-NAFTA)

CBSA should be satisfied through examination of the goods that they qualify as being used. Used goods do not include seconds, factory rejects, or blemished goods.

5. Goods that are for the exclusive use of the importer or the importer's employees and not for resale to the general public, with the exception of iron or steel pipes and tubes (NAFTA and non-NAFTA)

In many cases, it may be evident from the nature of the goods that they are for the exclusive use of the importer or the importer's employees. However, the importer may be required to substantiate entitlement to this exemption by submitting a letter that outlines the specific details of the disposition of the goods. For a good to be exempt from marking under this exemption, it must be used internally by the importers or their employees and not for distribution to the public. A good example of when this exemption may apply would be the importation of uniforms by a company for use by its employees in conducting their business. In the case of goods imported from a non-NAFTA country, this exemption would not apply in a situation where pens, for example, are being given away to the public as a promotional product.

6. Goods imported for use by the importer and not intended for sale in the form in which they were imported (NAFTA)

For this exemption to be used, there must be a change in the tariff classification of the goods, or the other applicable requirements as described in the marking rules must be relevant (e.g., production that results in a substantial transformation of the product, subsection 12(2) of the *Determination of Country of Origin for the Purposes of Marking Goods (NAFTA Countries) Regulations*). The importer should consult with a marking expert to determine eligibility for this exemption.

7. Goods that are imported under tariff item No. 9808.00.00, 9809.00.00 or 9810.00.00 (NAFTA and non-NAFTA)

Information provided at the time of release should be sufficient for CBSA to determine that the importer qualifies to use these tariff items.

8. Goods that are imported for subsequent exportation from Canada, with the exception of iron or steel pipes and tubes (NAFTA and non-NAFTA)

The importer should submit evidence that the goods will be subsequently exported from Canada. The following are examples of evidence that would be acceptable:

- (a) certification in writing on the customs accounting document that the goods are for exportation from Canada, or

(b) a letter from the importer indicating the circumstances under which the goods will be subsequently exported.

9. Goods that, for the purpose of temporary duty-free admission, that are in transit or in bond or otherwise under CBSA control (NAFTA)

CBSA controls that currently apply to these types of importations will be used.

10. Goods that are incapable of being marked (NAFTA)

In order to determine eligibility for this exemption, an advance ruling request should be submitted as described in the section entitled "Advance Rulings." In any case, the importer, exporter, or producer must submit evidence that clearly demonstrates that the goods are incapable of being marked. CBSA must be satisfied that it is impossible to mark the goods before this exemption is granted. If approval for this exemption is given, the outermost usual container will require marking.

11. Goods that cannot be marked prior to exportation without causing them injury (NAFTA)

In order to determine eligibility for this exemption, an advance ruling request should be submitted as described in the section entitled "Advance Rulings." In any case, the importer, exporter, or producer must submit evidence that clearly demonstrates that the goods cannot be marked without causing injury to the goods. CBSA must be satisfied that injury to the goods would result if the goods were marked. If approval for this exemption is given, the outermost usual container will require marking.

12. Goods that cannot be marked except at a cost that is substantial in relation to their value for duty so as to discourage their exportation (NAFTA)

In order to determine eligibility for this exemption, the importer, exporter, or producer should submit a request for an advance ruling as described in the section entitled "Advance Rulings." In any case, it must be clearly demonstrated that the cost of marking is substantial in relation to the value for duty and that this cost would discourage exportation. If approval for this exemption is given, the outermost usual container will require marking.

13. Goods that cannot be marked without materially impairing their function or substantially detracting from their appearance (NAFTA)

In order to determine eligibility for this exemption, the importer, exporter, or producer should submit a request for an advance ruling as described in the section entitled "Advance Rulings." In any case, it must be clearly demonstrated that the goods cannot be marked without materially impairing their function or substantially detracting from their appearance. If approval for this exemption is given, the outermost usual container will require marking.

14. Goods that are in a container that is marked in a manner that will reasonably indicate their origin to the ultimate purchaser (NAFTA)

In determining how this exemption applies, it is important to determine which party is the ultimate purchaser of the goods. The ultimate purchaser is the last person in Canada who purchases the goods in the form in which they are imported, whether or not that purchaser is the last person to use the goods in Canada. This exemption also applies to goods in a usual container (point of sale packaging). Under this exemption, marking must appear on the container at time of purchase.

15. Goods that are crude substances (NAFTA)

Currently, there are no goods in Schedule I that would be considered as crude substances.

16. Goods that are to undergo production in Canada by the importer, or on the importer's behalf, in a manner that would result in the country of origin of which is Canada (NAFTA)

In order to determine eligibility for this exemption, the importer, exporter or producer should submit a request for an advance ruling as described in the section entitled "Advance Rulings." The request should include marking components (a) and (b).

17. Goods in respect of which, by reason of their character or the circumstances of their importation, the ultimate purchaser would reasonably know their country of origin even though the goods are not marked with country of origin (NAFTA)

In order to determine eligibility for this exemption, the importer, exporter or producer should submit a request for an advance ruling as described in the section entitled "Advance Rulings." In any case, it must be clearly demonstrated that the ultimate purchaser would reasonably know the country of origin even though the goods are not marked.

