Overview

International Rubber Glove Conference and Exhibition will be bridging the gap among industry players and fortifying a greater exchange of ideas. The International Rubber Glove Conference and Exhibition (IRGCE) was inaugurated in 2002 and has continued to build momentum biennially, alongside the industry, to be recognized as the premier platform for all relevant parties to come together and work for hand in glove. It is set once again to push the boundaries and outdo itself, there will not be a lack of accredited papers being featured and presented by various internationally renowned speakers on the trendsetting topics of today and tomorrow.
