**THE WORLD'S
LEADING
TRADE FAIR
FOR ORGANIC
FOODS**

Overview

The World's Leading Trade Fair for Organic Food, combined with VIVANESS, International Trade Fair for Natural and Organic Personal Care, is an important business event, an emotional event for the sector, and both a get-together and an opportunity for positioning. Organic is more than a label or certification: organic stands for quality and conviction – for the responsible use of nature's resources. The exhibition covers the fields of organic food, organic drinks and organic non-food products.

At the world's leading trade fair you will meet representatives of the entire value chain in the organic food market, from production, processing and trade to out-of-home catering. An incomparable range of organic foods, organic beverages and non-food organic products meets in-depth content - in the exhibitors' offerings as well as in the largest international organic congress with top topics.