18. Goods that are imported without the required marking and cannot be marked after their importation except at a cost that would be substantial in relation to their value for duty, provided that the failure to mark those goods before importation was not for the purpose of avoiding compliance with the marking requirement (NAFTA)

The importer should clearly demonstrate that the cost of marking would be substantial in relation to the value for duty and the intent was not to avoid the marking requirement. If approval for this exemption is given, the outermost usual container must be marked.

19. Goods that are original works of art (NAFTA)

In order to be eligible for this exemption, the importer, exporter, or producer should demonstrate that the goods being imported are original works of art. Original works of art are normally signed or initialled by the artist. The following specific information should be provided:

- (a) name of the artist;
- (b) date of the work;
- (c) medium used in the work;
- (d) processes involved;
- (e) whether the work executed entirely by hand; and
- (f) explanation of any other process used.

20. Goods that are classified under subheading No. 6904.10, or heading No. 85.41 or 85.42, other than goods that are so classified by reason of their having undergone a non-qualifying operation specified in section 13 of these Regulations (NAFTA)

Goods in heading No. 85.41 or 85.42 do not require marking.

If the claim for exemption is made based on the goods falling under subheading No. 6904.10, the following information should be provided:

- (a) chemical composition of the product;
- (b) whether the good has been fired after shaping;
- (c) the type of article and intended use; and
- (d) whether the product can withstand a temperature of 1500°C or higher.

21. Goods in respect of which there is no ultimate purchaser (NAFTA)

In order for there to be an ultimate purchaser, a purchase or transaction must take place. The ultimate purchaser is the last person in Canada who purchases the goods in the form in which they are imported, whether or not that purchaser is the last person to use the goods in Canada.

APPENDIX E

EXAMPLES OF ACCEPTABLE METHODS OF MARKING

1. **Anodizing:** the formation of an oxide surface on non-ferrous metal by electrochemical means.
2. **Cast-in-Mould Lettering:** employs metal moulds and cores with either gravity or low-pressure introduction of molten metal, where part of the mould would be in the shape of letters.
3. **Decalcomania Transfer:** decalcomania is a transfer method of printing.
4. **Die Stamping:** to impress (lettering or a design) with heated metal type or dies, normally used to mark hard surfaces.
5. **Embossing:** to raise the surface of an article by pressure against a steel die roller cut or engraved with a pattern.
6. **Engraving:** to represent a mark by incisions on wood metal or stone.
7. **Etching:** to engrave by eating away the surface with acids.
8. **Labels:** a paper or plastic strip with adhesive backing that firmly adheres to a variety of dissimilar surfaces, or sewn in fabric label.
9. **Lithography:** process of printing from a plane surface (e.g., smooth stone or metal plate) on which the image to be printed is ink receptive and the blank area is ink repellent.
10. **Pressure Sensitive Label:** a label that at room temperature, without wetting or other addition, is permanently tacky (on one or both sides) and which firmly adheres to a variety of dissimilar surfaces upon contact, without the need for more than finger or hand pressure. This type of label may also be referred to as a sticker.
11. **Printing:** the process by which multiple reproductions are made from a plate or image carrier on a press.
12. **Stamping:** to impress or mark something with a symbol or design with ink or colouring (a rubber stamp could be used for stamping).
13. **Stencilling:** a form of duplication in which ink flows through openings on a porous sheet to form an image on a receiving surface. No ink can pass through the unopened blocked areas. Paint stencilling refers to the same method using paint instead of ink to form the mark.
14. **Tags:** a paper or plastic strip, normally tied to a product by a string or thread-like plastic.

Memorandum D10-15-13
Handicrafts
1 May 1998

HANDICRAFTS

This memorandum outlines and explains the conditions under which designated handicrafts are admissible under tariff item No. 9987.00.00 of the List of Tariff Provisions set out in the schedule to the Customs Tariff.

Legislation

Tariff item No. 9987.00.00 reads as follows:

The following handicraft goods, originating in a country entitled to the benefits of the General Preferential Tariff, having forms or decorations that are traditionally used by the indigenous people or representing any national, territorial or religious symbols of the geographical region where produced, having acquired their essential characteristics by the handiwork of individual craftsmen using tools held by hand or tools not powered by machines other than those powered by hand or foot, being non-utilitarian and not copies or imitations of handicraft goods of any country other than the country in which they originate, and not produced in large quantities by sophisticated tools or by moulding:

Puppets, musical instruments (other than guitars, viols, harpsichords or copies of antique instruments), gourds and calabashes, incense burners, retablos, fans, screens, lacquer ware, hand-carved picture frames, hand-carved figurines of animals, and religious symbols and statuettes, composed wholly or in chief part by value of wood, if not more than their primary shape is attained by mechanically powered tools or machines;

Ornaments, mirrors and figurines, composed wholly or in chief part by value of bread dough;

Hookahs, nargiles, candelabra and incense burners, composed wholly or in chief part by value of clay;

