

Luxembourg

Overview

ICT Spring is a global technology conference that attracts a diverse group of experts from around the world. It provides participants with a once-in-a-lifetime opportunity to expand their digital skills, capture the value of fast-growing FinTech, drive supply chain innovation, pierce the secrets of IT security, and investigate the influence of Space technology on terrestrial organizations. It is a two-day event that facilitates the meeting of minds, encourages emulation, and networking with industry leaders, and will take place in Luxembourg City. It is dedicated to exhibiting and demonstrating the latest relevant trends and innovations, as well as discussing their impact on society and the workplace.
