

Moscow, Russia

GLOBAL  
EXPERIENCE  
AND CURRENT  
TRENDS OF  
THE CHEMICAL  
INDUSTRY

### Overview

The Khimia international exhibition was first launched in Moscow in 1965 to become one of the most prestigious chemical trade shows. Khimia is a meeting place for chemical manufacturers, service providers, suppliers of the latest equipment, materials and technologies, and consumers from all over the world. According to industry experts, Khimia has a great impact on development of the chemical, petrochemical and other industries, and promotes ties between Russian and foreign companies. Khimia: global experience and current trends of the chemical industry.