Figurines, fans, hats, musical instruments, toys, sitkas, greeting cards and wall hangings, composed wholly or in chief part by weight of vegetable fibres or vegetable materials other than linen, cotton or corn husks;

Figurines, masks, baskets and artistic cut-outs, composed wholly or in chief part by value of paper or papier maché;

Puppets, bellows, pouffes, bottle cases, wine or water bottles and jugs, composed wholly or in chief part by value of hide or of leather that has not been finished beyond tanning other than by individual craftsmen;

Figurines, costume jewellery, beads, belts, hair pins, buttons, lamp bases and key holders, composed wholly or in chief part by value of coconut shell;

Musical instruments, chimes, combs, fans, costume jewellery, beads, belts, hair pins, wall and table decorations, buttons, lamp bases, and key holders, composed wholly or in chief part by value of mother of pearl, horn, shell including tortoiseshell, or coral;

Hookahs, nargiles, musical instruments, bells, gongs, incense burners, masks, adzes, mattocks, finger and keyhole plates, door handles and locks, hinges and latches, samovars, kukris and machetes, composed wholly or in chief part by value of base metals, if not more than their primary shape is attained by mechanically powered tools or machines;

Bracelets, nargiles and hookahs, composed wholly or in chief part by value of glass;

Fabrics decorated with crewel embroidery, hand-woven semi-finished wall hangings on back strap looms, reverse hand-sewn appliqué wall hangings, and dhurries, composed wholly or in chief part by weight of wool or cotton;

Lanterns, composed wholly or in chief part by value of stone.

Under this Act, The Governor in Council may amend the list of goods in this tariff item.

Goods may be classified under this tariff item on production of a certificate in duplicate in the prescribed form with the information required to be provided with the form, and signed by a representative of the government of the country of origin or any other authorized person in the country of origin recognized by the Minister of National Revenue as competent for that purpose.

GUIDELINES AND GENERAL INFORMATION

1. The following definitions are intended to explain the administrative policy and to assist in the classification of goods under tariff item No. 9987.00.00 of the List of Tariff Provisions set out in the schedule to the Customs Tariff:
 - (a) "traditional characteristics" means any form or decoration which has been used widely or habitually by the indigenous people of the geographical region where produced, or which represents any accepted national, territorial, or religious symbol of the country of manufacture (e.g., for Canada, the maple leaf or beaver);
 - (b) "artistic characteristics" includes any form or decoration developed from a traditional form or design, but executed in a contemporary idiom;
 - (c) "geographical region" means the country of manufacture being a country entitled to the benefits of the General Preferential Tariff, or a specific region of that country;
 - (d) "non-utilitarian" describes goods that may have a function (a utility) but are obtained or valued for their artistic, religious, or cultural features.
2. To have acquired their essential characteristics by the handiwork of individual craftsmen employing traditional manual skills, handicraft products must have been made by one or more of the following processes:
 - (a) solely by hand; or
 - (b) tools held in the hand which are not powered by machinery other than by machines powered by foot or by hand.
3. Traditional manual skills are those skills handed down from generation to generation, such as:

appliqué work	knitting
beating	knotting
branding	moulding
carving	needlework
chasing	netting
crocheting	painting
cutting	plaiting
drawing	printing
dyeing	punching
embossing	quilting
embroidering	rubbing
enamelling	scraping or scratching
engraving	studding
etching	tatting
filigreeing	tooling
hammering	twisting
inlaying	weaving
joining	etc.

4. For the purpose of this Memorandum, handicraft goods shall be deemed not to have acquired traditional or artistic characteristics by the handiwork of individual craftsmen if:
- (a) they are plain utilitarian goods with no particular artistic or decorative features (qualifying goods may have practical uses but are desired for their artistic characteristics);
 - (b) they copy or imitate, or attempt to copy or imitate, traditional, decorative, artistic, or indigenous products of any country other than the country of manufacture;
 - (c) their essential characteristics are identical (in terms of size, design, method of production) to each other and if it is evident that their quality was closely controlled;
 - (d) there is evidence that an original handicraft product was used as a "model" and reproduced in large quantities partly by hand and partly by sophisticated tools or by moulding; and
 - (e) they are produced by individual craftsmen that acquired their skills by formal training or working under close supervision.

Certificate

5. Handicraft goods may be classified under tariff item No. 9987.00.00 of the Customs Tariff on production of a certificate in duplicate:

- (a) in the form set out below and containing the information required therein; and
- (b) signed by a representative of
 - (1) the government of the country of origin, or
 - (2) any other authorized person in the country of origin recognized by the Minister of National Revenue as Competent for that purpose.

Note: Further information regarding authorization may be obtained by contacting the Director of Trade Administration Services at any regional customs office.

Certificate of Handicraft Goods

The undersigned hereby declares that the following goods originated in(Name of country) which is entitled to the benefit of the General Preferential Tariff:

(Description of goods)

and certifies that the above-described goods are handi-craft products with traditional or artistic characteristics that are typical of the geographical region where produced, namely, (Name of region) and have acquired their essential characteristic by the handiwork of individual craftsmen by means of the following process (e.g., carving, knitting, handweaving)
