

Japan IT Week

Japan

JAPAN'S LARGEST
IT EXHIBITION

Overview

Japan IT Week is a B2B event that brings together the most up-to-date IT products and solutions in one location. Many people in charge of social infrastructure system development and operation, distribution, services, and marketing attend the show to deploy innovative IT solutions and network with the best business partners. Embedded Systems Expo, IoT/M2M Expo, Information Security Expo, Cloud & BPR Expo, Web & Digital Marketing Expo, AI & Business Automation Expo, Advanced E-Commerce & Retail Expo, Sales Automation & CRM Expo, and Software & Apps Development Expo are the nine specialized exhibitions at Japan IT Week Osaka, which covers a wide range of IT fields. It will take place in INTEX Osaka, in January. In April, Japan IT Week Spring will take place. Japan IT Week Nagoya will take place at Portmesse Nagoya. The Japan IT Week Autumn will be hosted in Makuhari Messe in Japan.
