Overview

The world's leading event dedicated for the Tuna Industry and this will feature tuna industry players and stakeholders are expected to attend, debate, and discuss the present challenges and opportunities in creating a socially, economically, and environmentally sustainable global tuna market. The conference will take a close look at the latest developments in the global and regional tuna industries, and would cover a wide range of topics on resources, fisheries management, markets and marketing, products and quality developments, new technology, trade and food safety as well as sustainability, eco-labeling and environmental issues. Side-events such as cooking demonstrations and an exhibition showcase will be highlights at this Conference.
