With more than fifty years behind it, the meeting is now organised each year by Fira de Barcelona with the collaboration of the Asociación Nacional de Empresas Náuticas (ANEN) and the support of the sector's main entities.

The show presents a large commercial offer in sports and recreational sailing, on and off water. The types of vessels at the show include yachts, catamarans, menorquins, pneumatic launches, cruisers and fishing-leisure boats. The offer is completed with all kinds of products and services, ranging from electronics and motors to paints, sails, trailers, fishing items, charter boats and marinas, as well as small boats.
